Online Training Programme Using MS Excel

Date: 27th April 2020 to 12th May 2020

No. of Participants: 721

An online training programme on “Data Analysis Using MS Excel” was organized by Centre for Research, Innovation and Training (CRIT), IIS (deemed to be University), Jaipur. The event received an overwhelming response from all corners of the country and the number of registrations had exceeded the number that could be accommodated in one batch. In order to cater to all, it was decided to organize this programme in batches commencing on different dates. The training was conducted in five batches from 27th April, 2020 to 12th May, 2020. The total numbers of participants were 721. The participants included academicians, professionals, industry experts, research scholars and students from various reputed institutions of India and abroad like Indian Institute of Management (IIM), Kolkata, All India Institute of Medical Sciences (AIIMS), New Delhi, Indian Institute of Technology (IIT), Kanpur, Association of Indian Universities (AIU), AiMS Global Pvt. Ltd, Singapore, Banaras Hindu University, Varanasi, Osmania University, Hyderabad, Indian Institute of Public Health, Gandhinagar, Gujarat, etc. The training was focused on enhancing the analytical skills using MS Excel to promote quality research. The trainers for the programme were Dr. Sunita Arora, Government College for Girls, Gurugram, Prof. C.R. Bishnoi, Dr. Shweta Kastiya, Dr. Neha Tiwari, Dr. Vandana Sachedeva, Dr. Amita Sharma and Ms. Yashasvi Pandey of IIS (deemed to be University), Jaipur. After the training, e certificates were also awarded to all the participants who have attended all the sessions.

Five Day Faculty Development Programme on Python 3.4.3 (Online FDP)

Date: 25-29 April 2020

Venue: Online

No. of Participants: 26

Objective of the activity: To make faculty members work on Python 3.4.3 through a self-paced FDP program.

The Department of CS & IT successfully organized a five-day Faculty Development Programme on Python 3.4.3 from 25 April to 29 April 2020. The FDP was organized in association with Spoken Tutorials and IIT Bombay. 26 participants took part in this FDP. Through Spoken Tutorial, which is an initiative of National Mission on Education through ICT, MHRD, Govt. of India, the participants were given access to a collection of videos related to Python 3.4.3. The participants watched these videos and completed the assignments. At the end of the workshop all participants also submitted a Course Journal. The FDP was self-paced and was organized free of charge. The participants found it to be very useful and fruitful.

Outcome of the activity: The faculty members developed the skill to work on Python 3.4.3 through the self-paced program.

Online three day refresher program on "Digital Platforms for Online Teaching & Evaluation"

Date: 24, 25 and 30 April 2020

No. of Participants: 207

Objective of the activity: To acquaint the faculty members about various other platforms which are helpful in effective teaching and efficient student assessment.

The Department of Computer Science organised an online three-day refresher program on "Digital Platforms for Online Teaching & Evaluation" for the faculty members of the University on 24 and 25 April 2020. The IISU faculty has been taking online classes successfully during the lockdown period. Through this program they were further exposed to various other platforms which are helpful in effective teaching and efficient student assessment. LMS like Canvas and Google Classroom, Quizzers like Kahoot, Educaplay and class marker, Remote Desktop Sharing platform like Teamviewer, Secure Meeting platform like Cisco WebEx, Video recording software like Loom and Camtasia were discussed.

The Refresher Programme on "Digital Platforms for Online Teaching & Evaluation" concluded with a troubleshooting and experience sharing session on 30th April 2020. The session was organized keeping in view the current lock down situation where online teaching and learning has become indispensable. The participants learned about various aspects of the online availability of different platforms for Teaching and Evaluation where teaching through virtual learning platforms has become necessary to keep connected to the students.

The participants were given online demonstrations on using various online softwares to make their teaching and learning easy and accessible. Apart from experience sharing, few problems faced by the faculty members while installing and using these technologies were also taken up and sorted by the trainers. Faculty members also shared their future plans of incorporating these platforms for efficient online teaching and effective assessment of the students. The faculty members appreciated the efforts put in by the trainers and also gave positive feedback about the information conveyed by the means of this awareness programme.

Workshop on 'Blender 3D Computer Graphics Software'

Date: 7 March 2020

Venue: CIT Lab, IIS (Deemed to be University), Jaipur

No. of Participants: 26

Objective of the workshop: To give hands on working experience of open source 3D animation software: Blender

The Department of Computer Science and IT of IIS (deemed to be University) organized a one-day workshop on Blender led by Dr. Sameer S Sahasrabudhe Senior Project Research Scientist, at the Department of Computer Science, IIT Bombay on 7 March 2020 from 9:00 am to 1:30 p.m. Dr Sahasrabudhe is specialized in advertising, animation film production and open source 3D animation software: Blender. He focused on the concept of designing and provided various activities to make it clear.

In this workshop, students were given a brief description on using Blender for 3D modeling and creating animation videos. The students were informed about the 3D objects and their different views. And the basic features of Blender i.e. moving, rotating and scaling the object. At the end, students were able to animate the objects by learning the concept of key frames. Students performed modelling via blender. A total of 26 students participated in this workshop.

At the end of the workshop the query round was held in which students got an opportunity to put forward questions to satisfy their curiosity. The overall session was informative and students enjoyed it. The workshop ended with a thank you note by expressing gratitude to Dr. Sahasrabudhe for taking out time from his busy schedule and making the students aware of the basic concepts of blender.

Outcome of the workshop: Students were able to animate the objects by learning the concept of key frames.

Patent Workshop

Date: 02 March 2020

Venue: Vinayak Hall, IIS (deemed to be University), Jaipur

No. of Participants: 86

Objective of the workshop/seminar/activity:

- To create awareness about Intellectual Property Rights (IPR)
- To provide basic understanding of all IPRs
- To provide necessary guideline and training about various procedures of patent

Inaugural Session

The following topics are covered in the aforesaid workshop:

1. Overview of IPRs and their importance (Introduction to patents, trademark, copyright, industrial design, SCLD, GI and plant variety);
2. Patents – importance, identification, filing process and case studies;
3. IPR Case Studies and Career Opportunities in IPR
4. Trademark and Geographical Indications – Importance, identification, registration process & case studies;
5. Copyrights and Industrial Design – importance, identification, registration and case studies;

The inaugural program began by invoking the Almighty and lightening the lamp. Dr. Ashok Gupta, Vice Chancellor, IIS (deemed to be University) then welcomed the gathering. He elaborated on the need for Intellectual Property Rights as part of the curricula for India, particularly in view of its immense significance as motivating for investment in R&D. Speaking about the workshop, Mr. Pankaj Kumar (Coordinator, IP Cell, IIS (deemed to be University), Jaipur) why patent and related IPR are important for educational institutions and institutions investing resources on scientific research and development. The session ended with a formal vote of thanks.

The first session of the Workshop was on “Overview of IPRs and their importance (Introduction to patents, trademark, copyright, industrial design, SCLD, GI and plant variety)” by Mr. Prateek Kasliwal, Founder & Proprietor, The Law Desk, Jaipur.

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)

The second session was by Dr. Rohit Jain, Managing Director, Trade Innovation Services, Jaipur. He deliberated on the topic 'Patents – importance, identification, filing process and case studies' and discussed what patentable and the different kind of patent applications.

Ms. Archana Doval, Founder, Navtra IPR Services, New Delhi dealt with some IPR Case Studies in the third session. She also talked on Career Opportunities in IPR.

In the fourth session, Mr. Pankaj Kumar, Coordinator, IP Cell, IIS (deemed to be University), Jaipur discussed the competitive edge by means of IP management. He shared numerous well known examples and related IPR issues particularly on the aspects of Trademarks and Geographical Indications.

Fifth and the last session was by Dr. Abhishek Tiwari, Deputy Director, University Law College, University of Rajasthan, Jaipur. He talked on issues of Copyrights and Industrial Design. He highlighted the importance of Copyrights and Industrial Design, how to register them and what acts are not considered infringement of IPR.

Outcome of the workshop:

The participants were students and researchers from different universities were benefited by the workshop. They gained knowledge on importance of patent and other related issues.

Workshop on Mobile Application Development

Date: 2 March 2020

Venue: CIT lab, IIS (Deemed to be University), Jaipur

No. of Participants: 27

Objective of the workshop: To demonstrate the students the procedure of mobile app development

The Department of Computer Science and IT organized a Workshop on Mobile App Development on 2 March 2020 for the students of BCA. The guest speaker for the session was Mr. Akarsh Middha. He is currently working as a Freelancer Android Developer from Jaipur.

He apprised the students about developing the mobile apps using different platforms and methods. He used some of his original work to explain this to students and also manifested the working of Amazon's Alexa and the basic coding engineering behind it.

The session was edified by having the interaction session after his explanation. Our students got the opportunity to satisfy their curiosity by having the answers to all their queries. Overall the session was very informative. Thus, students look forward to another such interaction in future.

Outcome of the workshop: The students were made aware of the procedure of mobile app development.

3 Days Workshop on Goods and Services Tax

Date: 26th February to 28th February 2020

Venue: CIT Lab D

No. of Participants: 50

Objective of the workshop: The workshop was organized mainly with an objective to cover the concepts related to return filing, registration, E-way Bills and refund under GST law and make students aware regarding the same.

Day 1: 26-02-2020

CA Keshav Gupta conducted the first day activities of the workshop. He briefly discussed the concept of supply and charging the event under GST. He covered the concepts related to registrations under GST and how to get registered under the GST Act on the common portal. He also conducted a practical registration session to make students understand the registration process conveniently.

Day 2: 27-02-2020

CA Arun Soni and Mr. Vijay Chandolia from R. Sogani and Associates conducted the second day GST session which mainly focused on return filing. The two experts discussed in detail the process of filing forms GSTR-1 and GSTR-3B. He also discussed the usage and need of Credit notes and utilisation of Input Tax Credit. The session ended with an assessment for students about the basics of GST.

Day 3: 28-02-2020

CA Keshav Gupta and Mr. Vijay Chandolia wherein GSTR-9, e way bills and refunds were discussed in detail conducted the final day session. A quiz was also held in the end where Rishika Singhal of B. Com. (Hons.) (ATG) stood first, Daksha Khanna of B. Com(Hons) (CS) stood second and Tanisha Vijay of B. Com(Hons) (CS) stood third.

Outcome of the workshop: In a nutshell, the workshop was a very enlightening and informative for the students. They were able to learn how to apply their theoretical knowledge practically.

State-DST Sponsored National Workshop on Basics of Molecular Biology and Nanotechnology

Date: 26th- 29th February, 2020

Venue: IIS (deemed to be university), Jaipur.

No. of Participants: 34

Objective of the workshop: Participants will be able to learn and perform a number of complicated yet basic techniques by the end of this workshop.

The Department of Biotechnology (IIS deemed to be University, Jaipur, Rajasthan) organized a four day workshop (from 26th-29th February, 2020) on basics of Molecular Biology and Nanobiotechnology Techniques. This workshop covered myriads of basic and advanced techniques of Molecular Biology including DNA & Protein Isolation, Electrophoresis, PCR, Enzyme Kinetics, etc. The workshop even consisted of lectures from eminent academicians aiding the participants to brush up their minds and inculcate these learning in their future research work and career.

The Day 1 of the workshop began with Inaugural Lecture of Dr. Gagan Dhawan, University of Delhi, who enlightened the minds of the students with his lecture on “Scope of Biotechnology, An Insight into Drug Discovery”. The ultimate result of a research is related to the development of drugs or the products related to the betterment of mankind.

The Day 2 began with an eye-opening lecture on “Why biogenic metallic nanoparticles are more favorable?” by Dr. Surendra Nimesh, CURAJ, Ajmer. The increasing pollution levels and toxic effects of metal nanoparticles have called for an urgent need of green synthesis of nanoparticles using plants, bacterias, etc. This lecture was followed by hands-on for Biogenic Synthesis of Silver Nanoparticles and its analysis along with basic characterization of silver nanoparticles by UV-Vis Spectrophotometry

The Day 3 concluded with a glance into the world of enzyme through an invited lecture by Dr. Nidhi Pareek, CURAJ, Ajmer. The lecture was followed by mind teasing exercise on Enzyme Kinetics and interpretation of the Michalis-Menten Equation

The Day 4 gave an amazing experience to the participants as Dr. Gyanendra Shukla from CURAJ, Ajmer delivered his lecture on “Nucleic Acid Gel Electrophoresis and PCR”. This lecture was followed by hands-on for PCR reaction set up.

National Workshop on Data Analysis using SPSS and EViews

Date: 24th February to 29th February 2020

Venue: Aaditya Hall

No. of Participants: 52

The Centre for Research, Innovation and Training, IIS (deemed to be University) organized a six-day National Workshop on Data Analysis using SPSS and EViews from 24th February to 29th February 2020. The workshop commenced with the inaugural session on 24th February. Prof. K.S. Sharma, Director CRIT apprised the participants about the functioning of CRIT and objectives of the workshop. He further emphasized on the fact that this workshop was organized to address the challenges and opportunities in the field of research with the help of statistical software like SPSS and EViews. He also stated that the workshop will help the researchers to identify right analytical tool for conducting data analysis. In all 50 participants actively participated in the workshop.

Resource person for the 1st session was Prof. C.R. Bishnoi, Head, Department of Economics, IIS (deemed to be University). He elaborately discussed the importance of data analysis and its implementation in the respective domains. 2nd Session taken by Dr. Shweta Kastiya, Head, Department of Management Studies, IIS (deemed to be University), she demonstrated the functioning of SPSS including the following teachers like data entry for analysis, finding outliers, exporting and importing of data etc. Last session was taken by Dr. Vandana Sachdeva, Senior Assistant Professor, Department of Management. She discussed the concept of some features like select case, case split file and graphic presentation in SPSS software.

On 2nd day of the workshop, first three sessions were taken by Prof. C. R. Bishnoi, he covered the topic of Hypothesis Testing and the various parametric and non-parametric tests using SPSS. The last session of the day was hands on training on SPSS under the supervision of Dr. Shweta Kastiya.

Resource Person for day 3 and 4 was Dr. Seema Malik, Assistant Professor, Department of Commerce, Bhagat Phool Singh Mahila Vishwavidyalaya, she discussed the concept of Structural Equation Model (SEM) using AMOS and also taught the participants about how to compare the results of SPSS and AMOS. She also conducted a training session on exploratory factory analysis.

Training sessions on day 5 and day 6 was taken by Dr. Sunita Arora, Government College of Women, Rohtak. She gave hands on training on SPSS and Eviews covering the topics like; Regression Analysis, Multiple Regression, Time Series Analysis, Vector Auto Regression Model, Co-Integration Model, Ordinary Least Square Model and Auto Regressive Distributed Lag model.

The workshop was a learning experience for all the participants and the techniques learned over past 6 days and will definitely help in improving the quality of research.

Demonstration of Plant Decoration

Date: 12th February 2020

Venue: Room No C-305

No. of Participants: 30

A Demonstration was organized on Plant Decoration as a part of Home Management Guild activity by department of Home Science on 12th February, 2020. This activity was opened for all the students of Department of Home Science and around 30 students eagerly participated in it. The activity started with the welcome speech which included a brief introduction of Dr. Aditi R.Khandelwal Senior Assistant Professor, Department of Business Studies, The IIS (deemed to be) University , Jaipur. Besides Academics Dr. Aditi is doing plant ornamentation as her hobby. She also has her own page on instagram ,where there are various types of decorative plants are available for purchase. She makes the student learn about different types of plants that can be used for decoration, materials that can be used for decoration like floral foam, pin holders, pin toys etc. Dr. Ila Joshi presented bouquet of flowers to the Guest and Miss Isheetta Sharma gave a brief introduction about her. Later, she began the activity with an elaborate explanation of the different types of indoor plants like succulents zade etc. She also gave some tips for indoor plants to fresh and alive for longer period. All the prepared plants were very beautiful and the activity was found to be very fruitful for the students as well as the staff.

Workshop on 'Creating Awareness on Intellectual Property Rights (IPR) & IP Management'

Date: 11.02.2020

Venue: Vinayak Hall, IIS (deemed to be University), Jaipur

No. of Participants: 100

Objective of the workshop: To create awareness on Intellectual Property Rights (IPR) & its Management

A Workshop on 'Creating Awareness on Intellectual Property Rights (IPR) & IP Management' Jointly organised by CII in collaboration with Intellectual Property Office, Department for Promotion of Industrial & Internal Trade (DPIIT), Ministry of Commerce & Industry, Govt. of India and IIS (Deemed to be University), Jaipur on 11 February 2020.

Inaugural Session

The inaugural program began by invoking the Almighty and lightening the lamp. Dr. Ashok Gupta, Vice Chancellor, IIS (deemed to be University) then welcomed the gathering. He emphasized on the importance of the role of IP systems in growth and enhancement of the socio-economic prosperity of a nation, in terms of strategic business planning.

The chief guest **Ms. Pallavi Mishra**, Senior CII Rajasthan State Council Member & Vice Chairwoman- CII Indian Women Network (IWN) Rajasthan, said that there are various IPR which are very useful for everyone who wish to get fame and earn. Now days startups and MSME people getting advantages earning IPR to compete in market with large commercial entities. Mr. Shankar Lal Meena, Examiner of Patents & Designs, Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, indicated the efficiency of Govt. IP office and advantages of express request for patent publication. The session ended with a formal vote of thanks.

Session 1: Legal Requirements and Filing Procedures for Patent Protection in India

Mr. Shankar Lal Meena, Examiner of Patents & Designs, Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry shared what is the subject matter for patent, what information and document required getting patent, kinds of patent application, time-line of patenting, laws of the patent.

Workshop on Introduction to Innovative Zoology Software

Date: 7th February 2020

Venue: Department of zoology, IIS (Deemed to be University) Jaipur

No. of Participants: 50

Objective of the workshop: To give the information about Innovative Zoology software through which students can learn classifications of the animals

An activity was organized by the Department of Zoology on 7th February 2020, in which Dr. Pallavi Kaushik and Dr. Neetu Kachhwaha introduced innovative zoology software by which students can learn classifications of the animals. Students love zoology as a subject as they get to know about themselves and animals around but the systematic classification is burdensome and they often face problems to memorize the classification of the vertebrates and invertebrates. There is a wide gap between the scientific knowledge of animal classification and student's conception. A study showed that the students of elementary, secondary and college level when asked to do complete classification tasks, all age groups failed to generalize and discriminate among examples and non-examples of animals. The weakness in the basics of Zoology results in poor performances at all levels. It is also seen that during the examination the students skip and do not like to attempt these questions preferably. To solve the problem the software will help students at all levels to excel in the subject of zoology and solve basic problems. This will also help the students who are pursuing undergraduate (UG), post- graduation (PG) in science (Zoology as one their subject) and also students who are preparing for the competitive examinations like UGC-NET, RAS, NEET. Students of M.Sc. and B.Sc(H) attended the programme with great enthusiasm. This activity proved very useful for the students and faculty as well.

Painting Demonstration

Date: 6 February 2020

Venue: Department of Fine Arts

No. of Participants: 64

Painting is one such medium which allows us to express our emotions, thoughts, imagination through colours without any boundaries. This phenomenon was well understood in a demonstration done by Prof. Anjani Prabha Reddy, former head, painting, JawaharLal Nehru Architecture and Fine Arts University, Hyderabad. She is now working as a freelance artist. It was a good interactive session in which all the students and faculty of Department of Fine Arts took part. She advised the students not to lose the connection with art and practice it on a daily basis.

This routine will help in building up confidence and hold on various mediums along with reducing the fear related to art. Her best advice was to be unafraid in expressing any thought and keep experimenting with art we are related to. This fearless feeling was evident in the way she applied colours to the canvas. Started off with dark colors and easily kept on mixing others into it. Experimenting was just not in her words, it was visible in the way she used the tail end of a brush to create the masterpiece on the base she had applied. The next canvas was unpredictable. None of the viewers could guess the colours that came out in the end. How easily she included a human figure in the whole composition along with the supporting elements was interesting. How to work in layers without the fear of the outcome and how to compose different elements together was what every student could learn from her.

No point in running away from new techniques she said, as the great artist Picasso also said that we should do self discovery through our art and try new things and not stick to making it realistic. Prof. Anjani was kind enough to share how she practices her art and the process she goes through in coming up with one masterpiece. She breaks out of her mundane routine and experiments with different mediums and ends up discovering a new thing. Self criticism is the key to creating good paintings that's her mantra.

REGISTRAR

JIS (DEEMED TO BE UNIVERSITY)

Gurukul Marg, SFS, Mansarovar,

Jaipur-302020 (Raj.) INDIA

She ended the workshop on the note that while being a student one should learn every preset rule of art but as we grow further one should know how to unlearn those rules. One should always keep the child alive within and every time draw fearlessly like a child.

Fresco Workshop

Date: 5-25 February 2020

Venue: Department of Fine Arts

No. of Participants: 35 Students

Objective of the workshop: To learn an ancient Indian painting technique 'Fresco Buon'. This was a very prominent style of painting. It can be seen in the frescos of Ajanta and was lost in the time due to invasions and other reasons.

Fresco is a style of painting which is done on the prepared walls. It is an ancient Indian technique which is being practiced by a few artists of India. Dr, Nathulal Verma a miniature artist as well as a fresco artist is well known in this field. Another artist cum artisan Mr. Radha kishanji is also technically sound in preparing surface, colour and tiles to teach students the actual technique of Fresco Buon. The main objective of the workshop was to learn this ancient Indian technique to work on walls. A piece of art is just not the final end product, it's the artist's hard work, patience, a lot of thought process put into it. It is to know from where it originated, the history it has. It requires a lot of hard work and patience to create an artwork. The students of Fine Arts were able to experience this in the "Fresco Workshop" conducted by The Department of Fine Arts, IIS Deemed to be University from 5th - 25th February'20.

Dr. Nathulal Verma, Retd. Assistant Professor, Dept. of Drawing and Painting, University of Rajasthan, Jaipur and Freelance Fresco Artist and Radha Kishan Ji, Renowned Artist from Banasthali, Rajasthan were the eminent artists who guided our students through it. In this 20 day workshop the 35 students learnt the art of making a fresco tile from the scratch. Starting from how a tile is made, how to make the natural colours, the process of applying it. Their patience was tested along with it, taking care of the tile as if it was a child. The phrase of putting all your heart and soul in an art work was well seen in action here.

Our faculty members and lab assistants didn't stay behind. They took this as an opportunity to enhance their skill and knowledge. They enjoyed being a student again. This chance of getting the knowledge first hand about an age old art form from the artist was a golden opportunity for everyone.

Jaipur-302020 (Raj.) INDIA

Outcome of the workshop: The students of painting could learn one of the famous painting style of Indian Art. They were taught to create tiles made of ancient methods, make colours through natural things like minerals, Kajal, semi precious stones etc. The students learnt the whole process of painting and technique. They were asked to create one or two tiles but they got so much interest in that they created more than three or four tiles. A great enthusiasm could be seen in the students to learn this technique and creating many tiles.

Workshop on Airline ticketing software

Date: 5 February 2020

Venue: IISU campus

No. of Participants: 15

Objective of the workshop: It was meant to bring awareness about various ticketing software and bring in a sense of understanding of various commands and techniques amongst the students. A software was used in the workshop to guide the students and practical exposure would be there.

The department organized a workshop on Airline ticketing software. Workshop was aimed to increase the skills of students needed to prepare an airline tickets. Students learnt how to use various commands and formats to design an airline tickets. Students came to know about various commands to be used to get information about how to get fare, baggage allowance, availability of seats, meal charges, maximum permitted mileage etc. This work shop was designed to increase the hands on experience on airline ticketing. Work shop was intended to increase the curiosity among the student regarding utilization of software that ease the process of ticketing and they would be able to generate the ticket with short span of time. Resources person for the Workshop was Mr. Lokesh sehgal (Assistant professor).

Outcome of the workshop: Students came to know about various commands to be used to get information about fare documentation, baggage allowance, availability of seats, meal charges, maximum permitted mileage, currency exchanges etc. students learnt to airline ticketing procedure. Workshop proved fruitful to students who were intended to increase their knowledge regarding utilization of software that ease the process of ticketing and they would be able to generate the ticket with short span of time.

Workshop on Fashion Jewellery Ornaments Making

Date: 24-25 Jan. 2020

Venue: Room No. A-503

No. of Participants: 28

Objective of the Workshop: (1) To impart the knowledge of associating scrap material with jewellery beading skills. (2) To increase the creativity among students. (3) To enable students awareness of importance of designing for sustainability

The department of Jewellery designing organized a fashion jewellery ornaments making workshop for jewellery designing students. During the workshop, students got the opportunity to learn all the phases of fashion jewellery making using mouldit, tissue paper beads, Hook, Findings, Gem Stones and scrap material. The fashion jewellery making expert Ms. Rashmi Agarwal choose to make the beautiful pieces like necklace, Rings, Pendants, Bangles and earrings etc according to their interest. In the beginning session, Dr. Neeru Jain, Head, Department of Jewellery designing, IISU, introduced the students with the Fashion Jewellery Process, tools, Equipments and materials. In practical sessions, students were involved with the planning and practice of techniques, types, size and colour combination of the beads as well as beading designs. The students participated enthusiastically in the workshop and it was a informative and creative workshop which imbibe technical skills and knowledge amongst the students.

Outcome of the workshop: Students learned all the phases of fashion jewellery making using shilpkar, beads, Hook, Findings, Gem Stones. They can create their own fashionable jewellery can commercialized this beading art and open new boundaries for job seekers. They can start their own business with small capital and can give employments to others.

Seven Days National Workshop on “Emerging Online Business in India”

Date: 4th December to 10th December 2019

Venue: CIT Lab, IIS (deemed to be University)

No. of Participants: 34

Objective of the workshop: Workshop aims at making the participants aware about various aspects and opportunities in online business in India.

The renowned speakers discussed the following emerging issues:

Day 1: 4.12.2019

Technical Topic 1: The Impact of Fintech on Community Banks

Speaker: Mr. Nitin Saxena (Branch Manager, HDFC)

In this session, Mr. Nitin Saxena introduced participants to the latest FinTech developments in the banking sector. Participants learned how FinTech has transformed the traditional payment systems and got acquainted with un-conventional payment methods like Paytm, UPI, plastic money, NEFT, RTGS etc.

Technical Topic 2: The Impact of Fintech on Community Banks

Speaker: Mr. Nitin Saxena (Branch Manager, HDFC)

Mr. Shivang from HDFC demonstrated the usage of mobile/internet banking app and its features to the participants. Students learned how to operate online transactions over their phones on internet. The cyber risk associated with online transactions and the measures to overcome them were also discussed during this session.

Day 2: 5thth December, 2019

Technical Topic 3: Investment Avenues, Stock Market Price Behaviour

Speaker: Dr. V.K. Gupta (Associate Professor, UOR, Jaipur)

In this session, Professor Dr. V.K. Gupta acquainted students with the various investment avenues available in the market like shares, debentures etc. The participants learned about difference between investment & saving and also about the factors, advantages and the risks associated with Investing in Share market.

Technical Topic 4: Portfolio Management: Risk and Return Analysis

Speaker: Dr. B.L. Gupta (Retired. Associate Professor, UOR, Jaipur)

Dr. B.L. Gupta enlightened the participants about the meaning of Portfolio in Capital market and its importance in the current scenario. He also discussed how to manage the portfolio and the

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

approaches to maximizing its value. Participants learned about various unconventional investment sources like SLBs, Non convertible Debentures (NCDs) and Gold scheme Bonds.

Day 3: 06th December, 2019

Technical Topic 5: Opening of Demat Account and Online Trading

Speaker: Dr. V.K. Gupta (Associate Professor, UOR, Jaipur)

In this session, Dr. V.K. Gupta introduced students to the basics of Dematerialisation and Rematerialisation and their procedure. He demonstrated the students regarding the opening of Demat account and how to run it. Students also learned about the factors to be considered before selecting a stock to invest in.

Technical Topic 6: The Global Derivative Market: Introduction & Practical Aspect

Speaker: Dr. B.L. Gupta (Retired Associate Professor, UOR, Jaipur)

Dr. B.L. Gupta introduced participants to the world of Derivative Market. He discussed in length the various options available to investors like Forward, Future and Option and their mechanism of operation. Students were taught various Hedging strategies to manage the risk and maximize the returns in derivative market.

Day 4: Date: 7th December, 2019

Technical Topic 7: Income tax for beginners

Speaker: CA Rajeev Sogani (Founder Partner, R.Sogani and Associates)

Mr. R.Sogani introduced participants to the prevailing taxation system and tax laws in India. His team discussed in great length about various types of income that is taxed and how to calculate Net taxable income. Students also learned about various deductions and exemptions available to taxpayers under Income Tax laws.

Technical Topic 8: E Filing of various ITR's

Speaker: Ms. Shivani (R.Sogani and Associates, Jaipur)

Ms. Shivangi from R.Sogani and associates demonstrated how to file online Income Tax Returns (ITRs) to the participants. Various types of ITR forms and the requirements to fill them were discussed in great detail. Students also practiced filing ITRs for individuals and business enterprises.

Day 5: Date: 8th December, 2019

Technical Topic 9: Global Scenario –GST a preferred tax structure

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Speaker: C.A. Keshav Gupta (R.Sogani and Associates)

C.A. Keshav Gupta from R.Sogani & team introduced participants to the new tax called Goods and Service Tax (GST). He lined out the difference between old and new tax regimes in India and how GST has impacted businesses and professionals. Students also learned about various misconceptions regarding GST and the ways to deal with them.

Technical Topic 10: GST Implications: Gearing up for the change

Speaker: C.A. Keshav Gupta (R.Sogani and Associates)

In this session, Mr. Keshav demonstrated how to file GST returns for different kinds of assesses online. Various types of forms under GST and the audit and assessment procedure were discussed. Students practiced filing GST returns and invoicing under GST using the GST portal.

Day 6: Date: 9th December, 2019

Technical Topic 11: Digital Marketing

Speaker: Mr. Deepak Choudhary (Director, Digi Learnings)

Mr. Deepak Introduced students to the increasing business opportunities in the field of Digital Marketing. Participants learned about various avenues of online earning like Blogging, Vlogging, Affiliate marketing, YouTube channels, EBooks etc. They also got their queries solved regarding how to reach bigger audience to earn more profits and how to survive the online business market in long term.

Technical Topic 12: Cyber Crime

Speaker: Shri R.K. Saxena (Retired Inspector General)

In this session Mr. Saxena informed participants about increasing probability of cyber crimes associated with developing internet technologies. He discussed the role of businesses, police and govt. Agencies in dealing with cyber crimes. Students also learned about the remedies available in dealing with cyber crimes under Information Technology Act in IPC.

Day 7: Date: 10th December, 2019

Technical Topic 13: Growth Opportunities in Hyper Competitive Environment.

Speaker: Mr. Diptamoy Goswami (Retired Vice President)

In this session, Mr. Diptamoy Goswami discussed growth opportunities available in hyper competitive business world today. He discussed the factors to be considered while venturing into business as well as various challenges involved. Participants were encouraged to pursue unconventional and innovative ideas and to build up a business around those ideas.

Workshop on 'Bootstrap- CSS Framework for Web Development'

Date: 22 October 2019

Venue: CIT lab, IIS (deemed to be UNIVERSITY)

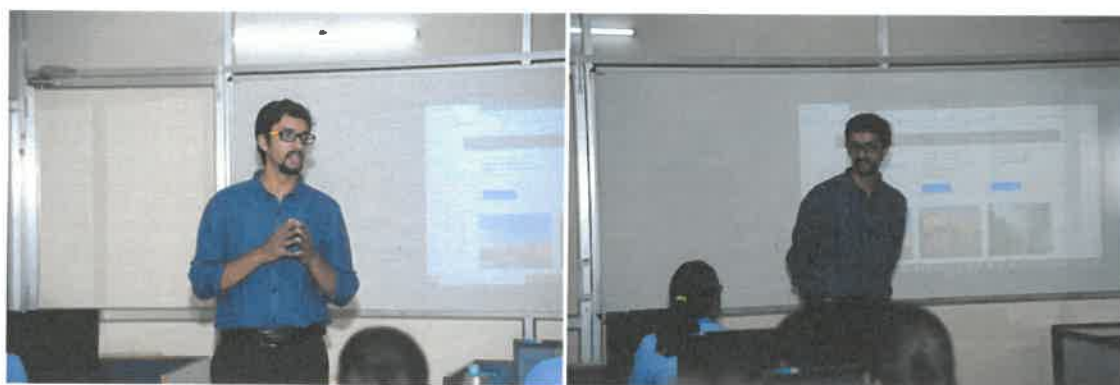

No. of Participants: 35

Objective of the workshop: To give a hands on experience of working on Bootstrap for effective web designing

The Department of Computer Science and IT organized a workshop on "Bootstrap" led by Mr. Rohit Jain, founder and CEO of Full Stack Learning.

The students were provided the information on Bootstrap where Mr. Rohit told the students that Bootstrap is not only CSS but less CSS. He gave the introduction about Bootstrap's official website. Also he talked about the Content Delivery Network (CDN). Mr. Rohit further discussed about the implementation of Bootstrap where he explained the components of Bootstrap i.e. Alerts, Cards, Buttons. It was an enlightening experience for the students as they were able to learn and implement the basics of Bootstrap. All the students gained valuable insight regarding Bootstrap. At the conclusion of the session the query round was held in which the students got an opportunity to put forward questions to satisfy their curiosity. The overall session was enlightening and the students enjoyed it. The session ended with a thank you note by expressing gratitude to Mr. Sharma for taking out time from his busy schedule and making the students aware of the technology.

Outcome of the workshop: The students learned working in Bootstrap, its various components and CDN.

Workshop: Cross-Cultural Exposure to German Language and Literature (Part III)

Date: 21st to 22nd October, 2019

Venue: Ojas Hall

No. of Participants: 75

Objective of the workshop: To develop a personal approach towards German Language Learning among students.

The students from different courses of the German Department i.e. COSD (Certificate and Diploma), B.A. Elective (Semester I, III & V) as well as MIB had a fruitful academic interaction through a workshop with eminent Germanist Prof. V.Ganeshan. Prof. Ganeshan spoke to the students with a great amount of clarity and deliberation on following topics:

- Gedichte (Poems) by Goethe, Novalis and Bertolt Brecht.
- Merkmale der Epochen der deutschen Literatur.
- Wie lernt man deutsche Grammatik : Adjektivdeklinatation.
- Wie lernt man deutsche Grammatik : Verben mit Dativ.
- Wie lernt man deutsche Grammatik : Nominativ und Akkusativ .
- Wie lernt man deutsche Grammatik : Präpositionen.
- Deutsch sprechen ohne Angst : Einige Strategien

Outcome of the workshop: The students had a very fruitful discussion on topics related to various intricacies of German grammar and also participated in a very lively workshop on how one can start speaking German without much hiccups and inhibitions in German as Foreign Language class.

Workshop on Writing Resume and Statement of Purpose

Date: 14 October 2019

Venue: AV Hall

No. of Participants: 40

Objective of the workshop: To acquaint students with Resume writing skills

A two hour workshop was held on 14th October, 19 in the IIS (deemed to be University), Jaipur which was open for all the students of the university. The workshop focused on building a student's resume and the Statement of Purpose. The workshop started around 1 pm with the felicitation of the guest speaker who was Mrs. Vidya Suresh, the country manager, ESIGELEC India office.

In the first half, Mrs. Vidya Suresh emphasized on the significance of resume. She elaborated some of the characteristics of a good resume. She also explained the format of a CV which has to be in the reverse chronological order. She highlighted some of the main points which has to be included in the person's CV and those were: Personal contact details, Professional experience, Educational qualification, language skills, computer skills, Personal interests, References.

She also emphasized on the importance of using some of the action words that can make a resume more attractive. In the educational column of the resume-Specializations, ranks, honours, awards, publications etc. are to be included to get an overall review of the person's performance.

Other things like attending a workshop, learning a new language could also be included. She also mentioned things that don't work in a CV which include spelling errors, lack of personal details, poorly presented photograph, fancy formatting etc.

The second half was all about how to write a Statement of Purpose. The student has to understand that it is not a literary exercise. She also suggested checking the SOP, editing it, rewriting it and asking a family member or a friend to read the document to provide suggestions. The things that are to be taken into consideration when writing an SOP is , to avoid lies, plagiarism, flattery, childish sentences.

Jaipur-302020 (Raj.) INDIA

The workshop was wrapped up around 3 pm. The efforts of Mrs. Vidya Suresh were appreciated and encouraged by the staff as well as the attendees. There were a lot of questions put up by the audience which impressed the guest speaker. She showed her willingness for such workshops more in the in the coming future which is certainly motivating and encouraging both for the students as well as the faculty.

Outcome of the workshop: Students got to know about writing resume and statement of purpose.

‘Employability Mock Process’ Workshop

Date: 10th-12th October 2019

Venue: AV Hall

No. of Participants: 75

Objective of the workshop: To acquaint participants with Employability skills.

The Department of Management Studies and the Training & Placement Cell, IIS (deemed to be) University had organised a Three Day Workshop on ‘Employability Mock Process’ from 10th-12th October 2019 for the students of BBA Semester III and V. There were about 75 students participated in the Workshop. The Resource person for the same was Ms. Akansha Manchanda, Endeavor Careers, Jaipur, The key Resource person was felicitated and warmly welcomed by Dr. Shivi Saxena, Training and Placement Officer, IIS (deemed to be) University, Jaipur.

In this Workshop, the following areas have been covered:

1st day: Preparation for Aptitude Test, and

2nd day: Techniques for Group Discussions and Mock Group Discussions

3rd day: Tips for Personal Interview and Mock Personal Interviews

Day1

The workshop was commenced on October 10th 2019. On the first day, Ms. Manchanda discussed about how to enhance aptitude and reasoning skills. She discussed various forms of vocabulary including the meaning, origin, pronunciation and usages of words, their synonyms and antonyms, as well as uses of idioms and phrases.

Day2

On October 11th 2019, the resource person discussed the techniques of participation in Group Discussions, Do's & Don'ts in Group Discussions, and conducted Mock Group Discussions for the students. There were about six Group Discussions held in the session. Each group consisted of 8-10 members. The topics of the discussion were related with current scenario. All the students actively participated in the mock Group discussions. At the end of each discussion, the resource person gave personal feedback to the students.

Day3

On the third day of the Workshop i.e. October 12th 2019, the resource person addressed the students about the tips for how to face Personal Interviews effectively. Mock interviews were conducted for all the participant students. During the mock interview, questions were asked from

students like - introduce yourself, tell about your hobbies, strengths, weaknesses, career objective, and some specific questions regarding their discipline. This gave an opportunity to the students to interact with the Resource person and her team for personal counselling. Feedback was also provided to each student on their performance.

Outcome of the workshop: The workshop was successful in promoting the employability and aptitude skills among students. The sessions were very interactive with the students. It helped the students in promoting knowledge of reasoning, vocabulary and grammar. The workshop gave an insight on the use of communication skills, leadership skills, effective listening, outer box thinking, self efficacy, Interview skills, and use of data and information during Group Discussions.

National Workshop on Curative & Preventive Conservation of Textiles

Date: 20th September-21st September 2019

Venue: Vinayak Hall

No. of Participants: 56

Objective of the workshop: To bring together experts from the field of Textile Conservation to give hand on training for better upkeep of artifacts.

Department of Fashion & Textiles organized two day National Workshop on “Curative and Preventive Conservation of Textiles” in collaboration with Textiles and Clothing Research Centre (TCRC). This workshop was conducted with the help of presentations and practical exercises. There were 53 participants from all over the India. Besides Rajasthan, there were participants from Maharashtra, Madhya Pradesh and Uttar Pradesh.

The workshop began with the inaugural session seeking the blessings of almighty followed by lighting the lamp. Resource persons of the workshop were Dr. Anamika Pathak, Founder Chairperson, Textile and Clothing Research Centre (TCRC). Dr. Simmi Bhagat, Associate Professor, Lady Irwin Collage, Founder Member TCRC, New Delhi. Ms. Smita Singh, Textile Conservation Consultant, Founder Member and Chief Editor TCRC, New Delhi.

On day one workshop began with an inaugural ceremony. In which Dr. Ashok Gupta, Vice Chancellor, IIS (Deemed to be University) Jaipur extended warm welcome to all the resource persons, delegates and participants and threw light on the importance and relevance of the workshop. After this Dr. Anamika Pathak highlighted the importance of preserving textiles for historic interest. She also explained the aesthetic appeal and cultural significance the textiles. She explained role of textile as heirloom, art and craft. She mentioned Rajasthan as the “Garh” of textiles because of its rich heritage and culture. In her presentation she showed collection of textiles of Museum through pictorial presentation to give exposure towards cultural heritage.

After this session, Dr. Simmi Bhagat explained the meaning of conservation with reference to textile as cultural property. She focused on restoration as a third branch of conservation after preventive and curative treatment. She emphasized on different factors of deterioration like natural and manmade and discussed the factors that cause damages through an example of Calico Museum Ahmedabad. Sensitivity of textiles and vulnerability to decay when stored or displayed in inappropriate environmental conditions was also explained.

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Thereafter Dr. Anamika Pathak briefed the audience about the handling and movement of textile objects. She described the materials used in handling of textiles like aluminium with wooden edges, PVC tubes of different dimensions according to the products and for storage of the object like flat keeping, framing, mounting and card box. Another session was taken by Ms. Smita Singh. The key highlights were on the different factors and causes of deterioration like mechanical, physical and chemical. She gave the condition report for textiles to the participants for getting an idea about the practical procedures of documentation of textiles. This report is used by the conservators in museum to keep record of the objects. She also explained the concept of reactions which can be the cause of degradation of textiles like photochemical and oxidative reactions in the presence of light, humidity and temperature. She also explained how condition reports are produced after detailed examination of the object.

The second day of the workshop begins with the session conducted by Ms. Smita Singh. She addressed on analysis and testing methods for textiles like weave analysis, stitch analysis and digital methods. She explained the method of handling objects which includes folding with the concept of tissue paper padding to resist the object from creases. This was followed by an overview of curative treatment of textiles. She explained that there are two types of cleaning i.e. mechanical and solvent cleaning were explained. She emphasized the selection of appropriate cleaning method to be used for conservation of textiles either in museum or in personal wardrobe.

She explained the concept of cleaning through pictorial presentation, and demonstration was given. She also showcased the specimen of adhesive coating to the participants for better understanding of object preservation. She also demonstrated the digital tool known as dinolight microscope which is used to take pictures of minute details of the object. This was followed by practical exercise where participants used sponge, brush and vacuum cleaner for cleaning purpose. Thereafter Dr. Simmi Bhagat took a session on stabilization of textiles. In this session she explained the basic stabilization of textile conservation stitches. She demonstrated various stitches and participants tried those stitches on samples.

Outcome of the activity/event/seminar/workshop: The sum up the workshop was very useful and meaningful for the participants and delegates. With the help of practical experiences participants were able to understand the importance of valuable textile heritage, handling the

Painting Demonstration on Creative Composition

Date: 17 September 2019

Venue: Department of Fine Arts

No. of Participants: 64 Students and 4 Faculty members

Objective of the Activity: To understand the current styles, trends and techniques

What better opportunity a student can get than seeing an artist creating his masterpiece while getting along and sharing his experience and knowledge. The event was a live demonstration on "Creative Composition" by Dr. Nandanlal Thakur. He is the Assistant Professor in the Department of Visual Arts, Himachal Pradesh University, Summer Hill, Shimla. Apart from being a teacher, he is also a renowned artist at national and international level. He has taken part as an exhibitor in various places in India & abroad. He was appointed as an administrative member in Lalit Kala Academy, New Delhi.

The demonstration was organised by The Fine Arts Department of IIS (Deemed to be University) on 17th September, 2019. Following our Indian culture Dr. Nandanlal Thakur was welcomed by tika mauli and a memento was offered as a token of appreciation. There were around 64 students in all who witnessed it.

Dr. Nandanlal Thaur was kind enough to interact with the students on each stage while creating his painting. Before starting off with his work he told the students to just play with the colours rather than paying attention and focus on the subject matter. He used different acrylic colours to apply the base. He applied the colours in strokes and a lot of free brush strokes were visible in it. The student's curiosity was getting deeper and deeper as he proceeded with playing with colours. It was looking like our artist was creating an abstract painting but in the end everyone was surprised as it turned out to be a beautiful composition of human figures. As he was applying more colours to the canvas he was continuously interacting with the students and sharing his experiences and knowledge. As said by the artist himself he had nothing on his mind before starting the work, he just went with the flow and created whatever was coming to his mind on the spot. One of the major take back from this session was that it isn't necessary to pre decide the subject matter of our painting. It was a great experience for the students to see how to create a composition without any predefined thoughts.

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Outcome of the activity: students could learn rapid sketching and converting that into a perfect composition. They also observed the style and technique of the artist. This could open the hitch of creating painting rapidly.

Demonstration on Preparation of Souffles

Date: 26th August 2019

Venue: C-305, Department of Home Science

No. of Participants: 30

A demonstration on preparation of soufflés was organised by department of home-science on 26th August 2019. Students of BSc. Home-science- semester I, Semester III and semester V, Clinical Nutrition and Dietetics Semester I and FSQM Semester III, attended the demonstration. In all 30 students benefitted from the activity. Pastry Chef Mr Chandan Kumar Baral from Hotel Hilton Jaipur conducted the demonstration. He had a vast experience in Bakery and has worked with many International chains of hotels in India as well as abroad. He taught the students the basics of foam desserts and the skills required in preparation of cold soufflés. He also emphasized upon the importance of accurate weighing and measuring in dessert preparation.

Mr. Baral gave demonstration on 4 variants of Souffles- Lemon Souffle, Chocolate Souffle, Mocha Souffle, Mango and Mint Souffle. All the soufflés were amazingly delicious and the students as well as present faculty really enjoyed the demonstration. Many students were actually first time initiated to this classic French dessert. It was a huge learning experience for students. His guidance and experience sharing was indeed commendable. Chef Chandan Baral was introduced by Ms. Arshiya Sheikh(BSc. HomeSc. Sem V) and presented with a memento by Dr. Ila Joshi (Head of the Department) as a token of appreciation. Ms. Yogita Karnani gave the vote of thanks. Ms. Simran Singh coordinated the overall activity.

Seminar on Role of National Stock Exchange and Financial Products

Date: 21.08.2019

Venue: IIS (Deemed to be University), Jaipur

No. of Participants: 45

Objective of the seminar: To make the students aware about investment strategies, investment options and investment ideas.

With the present world offering a variety of investment strategies, investment options and investment ideas, people often lack in the knowledge of proper and strategic implementation of these. So, for a better understanding of the same, the Department of Economics organised a seminar on 'The role of National Stock Exchange and Financial Products' on August 21, 2019 for the undergraduate and post graduate students of Economics. The guest speaker for the event was Mr. Karan Kapoor, who is currently working with NSE, New Delhi, as the Deputy Manager - Business Development.

In the inception of the program, the session gave a deep insight of the current and the traditional financial market of India. It focused on the working of the stock exchange market of India and also included a brief about the various aspects and structure of National Stock Exchange. This was followed with a detailed introduction of the various financial and investment options like Mutual Funds, Bank Deposits, shares, NiftyETF, and many more. The speaker dealt in detail about the comparative advantages and disadvantages of these investment options.

The students very enthusiastically participated and the program concluded successfully with zeal and ardor.

Outcome of the seminar: The students were able to gain a practical knowledge about various financial and investment options like Mutual Funds, Bank Deposits, shares, NiftyETF, and many more.

Workshop cum Training Programme on Intellectual Property Rights

Date: 20 August 2019

Venue: Vinayak Hall, IIS (deemed to be University), Jaipur

No. of Participants: 180

Objective of the workshop: To create awareness on Intellectual Property Rights (IPR) & its Management

A Workshop on 'Intellectual Property Rights (IPR)' Jointly organised by ASSOCHAM in collaboration with Intellectual Property Office, Department for Promotion of Industrial & Internal Trade (DPIIT), Ministry of Commerce & Industry, Govt. of India and IIS (Deemed to be University), Jaipur on 20 August 2019 in the University campus. The Guest Speakers for the event were Mr. Vijaykumar Shivpuje, Director, Patlex Business Solutions, Mr. Govind Sharma, Ex. Chief, NRDC, New Delhi, and Ms. Nekita Kumari, Examiner of Patents and Designs, IPO, New Delhi.

Inaugural Session

The inaugural session commenced with lamp lightening followed by Saraswati Vandana.

Dr. Raakhi Gupta, Registrar, IIS (deemed to be University) welcomed all the dignitaries and participants. She emphasized on the need of inclusion of Intellectual Property Rights in the curricula of different courses offered in India. She also discussed the importance of the role of IP systems in the growth and enhancement of the socio-economic prosperity of a nation, in terms of strategic business planning. Prof. Pradeep Bhatnagar, Dean, Faculty of Science, IIS (deemed to be University), gave a brief outline of the workshop.

Mr. Vijay Kumar Shivpuje in his keynote address briefly described the work done by ASSOCHAM and informed the gathering about the pan-Nation online programme IPTSE, that helps to bring awareness about IPR to students. He also talked about a Government funded initiative called ATAL labs, and explained its benefits to the society, emphasizing the need for entrepreneurship and innovation. The inaugural session ended with a vote of thanks by Mr. Pankaj Kumar, Coordinator, IPR Cell of the University.

IPR Session 1 - Types of Intellectual Property Rights

Mr. Vijay Kumar Shivpuje, explained the various types of Intellectual Property Rights. Using popular examples and engaging the delegates, he both defined and discussed the types of IPR, the significance of Patents and Copyrights, etc.

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mandarovar,
Jaipur-302020 (Raj.) INDIA

He began with the example of well-known Bollywood movie '3 Idiots' and the I-phone to explain the meaning of Patents and the relationship between Patent and Commodity. He also talked about how IPR creates a monopoly in business and how a trademark is essential for any company. Later, using examples of various famous elements from different parts of India, he explained the significance of Geographical Indications. Altogether, it was a very interactive and interesting session on IPR.

IPR Session 2 - Patent Filing Procedures

Ms. Niketa Kumari on Patent Filing Procedures conducted the second session of the workshop. With an informative presentation, Ms. Kumari spoke about the procedures involved in the filing of patents, the laws governing Patents and also informed the gathering about the locations of the offices.

This was followed by an elaborate description and discussion of the process of filing for a Patent, its do's and don'ts and the importance of Patent Specification, which includes the details of the invention and its purpose. Emphasis was also laid on the significance of the description of the Patent Monopoly and the Claims involved with the idea.

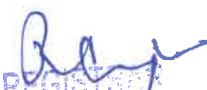

IPR Session 3 - Significance of IPR at the Educational Institution Level

Mr. Govind Sharma, Retd, led the third session on Licensing / Commercialisation of Technologies/Patents. Chief, National Research Development Corporation. He began by posing the question, 'What can you do with your house?' Different answers were proposed by the delegates, such as, 'to live in it', 'to sell it', or 'to put it up for rent', leading to Mr. Sharma's reason for asking the question, which was to clarify that the term 'license' should be used instead of the word 'rent' and like such tangible property intellectual property can also be utilized and commercialized and that's why called property too. He further stated that anyone could get an idea but difference lies in how it is utilized. He emphasized that focus is essential on wealth creation, knowledge generation and social well being.

The entire session was a structured process of brain storming and information exchange.

IPR Session 4- Role of IPMC

Mr. Pankaj Kumar, Asst. Professor and IP Management Cell Coordinator, deliberated on IPR and incubation activities at the University level. He shared the details of University IP Management Cell, their services, event and activities, different courses in IPR offered in the university. He also informed the gathering about the IPR consultancy offered by the cell. He also

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)

Jalpur-302020 (Raj.) INDIA

informed the students about the job opportunities in the field of IPR including positions at graduate level like patent & design agent, trademark agent, IP analyst, IP facilitator, IP Attorney etc.

Dr. Ritu Jain, Coordinator Institutional Innovation Council (IIC) of the University, took the last session. She deliberated on the aim and objective of the IIC. She also asked the students to actively participate in the activities organized by IIC.

Outcome of the workshop: The program observed to be beneficial in creating Awareness on Intellectual Property Rights (IPR) & IP Management. The participants got information on importance of IPR and its various types, the way to protect it and its management.

Two day Workshop on Google cloud G Suite

Date: 9th-10th August 2019

No. of Participants: 50

Day 1: 9th August 2019

The workshop observed the participation of 50 participants. The workshop was divided into 8 sessions. As our tradition, the workshop started with invoking the divine powers by lighting the lamp. Thereafter, a brief introduction about CRIT and the significance of the workshop was given by Prof. K.S. Sharma, Director (CRIT). This was followed by an interaction with Prof. Pradeep Bhatnagar, Dean, Faculty of Science where he elaborated the significance of digitalization with respect to saving paper and conserving nature.

Session I

After the inaugural ceremony, the first session was taken up by Mr. Aditya Singh from Metacube. Mr. Singh discussed the basics of Google Drive and its application and its significance in day to day work.

Session –II

Session II was conducted by Mr. Karan Sharma, Sr. Engg, from Metacube. Mr. Sharma took a hands on interactive session to explain various applications which can be used with G mail including various short cut keys to make work easier & smarter. He also explained the working of Google docs and its use in making work more manageable.

Session –III

Third session was on Google forms, which is a basic requirement of conducting any research. Mr. James, Data Analyst from Metacube, took up the session. He explained the steps involved in making a Google form and in various uses.

Session –IV

Mr. Karan Sharma again conducted the last session of the day where he discussed the working of Google slides in an interesting way which can be further used by the participants for presenting their work in an impressive way.

At the end of the day Dr. Amita Sharma discussed the assignments given to the participants with an aim to make them understand the practical application of Google cloud G. Suite.

Day 2:10th August

Second day of the workshop started with the discussion and problem solving session taken by Dr. Amita Sharma. There after the technical session of the day was taken up by Prof. Umesh Arya. Guru Jambheshwar University of Science & Technology, Hissar conducted very interactive and interesting sessions starting with an enjoyable activity Kahoot. He explained the method of offline management of data which is an essential part for researches.

He also explained the smart and effective way for searching data with power search.

Further to improve upon the workshops to be planned in future, feedback was taken from the participants.

During the valediction session, certificates were distributed to the participants by Prof. K.S. Sharma, Prof. Pradeep Bhatnagar, Prof. M.K. Sharma and Prof. Umesh Arya.

Seminar on "Entrepreneurship: Prospects and Challenges"

Date : August 5th 2019
Time : 11:00 am onwards
Venue : AV Hall, IIS (deemed to be) University
No. of Participants : 195

The Department of Management Studies, IIS (deemed to be) University, Jaipur had organised a Seminar on "Entrepreneurship: Prospects and Challenges" on August 5th 2019 for the students of BBA (semester first and third). The guest speaker was Mr. Ravi Agarwal, co-owner of Asteria. The purpose of the lecture was to acquaint students with the various prospects and challenges of Entrepreneurship. During the Seminar, Mr. Agarwal shared his journey as an entrepreneur. He discussed the essential competencies for being an entrepreneur. He encouraged students for developing their passion in life. The lecture was fruitful and enlightening for the students.

Seminar on “Industrial Orientation and Skill Empowerment”

Date: 3 August 2019

Venue: CIT lab, IIS (deemed to be UNIVERSITY)

No. of Participants: 80

Objective of the seminar: To familiarize the students about the Emergence of IOT, Skill Building and Technology Skill Set

The Department of Computer Science and IT organized a Seminar on “Industrial Orientation and Skill Empowerment” led by Prof. (Dr.) Nalin N. Jani, Director, S.K. Patel Institute of Management and Computer Science, Gujarat.

In this interactive session the students were given a brief description of the following:

- Skill Building
- Technology Skill Set
- Emergence of IOT

Dr. Jani oriented students on skill building and motivated the students to have hands-on experience with smart technology skill sets and also provided them with industry relevant information on the topic. He also acquainted students with the emergence of IoT as one of the key levers in the IT industry and its amalgamation in everyday life. Dr. Jani further motivated the students to not only focus on application development but to lay stress on product development.

At the conclusion of the session the query round was held in which the students got an opportunity to put forward questions to satisfy their curiosity. The overall session was enlightening and the students got an exposure to the IT industry. The session ended with thank you note by expressing gratitude to Dr. N.N. Jani for taking out time from his busy schedule and making the students aware of the industrial technology.

Outcome of the seminar: The students got an exposure about the latest development scenario in the IT industry which is based on IoT.

One day workshop on 'How to prepare a research plan proposal'

Date: 2nd August, 2019

Venue: A.V Hall, IIS (deemed to be University)

No. of Participants: 120

A workshop was organized on 2nd August, 2019 at The IIS University, Jaipur on the topic 'How to prepare a research plan proposal' by Accounting & Taxation department. Around 120 commerce students were a part of the elucidative programme. The event started with the felicitation of the guest speaker Professor Balwinder Singh. He acquainted the students with the objective and goals of the workshop. He taught them about the following points in detail along with some really interesting examples:

- Importance of communication and thinking in research
- Difference in work done by researchers with passion and with compulsion
- How to search 'Researchable topics' by limiting the topic, reading , experiencing , observing the environment around , discussing and consulting .
- Compulsion of theory behind a topic
- Important to identify research gap as repeated researches are of no use
- Importance of sources of information [Example – costly data or data needed includes controversial questions which nobody is ready to answer]
- How to frame a Questionnaire
- Various online sites where E- Books, Thesis, Research Papers can easily be downloaded.
- Steps involved in research process

He concluded the session by giving an inspiring message of how passion in researcher and quality of work done by him plays an important part in research.

This workshop proved to be a time investing one as it helped students in enhancing their knowledge in the field of research as in how a research topic is to be decided , what all are the steps involved in this process , from where to study the research papers , and sites where free access to data and thesis are available.

FSSAI FOSTAC TRAINING

Date: 15th May, 2019

Venue: ISIM Auditorium

No. of Participants: 36

Objective of the workshop: To train the students in Hygienic and sanitary practices for food general manufacturing

The Department of Home Science organised a one day “FSSAI FOSTAC Training” for the final year students of BSc (PC), BSc (hons) Home Science and MSc (Foods and Nutrition) and faculty of the department. The trainer was Mr Vikash Kumar Gautam, Trainer and Auditor, FSSAI (Food Safety and Standards Authority of India), New Delhi. The speaker was welcomed with floral greetings by Dr. Ila Joshi, Professor & Head, Department of Home Science. Thirty six participants enrolled for the training. The training was titled ‘Food safety supervisor- Manufacturing (Hygienic and sanitary practices for food general manufacturing, Advanced level II’. Training started at 9:00 am. The training was divided into four sessions, which were further subdivided into sections covering the various aspects of the training like food safety, pest control, control of operations, food testing, audit, product information, FSMS planning etc. the sessions were interactive wherein the queries of the participants were answered. There were short breaks in between the sessions for tea and lunch. An exam was conducted at the end of the training in order to assess the learning and for providing certificate of the training. Feedback forms were also filled at the end. The participants gained a lot of information from the training.

Seminar on 'Think Critical- Design and Implementation through Cognitive Thinking through Object Oriented Programming'

Date: 9th April 2019

Venue: ISIM Auditorium

No. of Participants: 13

Objective of the seminar: To introduce the concept of critical thinking in software development. The Department of Computer Science organized a Seminar on "Think Critical- Design and Implementation through Cognitive Thinking" on 09th April, 2019; Prof (Dr) C. K. Kumbharana from Saurashtra University, Gujarat, conducted the session.

In this session the students were given a brief description of the following:

- What is critical thinking?
- How to develop critical thinking?
- What is out of box thinking?
- How to develop programming skills?

Dr. Kumbharana explained the importance of following the thinking process of the human brain and accordingly develops logic in programming. He emphasized on inculcating the practice of "out of box thinking" rather than depending on available frameworks for developing software. Dr. Kumbharana gave valuable insight to the students for developing effective and error free programmes. The students were highly benefited by his words of wisdom. The event ended with a vote of thanks to the eminent speaker.

Outcome of the seminar: The students learnt the importance of out of box thinking during software development.

Moot Press Conference on "Present Trends and Practices in Public Relation Industry"

Date: 25 March 2019

Venue: A.V. Hall

No. of Participants: 80

Objective of the activity: The objective of the moot press conference was to make students acquaint with the live moot press conference.

The department of Journalism and Mass Communication of the IIS (deemed to be university) organised a moot press conference on Present Trends and Practices in Public Relations Industry on 25 March 2019 12 PM in AV hall. The two hours conference was well organized by teachers and students. Mr. Ashish Khandelwal, Assistant Director, DIPR Jaipur, Mr. Ashutosh Rawat, Founding Partner, Creations PR, Jaipur and Ms. Roohi Sangtani, Musk PR were the honourable speakers.

The conference was well moderated by Mr Anuj Sharma, chief consultant Musk PR, Jaipur. Belonging from different industries all speakers gave the knowhow of working and the challenges they face in the PR industry. Being Assistant director at public sector Mr. Khandelwal explained how PR practises in public sector is different from that of private sector.

As Ms. Sangtani is a celebrity PR with her wit and intelligence attracted the audiences' attention more. Mr. Rawat told the working of a public relation officer in corporate sector which was a great information for the students who are planning to work in public relation industry. The last one hour was saved for reporters to ask questions. The questions were well answered by the speakers. The Moot press conference was proved to be a great event for the students who are planning to make their career in PR industry.

The Conference was conceived in the guidance of Dr Ruchi Goswami, Associate Professor JMC. Dr Garima Shrivastava gave vote of thanks. Dr Abhishikha Sharma, Dr Aastha Saxena, Dr Aditi Pareek and Ms Babita Sharma were also present in the programme.

National Workshop on Foldscope and Symposium on Applied Biotechnology

Date: 15th-16th March, 2019

Venue: IIS (deemed to be university), Jaipur

No. of Participants: 63

Objective of the workshop: To make participants learn and perform a number of complicated yet basic techniques by the end of this workshop.

National Workshop on Foldscope and Symposium on Applied Biotechnology was organized by Research and Development Cell, Department of Biotechnology, IIS (Deemed to be University), Jaipur, on March 15-16, 2019. Convener of the event was Prof. Pradeep Bhatnagar, Dean, Faculty of Science, co-conveners were Dr. Radhika Sharma, Head, Department of Biotechnology, IISU and Dr. Shikha Jain, Manipal University, Jaipur, and organizing secretary was Dr. Nidhi Gupta, IISU.

The event started with inauguration by Prof. Raakhi Gupta, Registrar, and Prof Pradeep Bhatnagar, IISU with invocation and lamp lightening.

Our keynote speaker for the day was Dr. Praveen Mathur from SMS Medical College and Hospital, Jaipur who enlightened us on a rare anomaly 'Congenital pouch colon: From clinic to genetics'. He briefly described the classification of congenital pouch colon in which they reported type 5 for the very first time in medical science.

Our second speaker Dr. Ashima Bagaria from Manipal University, Jaipur delivered her lecture on 'Peptides and proteins: a crystallographic detail'. She has worked over three dipeptides, their structures, bonding and crystallography. She has also detailed us over ribosomes inactivating proteins from plants. Our next invited speaker Dr. Akhil Agarwal from Central University of Rajasthan, Ajmer gave an interesting and valuable talk on prospects of biotechnology, its different applications in oil and gas industries. Followed by our next speaker Dr. Deepak Solanki from Punjab University, Chandigarh delivered his lecture on 'Toll like receptors: Novel target for drug discovery'. In which he talked about TLR 7/8 agonistic imidazoquinolines and its importance as malaria and influenza vaccine. The last speaker of the day was Dr. Surendra Nimesh from Central University of Rajasthan, Ajmer who delivered a very knowledgeable lecture on 'Biosynthesis of silver nanoparticles and its therapeutic applications'. He detailed certain other applications such as antibacterial, antibiofilm and wound healing. After all the knowledgeable lectures we had hands on training session on Foldscope. The session started with

Workshop on 'RTI – An Empowering Tool for the citizens of India'

Date: 28th February, 2019

Venue: Ojas Hall, IISU Campus

No. of Participants: 114

Objective of the workshop: To make the students aware of the purpose and scope of the Right to Information Act, 2005, and the process to file RTI application.

The Department of Business Studies organised a Workshop on 'Right to Information (RTI) – An Empowering Tool for the Citizens of India' for the Semester II students of B.Com (H) and B.Com. (P) on Thursday, February 28, 2019 from 10:30 am to 1:30 pm in the Ojas Hall, IISU Campus.

Dr. Roopa Manglani, RTI Activist and Associate Professor, BGD Govt. Girls College, Shahpura, Jaipur and Mr. Shailendra Agarwal, News Editor, Rajasthan Patrika, Jaipur who are experts in were invited as the Resource Persons for the same.

The Workshop was instrumental in helping the students know about the essential provisions of this landmark legislation and how they can use it to bring a change in the society through seeking important information from the government department and agencies.

Outcome of the workshop: The prime object of the Right to Information Act is to empower the citizens, promote transparency and accountability in the working of the Government, contain corruption, and make democracy work for the people in real sense. Through this activity, the students were able to understand the areas that are covered under RTI, practical aspects and application of Right to Information, both in the online and offline mode. Also, they get to know that they do not need a lawyer to file an RTI application.

Workshop on Exploration of Textiles

Date: 26th February-27th February 2019

Venue: A- 501

No. of Participants: 35

Objective of the workshop: To understand students different types of textiles and their properties.

The Department of Fashion and Textiles invited Mr. Akshay Tholia, Entrepreneur, Apparel and Fashion Coach and Author, Jaipur two days workshop on “Exploration of Textiles”. It was an interactive session between the resource person and the students of B.Sc. Fashion Design semester II & IV and M.A./M.Com./M.Sc. Fashion Design Semester II .The main objective of the workshop was to give an exposure of varieties of textile fabrics and their performance.

The workshop started with an introduction of the different fibers, their properties and uses. This was followed by a informative and fun quiz session where students were given samples of different kind of fabrics swatches of natural fibers such as cotton, wool, silk, linen, jute, bast, hemp , synthetic and regenerated fibers of glass nylon, polyester, cotton-spandex, acetate rayon, lyocell, leurex. The students were taught about yarn numbering system i.e. Direct and Indirect System and learnt to determine the fineness or thickness of the yarn.

The second day of workshop started with briefing the students about essential textile terminology and helped solve some numeric based on the same to clear their concepts. Mr. Tholia also explained the different weaves of fabrics and their properties as it is the basis of making many types of cloth. Weaving creates a wide variety of utility and fashion cloths. He further gave the importance of weaving is the critical process that turns a raw material such as cotton and its yarn into a fabric that can be made into useful products such clothing, bed sheets, etc.

Mr. Akshay Tholia during the duration of two days was able to help the students understand why certain fabrics are more durable and therefore more serviceable for specific purposes and why certain fabrics make cool wearing apparel as well as give an impression of coolness when used as decoration.

Japanese Wood Block Print Making Workshop

Date: 26th – 27th February 2019

Venue: Department of Fine Arts

No. of Participants: 81

Objective of the workshop: In this workshop, Japanese artist Kenji Najima displayed his prints, discussed his works' subject, technique and process and demonstrated how to create water based wood block print.

The Department of Visual Arts organized a three day workshop on “Japanese Woodblock Printmaking by Kenji Najima” and “Demonstration cum artist talk on Chine- Colle by Tomoyo Ihaya”. Kenji Najima and Tomoyo Ihaya were the artists invited from Japan for their demonstration. Born in 1968 at Mie, Kenji Najima is a Japanese Printmaker who completed his Bachelors of Art in Japanese Literature from Chukyo University. Kenji Najima works on woodblock plates and prints them with a baren, a hand tool with flat bottom used in Japanese woodblock printmaking on handmade Japanese paper using watercolor pigments.

The printmaking studio of Visual Arts Department of IIS University Campus, Mansarovar, Jaipur on 27th February 2019 was bustling with young artists on Wednesday when Canada-based Japanese artist Tomoyo Ihaya shared with them a special technique of graphic art in the morning. The printmaker demonstrated techniques of Chine Colle graphic art. The usual intaglio style of printmaking involves the incision of the required image on a metal plate on which ink is applied and then imprinted on a thick paper. In the Chine Colle method, the paper used is of a smoother and thinner variety. The artist does not need to prepare and print additional plates. “This is an Italian technique in which the image produced is creamier and has special effects of smoother textures. Since initially Chinese natural fibre paper was used, the method is known as Chine Colle. But now, a Japanese paper, gampi, made from a variety of wild mulberry plants, is used,” said Tomoyo. She demonstrated how the same image when produced on gampi has sharper details than on European paper. Students also tried their hand at it and Tomoyo guided them well. It was an exceptional experience for the students.

Workshop on "Quality Assurance and Software testing tools"

Date: 7th February 2019

Venue: CIT lab, IIS (Deemed to be University)

No. of Participants: 30

Objective of the workshop: To familiarize the students of BCA about the concept of testing and the tools used for the same.

The Department of Computer Science and IT organized a workshop on "Quality Assurance and Testing Tools" led by Mr. Amit Agrawal, a certified scrum product owner and agile consultant. The students were introduced to an automation testing tool "Selenium IDE". The students were given a set of test cases to perform on a website. The steps to perform testing were explained thoroughly. The students practically implemented test cases using the Selenium Plug-in. The students were also introduced with another plug-in TestNG for Eclipse IDE which supports multiple testing frameworks. At the conclusion of the session the query round was held in which the students got an opportunity to put forward questions to satiate their curiosity. The overall session was enlightening and the students got an exposure on a new tool. The session ended with a thank you note by expressing gratitude to Mr. Agrawal for taking out time from his busy schedule and making the students aware of the basics of Quality Assurance and testing tools.

Outcome of the workshop: The students got a hands on demo of Selenium IDE, a testing tool often used for software testing and quality assurance.

Workshop on “Employability Skills”

Date: 19th – 21st January 2019

Venue: OJAS Hall

No. of Participants: 100

Objective of the workshop: To provide an opportunity to all the students to polish their attitude, aptitude and inculcate confidence in them.

The Department of Commerce in association with the Training & Placement Cell, IIS (Deemed to be University) had organised a Three Day Workshop on ‘Employability Skills for the students of B.com Pass Course and B.com (Hons) . There were about 100 students participated in the workshop. The resource person Mr. Minhaz Khan, Mr. Dayal Srivastava and Mr. Aayush Dangayach from Endeavor Careers, Jaipur, chaired the workshop. They were felicitated and warmly welcomed with the floral greetings and memento.

In this three day workshop the following areas were covered.

Day 1: Preparation for Aptitude Test

Day 2: Techniques for Group Discussion, and

Day 3: Preparation for Personal Interviews.

On the first day, Mr. Minhaz Khan, discussed about how to enhance the aptitude and thinking skills. He discussed various forms of vocabulary including the meaning, pronunciation and usage of different words, their synonyms and antonyms, as well as various idioms and phrases. In the second half of the day an aptitude test was conducted for all the participants. The duration of the test was one hour and it consisted of various questions relating to the quantitative, verbal and reasoning.

On the second day of the workshop, Mr. Dayal Srivastava took the session for all the participants and it started with announcement of the students who all cleared the aptitude test held on the first day. It was followed with the practice of group discussion among the participants. There were around 12 group discussions held during the session. Each group consisted around 8-10 participants. The topic of the group discussion were related to the current scenario such as GST, Upcoming Elections, Make in India etc. all the students actively participated in the session and group discussion. After each group discussion participants were given feedback personally and

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

various techniques of group discussion were also discussed. At the end of the session the name of the merit participants was announced.

On the third day of the workshop, Mr. Aayush Dangayach took the session for all the students, the session was started with the question answer round relating the techniques discussed on the previous day. Later each participant was called for personal interview with their C.V. After all the rounds of personal interview each participant was given feedback about various techniques relating to the personal interview and C.V writing was also discussed with all the participants.

Outcome: The workshop was successful in promoting the employability and aptitude skills among students. The sessions were very interactive with the students. It helped all the participants in promoting their aptitude and reasoning skills. The workshop gave an insight on the use of communication skills, leadership skills, effective listening, out of box thinking, use of data and information during group discussion and personal interview, writing their C.V among all the participants. The workshop was fruitful for all the students as well as faculty members.

Outcome of the activity workshop: The workshop helped the students to inculcate skills based on communication, effective learning, leadership and others. They were also able to gain knowledge about enhancing their reasoning & Aptitude skills.

Workshop on “Concept Art”

Date: 19 January 2019

Venue: CIT Lab, IIS (Deemed to be University)

No. of Participants: 13

Objective of the workshop: To impart practical and professional knowledge to the students about the usage of concept art.

The department of CS & IT organized a workshop on the concept art on 19th Jan 2019 for II, IV and VI semester of BMA. Concept art is a form of illustration used to convey an idea for use in film, video games, animation, Comic books, or other media before it is put in the final product. Concept art usually refers to the world – building artwork used to inspire the development of media products. In this interactive session the students were given a brief description of the following:

- Ø Meaning of concept art
- Ø Use and description of different paper materials
- Ø How to think out of the box
- Ø Tools & techniques of using water colours.

It was a great opportunity for the students to attend this workshop which enlightened the students with the knowledge of concept art and watercolor painting. Mr. Vipin Sharma, Sketching Faculty, Arena Multimedia, New Delhi briefed students about different types of paintings and their color schemes and different types of colour tints. At the end of the session the query round was held in which the students got an opportunity to put forward their questions. The session was very helpful in providing practical and professional knowledge to the students about the concept art.

Workshop on Cognitive Behaviour Therapy for OCD

Date: 17-18 January 2019

Venue: Aditya Hall

No. of Participants: 76

Objective of the workshop: To give an insight into OCPD and how CBT is helpful in the treatment

The Counselling and Career Development Centre (CCDC) & Department of Psychology organized a 2 day workshop on CBT for OCD on Jan 17-18, 2019 for the students of Psychology including BA /BSC (H) II and III Year, MA/MS Previous and Final year, M.Phil, Ph.D and Alumina. Dr. Ajay Kumar, Clinical Psychologist and Assistant Professor from NIMHANS Bengaluru, were the Resource Person. He discussed about OCD and the basics of CBT. The workshop also focused on OCPD and how CBT is helpful in the treatment. It was an experiential workshop wherein, the participants practised how to formulate the case for treatment, identify faulty assumptions, treatment strategies. Many videos were shown to the participants focusing on the presentation of symptoms, how assessment is done and treatment. The workshop was very useful and knowledgeable for the students. The students are thankful to the Department of Psychology and The Counselling & Career Development Centre for conducting the workshop.

Outcome of the workshop: Students learned the CBT and its application in the treatment of OCPD

Workshop on Mindfulness Based Cognitive Behaviour Therapy

Date: 15-16th January 2019

Venue: Aditya Hall

No. of Participants: 88

Objective of the workshop: To enable students to learn various forms of mindfulness meditation like Body Scan Meditation., sitting Mindfulness, Eating Mindfulness and Walking Mindfulness via practicing.

A 2 day workshop on Mindfulness Based Cognitive Behaviour Therapy was organised by The Counselling and Career Development Centre (CCDC) & Department of Psychology for the students of Psychology including BA /BSC (H) II and III Year, MA/MSC Previous and Final year, M.Phil, P.hD and Alumina. Dr. Ajay Kumar, Clinical Psychologist and Assistant Professor from NIMHANS, Bengluru were the Resource Person. The workshop focused on Mindfulness and Mindfulness based therapies specially focusing on Mindfulness Based Cognitive Therapy (MBCT). The resource person also focused on Acceptance and Commitment Therapy (ACT) a therapy based on mindfulness. The participants got an opportunity to learn various forms of mindfulness meditation like Body Scan Meditation., sitting Mindfulness, Eating Mindfulness and Walking Mindfulness via., practicing. The bases of mindfulness as therapy, neurobiology, why it is different from other meditation etc. Many videos were also shown for better understanding. Session by session details of MBCT and ACT were also discussed. The workshop proved to be very fruitful for students as they came to know the theoretical as well as practical aspects of mindfulness.

Outcome of the workshop: Students came to know the theoretical as well as practical aspects of mindfulness

National Workshop on Basic Applied Econometrics

Date: 26-30th December 2018

Venue: IIS University

No. of Participants: 52

Objective of the workshop: To keep students known about the knowledge of Basic Applied Econometrics and its applications

The Department of Economics of IIS (deemed to be University) organized a five-day National Workshop on Basic Applied Econometrics from 26-30 December, 2018. Each day of the workshop consisted of four sessions from 10 am to 4 pm with intermittent breaks for a refreshing breakfast, lunch and tea.

The first day of the workshop began with a welcome note by Dr. Anima Vaish, Organizing Secretary of the workshop. She also introduced the resource person of the workshop, Prof. Pranab Banerji, who was associated with the Indian Institute of Public Administration (IIPA) as Professor of Economics from 2001 to 2015. He was welcomed by the Vice Chancellor, Dr. Ashok Gupta with a memento. Dr. Gupta stressed on the growing importance of econometrics in various arenas of academic studies. He then invited Prof. Banerji to commence the workshop. Prof. Banerji started with a brief introduction of self and an introduction to econometrics. Econometrics is a discipline based on application of statistical techniques for empirical analysis of various theories. He briefly described the plan of the workshop and how it would help in building the foundation of econometrics. With this, the inaugural session came to an end and was followed by refreshments. After refreshments began the other sessions for the first day, which covered topics like sampling, statistical inference, methods of estimation, desirable properties of estimators and hypothesis testing. In the last session, Prof. Banerji also introduced the popularly used software of econometrics, EViews, which was to be used for the subsequent days of the workshop. The participants learned the user interface of EViews- opening and creating workfile, importing data, generating series, etc.

Day 2 was centered towards bivariate analysis- assumptions of the classical linear regression model, estimation of regression equation, properties of OLS estimators and hypothesis testing of regression coefficients. This was followed by practical session of bivariate regression in EViews. The focus of Day 3 was on multivariate analysis. The resource person, after a quick recap of the topics covered in the previous day, introduced the multiple linear regression model, its

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

assumptions and interpretations. This was followed by practical exercises on EViews and use of Coefficient Diagnostics, which comprised of Omitted Variable Test, Redundant Variable Test and Wald Test. He also discussed the various criteria of choosing variables in a regression model. As the foundation of simple and multiple regression models was built in the three days, Day 4 of the workshop was centered on violation of assumptions of the classical linear regression model- the problems of multicollinearity, heteroskedasticity and autocorrelation. Prof. Banerji dealt with the consequences, detection and remedial measures for each of these problems. The applications of these concepts were covered with practical exercises on EViews. On the last day of the workshop, the resource person discussed some advanced topics in econometrics namely, endogeneity, instrumental variables and a way forward through Time Series and Panel Data analyses. Time series econometrics evolved during the 1980s as time series data cannot be easily analysed using the traditional methods of econometrics. Prof. Banerji explained the concepts of stationarity, white noise, spurious regression, cointegration and VAR. He also went over the topics of panel data analysis- the random and fixed effects models. All these concepts were demonstrated using various exercises on EViews.

The workshop drew to a close with a few participants sharing their experiences and insights and thanking the resource person for elucidating the concepts with such innovative examples. Finally, Dr. Anima Vaish concluded with a formal vote of thanks. The workshop thus proved to be a great learning experience for all the participants.

Outcome of the workshop: Participants got knowledge about theoretical and applied Econometrics. All concepts, techniques and models had been dealt with the help of EViews which enabled the participants to learn the applied Econometric techniques.

Workshop on Basic Techniques in Molecular Biology

Date: 24th -25th October 2018

Venue: IIS (deemed to be university), Jaipur.

No. of Participants: 38

Objective of the workshop: To enable participants to learn and perform a number of complicated yet basic techniques by the end of this workshop.

The department of Biotechnology organized a two day Hands on Workshop on “Basic Techniques in Molecular Biology” in collaboration with team Makeintern (training partner of Becon event-IIT Delhi) on October 24-25, 2018 for the B.Sc. and M.Sc. students of Life Sciences on the topic “Basic techniques in molecular biology”. Total 38 students of B.Sc. and M.Sc. biotechnology and microbiology attended the workshop. The expert for the session was Mr. Ashvini Kumar from Makeintern. He is an interdisciplinary professional with expertise in medical sciences and computational systems which include machine learning as well as data science to address complex problems. He taught basic techniques to students for handling molecular biology related experiments. The hands on experience were divided in to six sessions that started with basic techniques of handling experiments related to molecular biology. In the next sessions DNA isolation, amplification using PCR was taught which was then followed by gel electrophoresis. In the last a discussion cum competition was conducted to select best five students that will be representing IIS (Deemed to be University), Jaipur in a competition to be held at IIT, Delhi. The workshop also provided a platform to students to interact with the expert and enquire about the job prospects available in the field of biotechnology.

Outcome of the workshop: Participant learnt various new concepts of molecular biology and biotechnology which will guide them through their journey of higher studies.

Canon's Photography Workshop

Date: 24 October 2018

Venue: IIS (Deemed to be University)

No. of Participants: 80

Objective of the workshop: The objective of the cannon photography workshop was to make students learn the basic photography skills and to learn the importance of lighting.

Department of Journalism and Mass Communication organized Canon's Photography Workshop to make the students acquaint with the technicalities of the working of a DSLR camera. The speaker of the event was Mr. Virendra Singh, representative of the Canon India Pvt. Ltd. He discussed various technical terms of camera such as apperture, shutter speed etc and shared the techniques to take a good picture by taking various things into the consideration. Students learnt a lot from the session and got many of their doubts clear. After technical knowledge sharing, guest of the day talk about photography world as well. Students came to know about various things that were new for them. Workshop was fruitful for each student who had a desire to be a photographer.

Outcome of the activity/event/seminar/workshop: The workshop proved informative as the students practically learned the functioning of light and the importance of lighting.

Seminar on 'Sources of Data for Research: Management and Computer Science Perspective'

Date: 13th October 2018

Venue: ISIM Auditorium

No. of Participants: 13

Objective of the workshop: To acquaint the students how to work upon data and information for social cause.

A Seminar was organized on 13 October 2018 by Prof. (Dr.) Balwinder Singh, Director and Professor- In- Charge, Data Analytics & Research, Guru Nanak Dev University, Punjab on the topic 'Sources of Data for Research: Management and Computer Science Perspective' .

In this seminar the guest discussed the following topics:

- 'Building blocks' to integrate data and information
- Categorizing data and information
- Converting data to information

Prof. Balwinder Singh emphasized on the concepts of quantitative and qualitative data quoting its practical implications. He gave an insight over the importance of integrating data and information management for Social causes. This session was to help the participants to acquaint themselves with the blooming phenomenon in the Information ecoSystem. It gave the insight on how to use and evaluate information and data. The participants found the session very enriching.

Outcome of the Seminar: The faculty members got insight on how to use and evaluate information and data.

Workshop on "Photo- Journalism"

Date: 9th October 2018

Venue: A.V. Hall

Objective of the workshop: The objective of workshop is to make students aware about photojournalism and its importance. The workshop is conducted to make students learn the importance of photo in a newspaper and how the photo presents the whole story.

The Department of Journalism and Mass Communication of the IIS University organised a workshop on Photojournalism for the under and post graduation students of the department. Mr. Purushottam Diwakar, a Photo Journalist of the India Today newspaper held the workshop. Along with sharing his personal experience and expertise, he managed to give the students an insight on how should a photo journalist think and act, in ways that can make him stand different from others. He reflected upon the idea of presenting unique things uniquely in front of the audience. He taught the students how 'news' and 'information' differ from each other. He stated the importance of having an impact on the society with the photos presented in front of them. The students learnt the necessity of short captions on pictures to make them more impressive and effectual. Mr. Diwakar made the workshop all the more intriguing when he showed his own work in the field since 1998. The workshop was concluded with the statement that a Photo Journalist is a one man army, and must let every picture tell its own story.

Outcome of the workshop: The workshop proved fruitful for the students as students learned the importance of photojournalism and how taking the correct photo and placing in the newspaper is important.

Employability Mock Process Workshop

Date: 18th-20th September 2018

Venue: A.V. Hall

No. of Participants: 150

Objective of the workshop: To provide an opportunity to the students to shape their attitude, aptitude and instill confidence in them.

The Department of Management Studies, in association with the Training & Placement Cell, The IIS University had organised a Three Day Workshop on 'Employability Mock Process' held on 18th, 19th and 20th September, 2018 for the students of BBA Semester V. There were about 150 students participated in the Workshop. The Resource persons Mr. Aayush Dangayach and Mr. Dayal Srivastava, Endeavor Careers, Jaipur, chaired the Workshop. The key Resource persons were felicitated and warmly welcomed with the floral greetings. In this Workshop, the following areas were covered:

1st day: Preparation for Aptitude Test, and

2nd day: Techniques for Group Discussions, Resume Building, and Mock Group Discussions

3rd day: Tips for Personal Interview, and Mock Personal Interviews

Day1

The workshop was commenced on September 18th, 2018. On the day, the key Resource person was Mr. Aayush Dangayach who is an electrical engineer from SKIT, Jaipur. He has got an experience of more than 4 years in the field of Education. He is a trainer for the students aspiring for CAT, GRE, CLAT and other entrance exams. Floral Greeting was presented to him by Dr. Chhavi Jain, Sr. Asst. Professor, The IIS University.

Mr. Dangayach discussed with students about how to enhance aptitude and reasoning skills. He shared various techniques for mathematical calculations with the students. During the session, an Aptitude test was conducted for participant students. The duration of the test was 60 minutes. The test was designed to check three abilities – Quantitative, Verbal and Reasoning.

Day2

On September 19th 2018, the session was revived and headed by Mr. Dayal Srivastava. He is an Electrical Engineer and had a degree of MBA from IBS. He is having 16 years of varied experience in Engineering, Financial and Education sector. He has been in the field of training to

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

students for various competitive exams like CAT, CMAT, GRE and GMAT. Mr. Srivastava was presented floral greetings by Dr. Ashish Khandelwal, Associate Professor, The IIS University.

The resource person discussed the techniques of participation in Group Discussion, Do's & Don'ts in Group Discussion, and tips for Resume building.

During the session, mock Group Discussions were organised for the students. There were around twelve Group Discussions held in the session. Each group was consists of 8-10 members. The topics of the discussion were related with current scenario. All the students actively participated in the mock Group discussions. At the end of each discussion, the resource person gave personal feedback to the students.

Day3

On the third day of the Workshop, Mr. Dayal Srivastava was the Resource Person again. He addressed the students about the tips for how to face Personal Interview effectively. Some Mock interviews were conducted for the students. Students asked questions like - introduce yourself, tell about your hobbies, strengths, weaknesses, career objective, and some specific questions regarding their discipline. All the students were given an opportunity to interact with the Resource person and his team for personal counselling, and feedback was provided to each student.

Outcome of the Workshop: The workshop was successful in promoting the employability and aptitude skills among students. It helped the students in promoting knowledge of reasoning, vocabulary and grammar. The workshop gave an insight on the use of communication skills, leadership skills, effective listening, outer box thinking, self efficacy, resume building, Interview skills, and use of data and information during Group Discussions.

Workshop on New Dimensions of Research in Commerce

Date: 28th August, 2018

Venue: Ojas hall

No. of Participants: 30

Objective of the workshop: The main objective of the workshop was to provide an understanding to students regarding formulation of research problem.

The event comprised of two sessions:

1. "An invited talk by expert speaker"
2. "An interactive discussion".

In the first session of the programme the guest speaker, Prof. B.L Gupta Retired Professor, University of Rajasthan opened his talk with a brief introduction of Research and its objectives. The session was gradually built up towards the point that how the research problem is formulated. The second session 'an interactive discussion' began by discussing the queries fresh in the minds of students. Faculties and students participated actively in the interactive section. Prof. Gupta discussed various topics on which the students wanted to work and guided the students through their queries.

Outcome of the workshop: The students conferred their heartfelt gratitude to Prof. Gupta for sparing his valuable time towards enriching the fresher's with unmatched research related knowledge.

Workshop: An Introduction to ChemDraw

Date: August 26, 2018

Venue: A-304, Department of Chemical Sciences

No. of Participants: 35

Objective of the workshop: ChemDraw is software used for the generation of chemical structure. The knowledge of ChemDraw is essential for the UG, PG and Research students so that they can present cleaner, authentic and high resolution structure in their work.

Department of Chemistry, IIS (deemed to be University) organized a workshop on ChemDraw for PG students and Research scholars. Demonstration was done by Ms. Manjinder Kour, Assistant Professor, Gyan Vihar University, Jaipur.

She wonderfully explained the ChemDraw to efficiently draw the structures. Various steps involved in structure drawing such as bond, ring, chain, orbital, symbols, arrows, arcs, captions and atom labels. Other aspects related to formatting of the structure were also explained. She also explained the application of ChemDraw to interpret NMR spectrum of the molecule.

Outcome of the workshop: After the workshop the students were able to draw the chemical structure as per the requirement for their reports and publications.

Demonstration on Fashion Illustration

Date: 24th August 2018

Venue: A 402

No. of Participants: 16

The Department of Home Science conducted an activity for students of B.Sc. Home Science on “**Fashion Illustration**” on 24.08.2018 in A 402. The resource person for the same was Ms. Kavita Chawala, Designer, Jaipur. The demonstration focussed on Fashion Illustration using water colour, poster colour, oil paint and fabric colour. She created different designs on cartridge sheets. She demonstrates how to make fashion figures which are the basic fashion figures which forms the bases of fashion designing. She also discussed various types of motifs like stylized, geometrical with various colors schemes like monochromatic, dichromatic, complementary etc. She also shared sheets made by her with students, so the students get an idea and can create & develop various designs. They also enjoyed the demonstration and tried to make different designs using oil paint, poster and fabric colours. The students showed their keen interest by active participation in the activity. This demonstration was very fruitful for the students as it helped them to create their own sheets with innovative style. Approximately sixteen students participated in the demonstration.

Workshop on Coral Draw and Photoshop

Date: 24th-25th August 2018

Venue: IIS (Deemed to be University)

No. of Participants: 70

Objective of the workshop: The objective of workshop is to make students acquaint with the software like- Corel draw and Photoshop and to give students a hands on experience to work on both the software.

The department of journalism and Mass Communication organized a workshop on “Working with Coral Draw and Photoshop” for the students of PG and UG of journalism and mass communication and computer Science on 24 and 25 August, 2018. The session was conducted by the intellectual, Mr. Jagdeep Chopra, Proprietor, F Plus Designing and Print Jaipur.

The cascade of information indulged all the students completely. Corel Draw is a superior program for drawing, sketching and painting. Adobe Photoshop is superior for image composites, image adjustments and retouching. While it is possible to produce paintings in both programs, Corel Painter has a lot more built in benefits that allow painters to work intuitively. It provides an organic pleasurable painting experience. It was a two-way communication where students were interrogating with the intellectuals. In the workshop they taught about how to design a magazine's front and back page along with the useful instructions on how to design a good brochure.

Outcome of the workshop: The workshop proved fruitful for the students as students learned the functioning of software-corel draw and photoshop. The students also designed a front page of the magazine as an output of the workshop.

Workshop: Cross-Cultural Exposure with German Education Psychologist

Date: 16th-20th August, 2018

Venue: German Department, Room No. 111

No. of Participants: 52

Objective of the workshop: To have an idea how a purposeful learning process for German as Foreign Language may be achieved as well as to get first hand information about culture, education system and various traditions in Germany.

It was really a great opportunity for German Department to organize four day interactive session cum workshop with Roswitha Sowa for the students of department from 16th to 20th August, 2018. Ms. Sowa is working in Germany at present not only as educationist but also as education psychologist helping students choose right area of education, cope up with the challenges and demands of the time as well as optimize their own potentials in order to achieve their goal and do in a better manner whatever they are doing or want to do. In the four days' session of the workshop students had opportunity to ask different type of questions related to language, culture, education system and various traditions in Germany. The interaction as a whole was very fruitful for the students learning German in particular as they had first hand information about various things in Germany.

Outcome of the workshop: The students had not only first hand information about culture, education system and various traditions in Germany but also they could get the idea what purpose learning German as foreign language can serve in the present education system

Workshop on Pattern Making & Construction

Date: 9th-10th August 2018

Venue: Clothing Lab

No. of Participants: 35

Objective of the workshop: To understand students the concepts behind different types of pattern and their facts and figures.

The Department of Fashion and Textiles organized a workshop on 9th and 10th of August 2018. The resource person for this workshop was Miss Roshni Tarani. She is a well established fashion designer and specialises in pattern making. She is the first Indian to receive master's degree in transformational construction from TR cutting school, Milan. The main topics discussed in the workshop were:-

1. Basic pattern of trouser (Adult)
2. Adaptations of trouser
3. How to construct various patterns of trousers

On the first day of the workshop i.e. 9th August, students were introduced with different patterns and clothing of trousers, pants, palazzos etc. Then all the students were asked to construct the basic pattern and the adaptations in that. At the end of the day groups were formed in which each group included students from various semesters so as to give them the exposure of how work is done in industry. Each group discussed their pattern and then they learned as how to calculate the required fabric needed for the respective construction. The second day i.e. 10th of august, all the groups selected one pattern for their trousers and every group preceded towards its adaptations and stitching. Each group presented their garment with some elements of Rajasthan culture through gota, mirror work, turbans etc.

At the end of this workshop the models selected from respective groups represented the garments of each group. A ramp walk was conducted and designers were asked to represent their respective looks.

Business Analytics Workshop

Date: 3rd-4th August 2018

Venue: Aditya Hall

No. of Participants: 55

Objective of the workshop: To equip students with business analytics skills

The Business Analytics workshop was organised by the Placement Cell of IIS University, Jaipur in association with IIM Indore Event and Marketintern.com. The topic of the workshop was Business Analytics. There were 55 students who participated in the workshop with great enthusiasm. The corporate trainer for the 2 day session was invited from Delhi. Ms. Chumki Bhowmick is an area specialist with an experience of about 8 years in the corporate sector.

Day 1

The workshop began with the welcome note from Dr. Shivi Saxena, Placement Cell co-ordinator, IIS University by presenting the floral greetings to the guest.

Thereafter, Ms. Chumki took over the session with full energy and introduced the students to the world of Data Analytics. She made the students realise the power of Data Analytics and how deep it is practised. She introduced the students to the stages of preparing Data for use by using various software, some of which could be named as Python, Ms- excel, R, Anaconda etc.

After a whole lot of learning various activities were carried out by her to make the session interactive and knowledgeable.

The students showed their best interest and raised many queries and solutions to the problems faced and introduced.

Day 2

The second day of the workshop started at 9:00 a.m. in the morning with positive energies coming up. The trainer introduced the students to the selection round of I5 Summit and its procedure. She then, made groups of 5 students each and gave them a project to work, on which the selections were to be made. The students were given exact 2hrs to complete the project with their team members. Meanwhile, the trainer showed very polite and encouraging behaviour toward the students helping each of the group in the problems they faced relating to the project or the topic. The presentation round started with all the groups presenting their project to the trainer one by one. Selection became a tough decision as all the groups had cut throat competition.

Seminar on “Cheminformatics” and “Pharmacoinformatics”

Date: 27th-28th July 2018

Venue: AV Hall

No. of Participants: 120

Objective of the workshop/seminar/activity: Computers and information technology plays an important role in different fields of Science. It also plays an important role in making decisions faster in the area of drug identification and optimization. This seminar was organized to give an insight to the students about “Cheminformatics” and “Pharmacoinformatics”

Department of Chemistry, IIS (Deemed to be University), Jaipur has organized a guest lecture on the topic “Cheminformatics” and “Pharmacoinformatics” on 27th and 28th July, 2018 respectively by Prof. Krishna Misra, Honorary Professor, IIIT Allahabad. Prof. Misra explained the use of information technology in Chemical Sciences, be it drug design or protein synthesis. Students were enlightened and quite delighted to understand the use of computer software in drug designing, their efficacies & side effects. The use of software in toxicology was also eye opening. The lecture ended with her career guidance and scopes in the field of chemistry.

Outcome of the seminar: After the seminar the students were able to understand the use of computers and information techniques in drug designing.

Seminar on Digital Literacy

Date: 23rd July 2018

Venue: IIS (Deemed to be University)

No. of Participants: 50

Objective of the workshop: The objective of workshop is to make students aware about the importance of digital literacy. The workshop was organized keeping in mind the importance of digitalization in current era.

Department of Journalism and Mass Communication organized A Seminar on Digital Literacy on 23 July 2018 in Vinayak Hall, IISU campus, Jaipur. Gyan Gupta, CEO, First wall and Dainik bhaskar digital business, mentored the Seminar. He said that the digital media face is changing rapidly and there is flood of options for the youngsters who aspire to build career in this stream. He further introduced the students with the First Wall app- Ab India dekhega, Khudka Social Video app and told students to be part of the app. Miss Meenakshi Rathore on the occasion showed some slides and briefed about the app and its utility in the digital age. She also guided the students about how they can use the app and get popularity and improve their skills by uploading videos of covering the daily news updates which will groom them slowly to be in the media industry in future. 100 students of JMC attended the seminar. The Seminar proved fruitful for the students.

Outcome of the activity workshop: The workshop proved fruitful for the students as learning digitalization is very important in current era. The students participated in the activities conducted by the guest of the workshop.

Seminar on “Internet of Things (IoT)”

Date: 9 July 2018

Venue: CIT Lab A

No. of Participants: 30

Objective of the workshop: To impart knowledge about the evolution of IoT over the years and its future possibilities

The IIS University organized a Seminar for the orientation of new students of the CS & IT department by Prof. Paresh V Virparia, Director and Professor, Dept of Computer Science, Sardar Patel University, Gujarat. The session was about Internet of Things (IoT) and covered the topics: -Real life examples of IoT, Evolution of IoT, Benefits of IoT, Devices used for developing IoT.

The session started with some real life applications of IoT so that students could relate to the concept. The students were briefed about how IoT has evolved over the years and what are its future possibilities. The session was very interactive which made the students think and discuss openly about benefits IoT could provide. Some of the technologies used for developing IoT devices and connectivity were also discussed. It was an interactive and knowledgeable session. Students came to know about the latest and upcoming technologies. It broadened their perspective for the future. The students expressed their gratitude to Prof. Paresh for such a knowledgeable session.

Outcome of the workshop: The students gained an in-depth knowledge about the developments in the field of IoT.

Workshop on Mammalian Chromosomal assay

Date: 27th April, 2018

Venue: Department of Zoology, IIS (Deemed to be University) Jaipur

Objective of the workshop: To enhance the skills of students in the area of Genotoxicity and Chromosomal Abberations.

The Department of zoology organized a workshop on Mammalian Chromosomal Assay. Dr. Rajbala Verma Assistant Professor, Department of Zoology, University of Rajasthan was the resource person. She shed her expertise to post graduate students organized a workshop. She gave a lecture on Genotoxicity and Chromosomal Abberation Assay. Chromosomal aberrations are abnormalities in the structure or number of chromosomes and are often responsible for genetic disorders. Chromosomal abnormalities can result from either a variation in the chromosome number or from structural changes. These events may occur spontaneously or can be induced by environmental agents such as chemicals, radiation, and ultraviolet light. Visible changes to chromosome structure and morphology have played a very important part as indicators of genetic damage in both clinical and cancer studies. Postgraduate students have research dissertation in their curriculum in which they have to choose some research problem. So they learnt this techniques by which they can assess genotoxicity of any chemical or compound. Dr. Rajbala Verma explain the technique in detail followed by practical demonstration. This workshop proved very helpful for students.

Outcome of the workshop: Students learnt the technique based on Genotoxicity and Chromosomal Abberations Assay.

Seminar on “Entrepreneurship: Prospects and Challenges”

Date : 27 March, 2018

Venue : 11:00 am onwards

No. of Participants : AV Hall

Objective of the Seminar: The purpose of the seminar was to provide an opportunity to the students to shape the students’ attitude, aptitude and instill confidence in them

The Department of Management Studies had organised a seminar on ‘Entrepreneurship: Prospects & Challenges’ held on 27nd March, 2018 for the students of BBA Semester II. There were about 100 students participated in the Lecture. The Lecture was chaired by the resource person **Ms. Ravi Agarwal, Co-owner, Asteria, Jaipur**. He was felicitated and warmly welcomed with the floral greetings. On the day, Mr. Ravi discussed about the entrepreneurial skills. He introduced the different aspects of entrepreneurship and emphasized that zeal and great idea are the only ingredients in a recipe for business start-up. He mentioned that the reason that people do not start their new ventures in a country like India is due to non-awareness amongst the population of India and decides to go for jobs in private or government sectors so as to minimize the risk. Therefore, he emphasised to raise the basic awareness of entrepreneurial concepts and to enable students to identify and learn how to make a mind-set to take up entrepreneurship as a challenging career.

Outcome of the Seminar: The seminar was successful in promoting the employability and aptitude skills among students. The session was very interactive with the students. It helped the students in promoting knowledge of entrepreneurial skills. The lecture motivated the students to work hard and start a new venture through adequate forward planning and the execution of the plans. The session also included motivational videos which boosted up the students. The Workshop was fruitful for the students and faculty members. This was ended with honorarium to the guest and vote of thanks.

Workshop on Mud Printing

Date: 24th March 2018

Venue: A- 401

No. of Participants: 35

Objective of the workshop: Skill enhancement and product development among the students.

Crochet is a part of department's curriculum in skill enhancement course where the students are taught to make articles like mobile covers, table mats, accessories(Jewellery) and apparel like shrug and tops using the crotchet tool with wool or crocheting threads. Department of Fashion and Textiles had organized a workshop on "MUD PRINTING" on 24th March 2018. The resource persons were Mr. Sandeep Chippa & Mr. Govind Chippa, Poonam Textiles, Bagru, they defined the traditional process of this printing methods through mud paste, and natural dyeing agents on pretreated cotton fabrics. In this workshop they taught how to prepare the mud paste and colour. The process of finishing was as follows:

1. Pretreated (cambric cotton) fabric was used.
2. Mud paste: Black soil, gum, lime, and wheat powder, were mixed and kept for one day. This paste was applied with wooden blocks on the Pretreated fabrics. After printing the fabric, students waited for drying of the fabric.
3. After that they took two tubs and made the independent solution of Harda & Kashish dye (popular name). Harda gives yellow colour to the fabrics and Kashish dyed gives grey colour to the fabrics. After completion of dyeing process, fabrics were kept in the sun light till they dry.
4. Than the dyed fabric was washed in separate clean water for removal of the mud and than dried in shade.

Outcome of the workshop: Students learnt the natural process of the Bagru print; they had prepared the samples for made-ups (table cloth, cushion cover, mats) with the help of mud printing.

Moot Press Conference on "Changing Face of Media in Digital Age"

Date: 23 March 2018

Venue: A.V. Hall

No. of Participants: 90

Objective of the workshop: The objective of this workshop is to make students aware about the changing face of media in digital world.

Digital media has changed the facets of traditional media. Now, one does not need to sit at one place to have access to information. Digital has made it possible that a newspaper or a news channel has its presence everywhere from social media to online media. But on the other hand, it has definitely increased the role of journalist. These thoughts were shared at a moot press conference organized by the Department of Journalism and Mass Communication of the University. Topic of the conference was Changing Face of Media in Digital Age where eminent media personalities Dr. Arvind Kalia, Marketing Head, Rajasthan Patrika, Dr. Purna Sahani, Head and Editor, City Bhaskar, Mr. Anuj Sharma, Head, Musk, A Public relations Company, Mr. Praveen Dutta, Channel Promotion Head, A1 Tv Rajasthan, Dr. Anita Hada, Anchor Zee news were present as panelists.

The discussion began with the advent of digital age on media. Dr. Kalia shared his views on digitization and said that technology, interactivity and time dimension are the key factors for working working of traditional media nowadays. Mr. Dutta shared that the consumers' perspective as information is reaching out to people in many ways.

Dr. Hada discussed the co-existence of the media. Print or electronic media is no more limited to newspaper or a tv channel respectively rather it has its availability on social media platforms such as Facebook, Twitter, and other online platforms such as Youtube, mobile apps etc. so, in this situation reporter is doing multitasking on one hand he is working for the traditional media and on the other hand he is filing his story on digital platform at the same time.

Dr. Sahni talked about real time information. She said that now every media organization must be prompt in terms of filing a story otherwise it will lose its audience.

Workshop on Crochet Making

Date: 23rd-24th March 2018

Venue: A- 401

No. of Participants: 35

Objective of the workshop: Skill enhancement and product development

Crochet is a part of department's curriculum in skill enhancement course where the students are taught to make articles like mobile covers, table mats, accessories (Jewellery) and apparel like shrug and tops using the crotchet tool with wool or crocheting threads. The resource person Ms. Shalini Vijayvargaya , Textile Designer, Chapoorash Art & Craft, Jaipur. She guided the students to create new accessories and products with crochet. She even presented accessories and apparel so that students are able to understand and identify the concept of crochet. Basic chain , half trouble, full trouble and ring methods were taught. Students showed great interest in this activity. They made samples of crochet. She paid personal attention to all the students and she helped them in making the article. Students were able to explore their creativity and imagination beyond the technical skills and theoretical knowledge

Outcome of the workshop: The workshop was not only helped the students to explore and enhance their creativity but also chisels their brains. Students of Fashion & Textiles department look forward to such workshops which help them not only in learning new things but also interacting with new people.

Workshop on 'Introduction to Cloud Computing'

Date: 16th March 2018

Venue: CIT Lab

No. of Participants: 60

Objective of the workshop: To acquire knowledge about cloud computing, its creation and maintenance.

The Department of CS-IT organized a workshop on the topic of 'Cloud Computing' on 16th March' 2018. The workshop was conducted by training experts from Indian Institute of Hardware Technology from various branches including the ones in Jaipur and Bengaluru with over 20+ years of experience in their respective domains. The workshop was attended by students of all semesters of BCA as well as the professors from the CS-IT department.

The workshop started with a very basic overview of what Cloud computing is and its need, then a plethora of options were discussed which provide cloud services on a daily basis to individuals. Then the prerequisites of creating and maintaining a cloud were discussed. This discussion further led to discussion on various types of operating systems capable of handling cloud hosting and how to install and run multiple operating systems on one device using a virtual box. Afterwards, the students saw the creation of a cloud in front of their eyes and then interacted further with them. The workshop was very dynamic and interactive in nature which further intrigued all of the people present, both teachers and students. The tips and pointers provided for installing and creating various components were heavily appreciated by the students and were touted to be highly practical and usable in the future by the students for their future works. Overall the event was quite fruitful for the students and provided them with the basics of a highly employable skill.

Outcome of the workshop: The students were made aware about the basics of cloud computing, its installation and tips and pointers regarding the same.

Workshop on 'Employability Mock Process'

Date: 22nd-23rd February 2018

Venue: AV Hall

No. of Participants: 75

Objective of the workshop: To acquaint the students with employability skills.

The Department of Management Studies, The IIS University, Jaipur, in association with the Training & Placement Cell, The IIS University had organised a Two Day Workshop on 'Employability Mock Process' held on 22nd and 23rd February, 2018 for the students of BBA Semester II. There were about 100 students participated in the workshop. The resource person Ms. Akansha Manchanda, Endeavor Careers, Jaipur, chaired the Workshop. She was felicitated and warmly welcomed with the floral greetings. The purpose of the Workshop was to provide an opportunity to the students to shape the students' attitude, aptitude and instill confidence in them. In this two day Workshop, the following areas have been covered:

1st day: Preparation for Aptitude Test, and

2nd day: Techniques for Group Discussions

On the first day, Ms. Manchanda discussed about how to enhance aptitude and reasoning skills. She discussed various forms of vocabulary including the meaning, origin, pronunciation and usages of words, their synonyms and antonyms, as well as uses of idioms and phrases. In the second half of the session, an Aptitude test was conducted for participant students. The duration of the test was 60 minutes. The test was designed to check three abilities – Quantitative, Verbal and Reasoning.

On the second day, the session started with the announcement of winners' name of the Aptitude test held on the previous day. It was followed with the practice of Group Discussion among students. There were around ten Group Discussions held in the session. Each group was consists of 8-10 members. The topics of the discussion were related with current scenario such as One Billion Indian: A Sea of Opportunity or Gigantic Problem, Goods and Services Tax (GST): Favour or Against, Women in the Age of Start ups India, etc. Each student from the session actively participated in the Group discussions. After each Group Discussion, Ms. Manchanda gave personal feedback to the students. She talked about the techniques of participation in Group Discussion. At the end, name of the winners of Group Discussions were announced.

Workshop on 'Python 3.4'

Date: 21st-23rd February 2018

No. of Participants: 13

Objective of the workshop: To organize a three-day workshop on Python programming language and acquaint the MCA Students with hands-on knowledge of the language.

In this workshop the students were given a brief description of the following:

- Ø Introduction to Python 3.4
- Ø Database programming with Python
- Ø Web programming with Python
- Ø Introduction to Django

To endow with knowledge and skills of Python Programming Language and to provide Practical exposure of having worked with the Python environment the resource person, Mr. Ajit Kumar Yadav, guided the participants on the nitty gritty of the Python Language. They learnt about Database programming, Web Client Programming, web Server Programming, Web Database application in python & basics of Django.

Outcome of the workshop: The practical lab sessions were helpful and gave them hands on experience and confidence to work on the Python Language.

HR Conclave on Women and the Workforce: Employment trends for women in India

Date: 9th-10th February 2018

Venue: IIS Auditorium

No. of Participants: 400

Objective of the Conclave: To bridge the academia and industry gap

The Training & Placement cell of the IIS University organized a two day HR Conclave on the topic Women and the Workforce: Employment trends for women in India, from 9th to 10th February, 2018 at the IIS School Auditorium.

The programme began in IIS Auditorium on February 09, 2018 with the inaugural ceremony with Princess Diya Kumari as the Chief Guest along with the Keynote speaker for the day Ms. Rolee Agarwal, Vice Chancellor of The IIS University, Rector & Registrar Dr.Raakhi Gupta and Placement Officer, Dr.Shivi Saxena.

Ms. Rolee Agarwal IRS, Income Tax Commissioner addressed the session as the Keynote Speaker and with her inspiring speech she motivated the students to carve their way out to success and shared Five rules & rituals which she believe is important to achieve any success .

After the Keynote speech, Mr. Abhijeet Joshi, Director Sales, Gemporia TV, took over the session for the first invited lecture where he made students aware of wide number of career opportunities available for women in Media Industry. He attempted to take over the inhibited myth related to career aspects for women in the media.

Followed by him Ms. Pooja Pandey, Associate Director, British Telecom from one amongst the leading telecommunications companies in the world, stated forth the concern about gender diversity and the need for inclusion of women workforce in today's corporate sector and discussed the challenges faced by women at work. She concluded her session by quoting wonderfully "don't be a victim, if you will be a victim you will be victimized".

Thereafter Mr. Kishore Chainani a life coach from 'Let's design Life', took over the session as the last speaker for the day. He interacted with the students about failures in life and ways to overcome them, he insisted to have a massive huge consistent actions and the most important thing that he asked everyone out there to discover a "Why" in life for your goal. At the end an open discussion took place wherein students asked questions related to how to be positive in life, how to be consistent in their actions.

On the second day of the conclave, the first technical session was taken up by Ms. Tejal Raut, Senior Manager from Piramal Foundation, who talked about Gandhi Fellowship Program on various business ideas for women in today's scenario and about sexual harassment faced by both the genders at workplace. Her session was quite interesting as she interacted with the students about various career opportunities which women usually do not take as their career option.

Followed by her, the next session was taken by Major Neha Bhatnagar, from Indian Army won accolades for her brave attempt to climb the Mt. Everest. The entire session was very motivating & inspiring for the students as she shared her experience of Mt. Everest and about Indian Army and various career opportunities for women in armed forces. She concluded her session by stating 'dream big, think big'.

After a short break, the next session was addressed by Ms. Mahima Sharma, Sr. Manager, Gender Diversity for Genpact. She talked about issues with gender diversity and importance of inclusion of women workforce at workplace. She discussed reasons why women renege on their career commitments and also about various innovative ways to remove gender bias at workplace. Followed by her the next session was taken by CA Neha Gadia, presently working with her new venture 'V Grow'. She told students how do they grow organic fruits and vegetables in their farm and how do they make it available to the people. Mr. Vipun Wadwa, a soft & behavioral skill trainer, took the last session. His session was very energetic, interactive and packed with fun activity for the students as he made them do various skill development activities indispensable to ignore at the workplace. At last there was a small presentation played for the students on the glimpses of the HR Conclave 2018 which was an icing on the cake for all.

One Day Workshop on ‘Case Study Writing’

Date: 23rd January, 2018

Venue: Aaditya Hall

No. of Participants: 200

Objective of the workshop: The purpose of the Workshop was to provide an opportunity to the students to explore the real-world functioning of organisations in context through case study writing and analysis.

The Department of Management Studies, The IIS University, Jaipur organized a One day Workshop on Case Study Writing, for the students of BBA. There were about 200 students who attended the session. The resource person Dr. Mahesh Chandra Joshi, Professor, Poornima University, Jaipur, chaired the workshop. He was felicitated and warmly welcomed with the floral greetings.

Case study is one of the pedagogy of teaching in which students and instructors participate in direct discussion. The Workshop was divided into two important Sessions with an equal time allocated to both the sessions:

Session I: Methods and techniques of Case Study Writing,

Session II: Case Study Discussion.

In the first session, Dr. Joshi discussed the history of the Case study method considering the Western and Indian ideologies of case study method from the ancient times. He highlighted the benefits of case studies in teaching, the types of case studies, scientific methods of case study and parameters for preparing case study writing, use of case study method in decision making, guidelines for preparing case study analysis.

In the second session, Dr. Joshi discussed two case studies with the students. Fifteen groups were created consist of 7-8 students in each group. They discussed the cases internally and then the group leader gave a oral presentation of their analysis.

Finally, Dr. Joshi taught the students how to get an insight on different managerial aspects in the case. He discussed the strategic dilemma present in the case. Students have come up with various solutions on the problems related to financial management, allocation of resources, human resource policies and business strategies.

Workshop on Fashion Jewellery Making

Date: 17-18 Jan. 2018

No. of Participants: 39

Objective of the workshop: To Impart the knowledge of associating scrap material with jewellery beading skills and to enable students awareness of importance of designing for sustainability

The department of Jewellery designing organized a fashion jewellery ornaments making workshop for jewellery designing students. During the workshop, students got the opportunity to learn all the phases of fashion jewellery making using shilpkar, mount board beads, Hook, Findings, Gem Stones. The fashion jewellery making expert Ms. Rashmi Agarwal choose to make the beautiful pieces like necklace, Rings, Pendants, Bangles and earrings etc according to their interest. In the beginning session, Dr. Neeru Jain, Head, Department of Jewellery designing, IISU, introduced the students with the Fashion Jewellery Process, tools, Equipments and materials. In practical sessions, students were involved with the planning and practice of techniques, types, and size and colour combination of the beads as well as beading designs. The students participated enthusiastically in the workshop and it was a informative and creative workshop which imbibe technical skills and knowledge amongst the students.

Outcome of the activity workshop: Students were able to learn all the phases of fashion jewellery making using shilpkar, beads, Hook, Findings, Gem Stones. They can create their own fashionable jewellery and can commercialized this beading art and open new boundaries for job seekers. They can start their own business with small capital and can give employments to others.

Workshop on Fashion Photography

Date: 25th November 2017

Venue: Clothing Lab

No. of Participants: 40

The Department of Fashion and Textiles conducted one day workshop exclusively for the Fashion designers from the Dept. of Fashion & Textiles on 25th November 2017 in Clothing Lab from 01:30 pm. to 04:00 pm. The resource person for the workshop was Mr. Jitendra Sharma, Assistant Professor, Dept. of Computer Science & IT, The IIS University, Jaipur. This workshop was planned with an aim to enhance skills towards Fashion Photography/Photoshoot for Souvenir and presentation. The workshop focused on the points to be kept in mind during photography such as light management and background selection.

Mr. Sharma explained the detailed presentation on the role of light for photography & usage of DSLR camera. The selection of pixel size, image size, light management, background selection poses, focus point for shooting with the help of mobile camera and professional camera. He explained students to take care of following things before taking a photograph;

- To be attentive
- To be sensitive towards the surroundings/backgrounds/lights
- To enhance the visualization skills as learn to explore new things

Hand on experience was also given to all designers for a photo session (indoor & outdoor) through the demonstration he explained the importance of light in photoshoot.

Outcome of the workshop: All the designers actively participate in the workshop. Designers also learnt about the proper uses of props model pose of model and importance of dress. Hence, this fashion photography workshop was very useful for the designers.

Workshop on “User Interface Through Boot Strap”

Date: 1st-2nd November 2017

Venue: CIT Lab

No. of Participants: 40

Objective of the workshop: To give a hands on experience of working on Boot strap for effective web designing

The Department of Computer Science and IT organized a workshop on “Bootstrap” led by Mr. Rohit Jain, founder and CEO of Full Stack Learning, Jaipur. In this interactive session the students were given an introduction about the components and implementation in Bootstrap. The students were provided the information on Bootstrap where Sir told the students that Bootstrap is not no CSS but less CSS. He gave the introduction about Bootstrap's official website. Also he talked about Content Delivery Network(CDN). Sir further discussed about the implementation of Bootstrap where he explained the components of Bootstrap i.e. Alerts, Cards, Buttons. It was an enlightening experience for the students as they were able to learn and implement the basics of Bootstrap. All the students gained valuable insight regarding Bootstrap. At the conclusion of the session the query round was held in which the students got an opportunity to put forward questions to satisfy their curiosity. The overall session was enlightening and the students enjoyed it. The session ended with a thank you note by expressing gratitude to Mr. Sharma for taking out time from his busy schedule and making the students aware of the technology.

Outcome of the workshop: The students learned working in Bootstrap and its various components.

6th Entrepreneurship Bazaar (E-Bazaar) on Campus

Date: 25th-26th October 2017

Venue: IISU Campus

No. of Participants: 117

Objective of the activity: To build up an entrepreneurial ecosystem on campus and providing a forum for entrepreneurship and building.

Displaying ones business idea in the bazaar on Campus promotes a sense of confidence among students. Keeping this notion in mind the 6th Bazaar on Campus was organised by Chrysalis, the e-cell of the IIS University on 25-26 Oct 2017. It was inaugurated by Mr. Om Thanvi, Senior Journalist and Former Editor, Jansatta. E-cell members sent the message of becoming Entrepreneurs through a flash mob in the Bazaar.

Various departments of the University represented 12 business ideas. The idea behind this campus was to give a push to the upcoming business minds. Mr. Sandeep Menghani, Founder, Yeshaswi Bhav and Ms. Geeti, Assistant Professor, ISIM judged the business ideas.

The ideas were evaluated under the categories like Most Innovative Business Concept, Best Decorated Stall, Star Udhyami, etc.

Outcome of the activity:

Participants gained confidence while displaying their business models. The feedback and inputs given by judges were taken in a right spirit to improvise upon their business plans.

Workshop on Entrepreneurship & Soft Skills

Date: 6th -7th October 2017

Venue: Seminar Room

No. of Participants: 28

Objective of the workshop: To acquaint the students with entrepreneurship and soft skills.

The workshop was organised by the Placement Cell of IIS University, Jaipur in association with IIM Calcutta (Carpe Diem Event) and Marketintern.com. The topic of the workshop was Entrepreneurship & Soft Skills. A total of 28 students participated in the workshop. The trainer for the 2 day session was invited from Delhi. Ms. Suprita was the main trainer for the workshop. The workshop began with the welcome note from Dr. Shivi Saxena, Placement Cell co-ordinator, IIS University by presenting the floral greetings to the guest. Thereafter, Ms. Suprita took over the session with full energy and introduced the students to the world of Entrepreneurship & soft skills. She made the students understand the necessity of soft skills for the corporate life as well as for professional setup. She also introduced the students on how to conceptualize the business plan & can become an Entrepreneur. After a whole lot of learning various activities were carried out by her to make the session interactive and knowledgeable. The students showed their best interest and raised many queries and solutions to the problems faced and introduced. At the end of the 2 day session, the students were given participation certificates and Merit certificates were distributed to the merit holders.

Outcome of the workshop: The students were introduced to the world of Entrepreneurship & soft skills.

Workshop: Cross-Cultural Exposure to German Language and Literature (Part II)

Date: 5th to 7th October, 2017

Venue: Ojas Hall & German Department

No. of Participants: 71

Objective of the workshop: Students to have a Cross-Cultural Exposure to German Language and Literature in German as Foreign Language Class

It was a matter of great honour and pride for the German Department to organize a three day Workshop with Prof. V. Ganeshan, an eminent scholar of German Language & Literature and ex Vice- Chancellor of CIEFL (now EFLU), Hyderabad from 5th October to & 7th October, 2017. The subject of the Workshop varied from various intricacies of German Grammar to literary epochs of German literature. But the most interesting part of this three days' long Workshop was doing a German Song workshop where all the students of the department participated with great fervour and enthusiasm. In the workshop Prof. Ganeshan not only explained the meaning and grammar of numerous of lyrics in German but also sang with accurate meter and rhythm as were suitable to different songs.

The Workshop was well attended by students of German Department. We had also the honour of having Prof. Dr. Pawan Surana, President of Indo-German Society as well as Mr. Hemant Agrawal, Associate Professor in the German Department, Manipal University and Mr. Rajesh Mendiratta amongst us. On the last day i.e 7th October of the lecture series the students came up with very positive feedback about the various lectures, particularly talking how it helped them in their academic enrichment and understanding of German language & literature. In the end Ms. Prachi Goswami, Head, German Department extended the vote of thanks to Prof. Ganeshan and also presented him a memento as a token of honour. The event concluded with an overview of the deliberations on all three days presented by Mr. J.P. Karna, Senior Assistant Professor in the German Department.

Outcome of the workshop: The students could get chance to have series of discussion on topics related to intricacies of German grammar, the basic features of German Literary Epochs and also made good use of opportunity to participate in a very lively workshop on German Song.

BAKERY WORKSHOP

Date: 4th October 2017

Venue: Room No C-305

No. of Participants: 40

Demonstration was organized by Department of Home Science on 4th October, 2017. This activity was opened for all the students of Department of Home Science and COSD students. Forty students eagerly participated in it. The activity started with the welcome speech which was delivered by Ms. Ruchika Gahlot. In welcome speech a brief introduction of Ragini Soni, who is an expert in making cakes, chocolates, mousses, muffins, brownies, puddings and desserts, was given. She is also adept in making Italian foods and Chinese food. She began the activity with an elaborate explanation of the strawberry cheese cake. She used the ingredients namely, agar agar powder, Philadelphia cheese, icing sugar, whipping cream, strawberry crush, biscuit crust, butter and corn starch for cake preparation. The strawberry cheese cake was prepared in three layers. Bottom layer was prepared by using biscuit crust and butter. Middle layer was of Philadelphia a cheese, whipping cream and agar agar to set the cream and cheese. The top layer was made of strawberry crust which was set by using corn starch. She also explained the preparation of ganache and mousse.

Seminar on Ethical Hacking & Cyber Security

Date: 3rd October 2017

Venue: Srijan Hall, IIS (Deemed to be University)

No. of Participants: 60

Objective of the workshop: To make the students vigilant about safety of their data over the internet.

The IIS University comes up with new innovative approaches for the students pursuing a degree course in Computer Applications so that they are well aware of the current scenario and cyber threats. This time they took initiative and organized a Seminar on “Ethical Hacking” lead by Mr. Rizwan Shaikh, one of the security service providers who is currently the founder of Pristine Info Solutions, Jaipur, a cyber-security company that specializes in cyber-crime investigation, cyber law consulting and other security services. In this interactive session the students were given a brief description of the following:

- What is hacking?
- Difference between ethical and unethical hacking.
- Hacking remotely placed systems.
- Briefed about Brute Force attacks via Office Key software.

The session continued while he explained more about making a strong and reliable password and insisted on changing it after a certain span of time to make sure every individual stays away from security breaches and claws of unethical hackers. He guided the students about the fact that “A student needs to become an unethical hacker first because if she cannot penetrate into a secure system unethically, she would never be able to protect it from being vulnerable to attacks from others.” In the conclusion the query round was held in which the students got an opportunity to put forward questions to satisfy their curiosity.

The overall session was satisfactory and the students enjoyed it. Moreover, they are expressing their gratitude to Mr. Rizwan for taking out time from his busy schedule and making them aware of the basics of Ethical Hacking.

Workshop on Goods and Service Tax

Date: 28th September, 2017

Venue: A.V Hall

No. of Participants: 120

Objective of the workshop: The main aim of the workshop was to familiarize students with the fundamentals of GST.

The program began with the inaugural session. CA Akshay Jain, the keynote speaker was welcomed and he delivered a presentation on fundamentals of GST. According to him there is a big difference between the dream GST and Actual GST. He also made students familiar with the basic concepts like registration, composition scheme, tax structure and benefits of GST. The session proceeded after break where the guest of honour CA Abhisekh Sharma and CA Sanjay Kumar Maheshwari gave certain tips on how to become successful in life and academics. CA Abhisekh Sharma shared his experiences of life and enlightened with motivational poetry written by him. CA Sanjay Maheshwari guided students on how to focus on priorities rather than on materialistic things. The session then proceeded with gaming activity where CA Akshay Jain asked certain questions related to presentation on GST from students. The Students who answered were awarded with prizes. The program was a success and highly appreciated by the participants and faculties.

Outcome of the workshop: Moreover, the participants understand the concept of GST. Also, they learned a lot from the life experiences of the guest and received certain tips on how to become successful in life.

National Seminar on Sustainable Fashion: Creating Global Vision

Date: 15th-16th September 2017

Venue: ISIM Auditorium

No. of Participants: 220

The Department of Fashion and Textiles organized this two day National Seminar on “Sustainable Fashion: Creating Global Vision”.

Technical Session I

The theme of the first Technical Session was Sustainable Luxury Fashion. It was chaired by Prof. Inderpal Rai from Jai Narain Vyas University, Jodhpur. The speaker, Dr. Suruchi Mittar, Director of Learning and Development Culture, Appster, Delhi, stressed the importance of social responsibility in design. She addressed the audience to be aware of design consequences and address issues related to social impact by design. This session was followed by the presentation made by Ms. Anita Ahuja on Sustainable Fashion: Creating Global Vision. She explained her journey of launching of her brand Lifafa and products made from waste. She explained the importance of promotion through social media. She pointed out that the key challenge in making upcycle products rather than recycling. It was followed by group photographs session of all guests and delegates, and participants and volunteers. After which lunch was served.

Technical Session II

The theme of the second Technical Session was Textile and Apparel Waste. The session was chaired by Prof. Anjali Karolia from The Maharaja Sayajirao University of Baroda. The invited speaker, Dr. Ela Manoj Dedhia, Head, Nirmala Niketan College of Home Science, and Mumbai identified factors influencing disposal of clothes. Her presentation focused on adoption of desired practices for Textile Recycling. She explained recycling in terms of pre and post consumer waste. Her speech was followed by three oral presentations on eco friendly dyeing, creating sustainable accessories and awareness of students towards eco friendly garments.

Technical Session III

Sustainability: The Future Fashion was the theme of the third technical session which was chaired by Dr. Ruby Jain from University of Rajasthan. The invited speaker for the session was

REGISTRAR

Prof. Inderpal Rai and her topic was Sustainable Fashion: A growing trend. Her talk focused on the threats caused by Textile and Apparel Industry. She discussed the solutions for promoting Sustainable Fashion. This session was followed by five Oral Presentations. The presentations were on Smart Textiles, Reducing Environment Impact of the Use Phase, Micro encapsulation, Sustainable Fashion Curriculum, Fair Trade Textiles.

Technical Session IV

Day 2 started with the fourth technical session which was on Emerging Design Strategies. Dr. Ela Manoj Dedhia chaired the session and the invited speakers were Dr. Ruby Jain from University of Rajasthan and Prof. Nien Siao from Arch Academy of Design, Gurgaon.

Dr. Ruby Jain put forth her opinion about the subject of Rethinking Textiles and used case studies to support her presentation. She emphasized on Sustainable Design System, adoption of slow fashion, revaluation of mending skills and reduction of carbon foot print. She also suggested way, an individual could contribute in this regard.

Prof. Siao discussed issues related to Emerging Design Strategies for Fashion Design & Business. She informed about the role of consumers in Sustainable Fashion and role of designers in sustainability. She stressed the need for collective efforts to appreciate sustainability as a way of life, a fact that deserves to be understood and accorded importance not just as a trend or passing phenomenon in the Fashion Journey but as a necessity. The session was followed by five Oral Presentations. The Presentation were on Maternity wear, Natural Dyes, Developing Eco-friendly Fabric, Impulsive Buying Behavior, Khadi with a Rogan Connection. After the fourth technical session, presenters put forth their point of views on varied areas related to sustainability. The Poster Presentations were followed by lunch.

Technical Session V

The concluding session was based on the theme of Indian Textiles and Fair Trade Practices which was chaired by Prof. Nien Siao. The featured speakers for this session were Prof. Anjali Karolia and Ms. Raj Kanwar, Textile Designer, Entrepreneur and Proprietor from 'OJJAS' Jaipur. Prof. Karolia spotlighted the strengths of handmade products, stressing the exploration of local resources, promoting local marketing and sensitizing consumers to Sustainable Fashion.

Seminar on Scientific Writing

Date: 5th September 2017

Venue: AV Hall

No. of Participants: 75

Objective of the Seminar: This seminar was organized with the aim to aware the students about scientific writing.

The session started with the welcome of Dr. Neelima Gupta. She delivered lecture covering the various aspects of scientific writing. She discussed about the systematic way of scientific writing. Different steps of scientific writing collection of observations, their interpretation and applications were discussed. The important aspect of scientific writing is that one must remember about the successful delivery of work to the reader. In a scientific article every part of an article is important. There should be a flow in a scientific article, introduction must be interesting and the interest must be followed up to the conclusion. She also explained the procedure for the selection of an appropriate journal for submission of a manuscript, submission procedure and their editorial procedure.

Outcome of the Seminar: After the seminar, students were able to understand the key points to be considered before writing a scientific article.

‘One Day Symposium on ‘Regulation and Management of Experimental Animal Models’

Date: 2nd September 2017

Venue: A.V. Hall

No. of Participants: 70

Objective of the seminar: To aware the students about justified usages of laboratory animals along with their welfare concerns.

One day symposium was organized by the Department of Zoology on 2 September 2017 to fill the knowledge gap and sensitize the different stake holders (students, research scholars and faculty members) about the legal frame work of the country and its sanctity, regulatory bodies , basic components of animal house, record keeping of the experimental animal models.

Dr. Vikas Galav gave information on “Regulatory framework of animal experiments in India & Importance of record keeping”. He discussed the importance of animal welfare emphasizing on the 3 R’s - Replacement, Reduction & Refinement & the 4th R- which is the responsibility of the researchers to pursue research in a well-defined way causing less exploitation of animals. He also discussed regulatory bodies like CPCSEA which supervise the breeding & equipments on animals in various agencies where are used for experimental purposes. Steps to register an animal house were also explained, Sir also made us aware about IAEC, its composition, its role in research role of CPCSEA nominee, Importance of record keeping types of records that should be maintained.

Dr. Ganesh Sharma addressed second session. He discussed how different types of drug treatments like analgesics, anti-inflammatory and antipyretic can be given to different animal models. Dr. Alka Galav shared her views on insights into animal research proposals: form B’. She guided us about how to choose the right animal model for research, Quality control methods like good animal keeping, duration of study, route of inoculation, specimen collection and many other points which need to be kept in mind while filling form B.

In the third technical session Dr. Vikas Galav emphasized on the topic “designing & critical components of Animal House”.

Seminar on Techniques of Translation

Date: 25th August, 2017

Venue: Seminar Room

No. of Participants: 47

Objective of the seminar: Students should get to know about some very practical aspects of doing translation from German as Foreign Language into Indian Languages including English.

A seminar was organized by German Department on Techniques of Translation. The esteemed speaker on this occasion was Dr. Madhusudan Joshi, Associate Professor in the Department of Romance and Germanic Studies, University of Delhi. The lecture started with a welcome address by Ms. Prachi Goswami, Head, German Department. Dr. Joshi delivered his talk on the topic "Techniques of Translation". In his scholarly interaction with the participants of the Seminar he not only discussed various techniques and intricacies of literary translation but also elucidated it with some lucid examples. He explained as to how it can lead to grave errors in literary translation if just the meaning of the words and not the meaning behind the words is well understood. He espoused the very idea of having more and more interaction between Indian and foreign languages and literatures so that good translations can be produced. Mr. J.P.Karna, Senior Assistant Professor delivered vote of thanks on behalf of the German Department.

Outcome of the seminar: The students came to know about various intricacies and nuances in the techniques of translation particularly while translating from German language into Indian Languages including English.

Demonstration of “Drying of Solvents and Chromatographic Techniques”

Date: 16th-18th August 2017

Venue: C-506

No. of Participants: 32

Objective of the workshop: Drying of solvents is an important step in inorganic and organic synthesis with non-aqueous solvents. Chromatographic techniques also play an important role in Chemistry. To inculcate the students with these techniques this workshop was organized.

The workshop on “Drying of Solvent & Chromatographic Techniques” was organized by the Department of Chemistry for M.Sc. Semester III students under the supervision of Ms. Manjinder Kour on 16th and 18th Aug, 2017. She explained the importance of solvent drying and effect of impurities in a solvent including moisture. Describing the importance of solvent drying, it was explained that it is more economical to purify commercial grades than to purchase more expensive Analytical grades. Next day lecture and demonstration on “Chromatography techniques: Column and Thin Layer Chromatography” was carried out. Column Chromatography is a method used to purify and separate individual compounds in a mixture. Experimentally also, they performed Column Chromatography and prepared TLC plates. The workshop was summed up with the question answer session. Next day another method for the drying of high boiling point solvents was demonstrated.

Outcome of the workshop: After the workshop the students were able to dry solvent with appropriate technique and use chromatographic techniques whenever required.

Workshop: An Introduction to ChemDraw

Date: 12 August, 2017

Venue: AV Hall

No. of Participants: 32

Objective of the workshop: ChemDraw is software used for the generation of chemical structure. The knowledge of ChemDraw is essential for the UG, PG and Research students so that they can present cleaner, authentic and high resolution structure in their work. With this aim we have planned to organize this workshop.

The workshop on “ChemDraw” was organized for all the M.Sc. Students on 12th August 2017 at the IIS University Jaipur. Ms. Manjinder Kour wonderfully simplified the use of ChemDraw program which helped the students to efficiently draw simple 2-D representations of organic molecules, chemical formulae and reaction schemes required for their seminar reports, publications and thesis. The workshop began with the introduction of ChemDraw. Ms. Manjinder guided the students about the software, how to draw molecular structures and also the importance of that software. ChemDraw is a molecule editor application first developed in 1985 by David A Evans and Stewart Rubenstein. ChemOffice suite consists of three programs viz. ChemDraw, Chem3D and ChemFinder, and is available for MacOS and Microsoft Windows. ChemDraw has many applications viz. drawing chemical structures, giving names to chemical structure, in the conversion of a chemical name to structure, in NMR spectrum simulation (^1H and ^{13}C), in mass spectrum simulation, and in structure cleanup. It has an extensive collection of templates, including style templates for most of the major chemical journals, exporting to SVG and PDF format. Students learned to draw different structures on ChemDraw under the supervision of Ms. Manjinder Kour. The workshop was over with Q&A session.

Outcome of the workshop: After the workshop students were able to draw the structures in ChemDraw and its use in the interpretation of IR, NMR and Mass spectrum.

Workshop on Proquest-An E-Learning Resource

Date: 5th August, 2017

Venue: CIT Lab D

No. of Participants: 40

Objective of the workshop: The objective of the workshop was to familiarize the students with the Proquest and update their knowledge with its functioning.

The Department of HRM & IB organized a workshop on “Proquest-An E-Learning Resource” for the undergraduate and postgraduate students of the department. The speaker of the lecture was Mr. Sanjay Kumar Rajan, the Training and Consulting partner-Asia Pacific. To begin with Mr. Sanjay Rajan was welcomed by Dr. Roopam Kothari. He was then invited to give his talk. He discussed the importance of relevant information for the completion of research works. Furthermore, he familiarised the students with the Proquest and updated their knowledge with its functioning, how to connect with it, its content including dissertations, newspapers, e-books, periodicals, historical collections, articles on various subjects like business, management, marketing etc.

Resource Person highlighted that vast content available on Proquest allows serious research of virtually any research topic from multiple perspectives and across multiple formats. Precision search of the content is enabled through ProQuest’s renowned ability to structure data for simple access and discovery by students, scholars and information seekers of all kinds.

At the end he concluded with famous Buddhist philosophy-“Pray before meal”. He linked the same to make the students understand that they should always have gratitude for information and the source of information.

Outcome of the workshop: The students became familiar with the features of Proquest which they can use to fulfill their quest for knowledge and data generation.

Two-Day Workshop on “Reading Rajasthani Archival Sources”

Date: 4th-5th August, 2017

Venue: Vinayak Hall

No. of Participants: 149

Objective of the workshop/seminar/activity: To train participants for reading Rajasthani Historical documents- A Primary source of study of History of Rajasthan

The Archival, non archival, numismatic, inscriptions and Archaeological data form the backbone of the historical research for all periods. Rajasthan is extremely rich in historical sources pertaining to all periods of history. The State Archives at Bikaner possess enormous material both in Persian as well as in Rajasthan which is very significant for carrying out Research in Rajasthan. Beside this, region is also rich in private collections possessed by many business families, jagirdars and revenue officials which are in Rajasthani language. This workshop is based on reading primary sources available in Rajasthan State Archives, Bikaner. Dastur Komwar papers constitute an important category of records and give more varied information on the social, cultural, and political history of Kacchawaha clan between 1718 to 1918. The documents are arranged caste wise and in alphabetical order dealing with the customs and traditions of the different castes in the contemporary period.

Outcome of the workshop: The students learned and practiced reading Rajasthani language and it up-skilled them with deciphering archival documents of history preserved in the Rajasthan State Archives, Bikaner. The students got a chance to develop the skills which helped them understand the history, culture and traditions of the bygone era of the state of Jaipur.

Seminar on Intellectual Property Rights (IPR)

Date: 17th July 2017

Venue: Vinayak Hall

No. of Participants: 85

Objective of the Seminar:

- Foster Innovation & Entrepreneurship Using IPR Tools
- Overview of International IPR- Global Perspective
- System of Trademark protection
- National perspective of IPR In relation to young startups
- Facilitation & Systems of Protection of IPR Tools: Patents & Design
- Importance of IPR in relation to Innovations, research and development and the scope
- Case studies based on livelihood and survival of GI in Rajasthan & UP

The Department of Biotechnology & Intellectual Property Cell of The IIS University in collaboration with Consortium of Women Entrepreneurs of India (CWEI) is organizing a one day Seminar on “Intellectual Property Rights (IPR)” on 17 July 2017 in the Vinayak Hall of The IIS University, Jaipur to raise the level of awareness on IPR and addressing major Issues of concern for the young students to use IPR tools for protection and enforcement of their Rights.

Consortium of Women Entrepreneurs of India (CWEI) is a registered civil society non-profit, technical organization with a mandate to work in the sub-continent. CWEI is accredited to UN System and Govt. of India. As CWEI are Knowledge partners working for the sustainable economic empowerment of women to register as enterprise units, double their income and develop employable skills. CWEI is providing End to End Solutions in Enterprise Building in India and the Developing World. As part of CWEI ongoing camps, workshop and conferences, CWEI, wishes to organize a one day program on Intellectual Property Rights in The IIS University, Jaipur. The target audience was researchers and students under the University. There is no registration fee. The seats are limited and on first-cum-first-serve basis. The total registered participants were eighty-five.

As per the seminar agenda, participation registration scheduled 9:30 to 10 AM, the conference started at 10:00 AM with lighting of lamp and opening remarks by Ms. Shashi Singh, Chairperson CWEI. She expressed her thoughts on Foster Innovation & Entrepreneurship Using IPR Tools. Subsequently three speakers from the US patent and trademark office (USPTO) shared the thoughts as per the schedule. Ms. Nancy Omelko, Attorney-Advisor, USPTO on

Overview Of International IPR- Global Perspective. Ms. Attiya Malik, Attorney-Advisor, USPTO on System of Trademark protection. Ms. Komal Kalha, Senior Counsel, US Patent & Trademark office, Embassy of USA, New Delhi on The national perspective of IPR In relation to young startups. After the High-Tea, the scheduled topic “Facilitation & Systems of Protection of IPR Tools: Patents & Design” was delivered by Dr. Jitender Sharma, Examiner of Patent & Design, IPO, New Delhi. Subsequently, Mr. Pankaj Kumar, Assistant Professor and the IP Coordinator, IP Management cell, The IIS University, Jaipur delivered a talk on “Importance of IPR in relation to Innovations, research and development and the scope”. Lastly after lunch-beak, IP Attorney Mr. Vikas Asawat, IPR, Attorney, Kota delivered a talk on “Case studies based on livelihood and survival of GI in Rajasthan & UP”. Vote of thanks was delivered by Professor Radhika Sharma.

Outcome of the Seminar: The participants were made aware on various issues related to IPR including the following:

- Foster Innovation & Entrepreneurship Using IPR Tools
- Overview of International IPR- Global Perspective
- System of Trademark protection
- National perspective of IPR In relation to young startups
- Facilitation & Systems of Protection of IPR Tools: Patents & Design
- Importance of IPR in relation to Innovations, research and development and the scope
- Case studies based on livelihood and survival of GI in Rajasthan & UP

One-Day Seminar on Hands-on Experience in SAS

Date: 29th March 2017

No. of Participants: 186

The Centre for Research, Innovation and Training (CRIT) of the IIS University and the Department of Management Studies organized a one-day Seminar on “Hands-on Experience in SAS” on March 29th, 2017. The speakers for the same were Mr. Himanshu Agarawal and Ms. Sonal Garg, Founder, Sheersha Learning Solutions, Jaipur and Mr. Robin Mann, SAS certified analytics professional. The seminar was conducted to acquaint students with SAS, producing Summary statistics Tables and Plots with the help of SAS.

The major objectives of the Seminar were Introduction to SAS Enterprise Guide, Understanding Descriptive Statistics, getting students’ familiarize with confidence interval of means, hypothesis testing and a few tests with the help of SAS. In the first session Mr. Himanshu Agarawal and Ms. Sonal Garg, Founder, Sheersha Learning Solutions, Jaipur introduced Big Data, Analytics & SAS to the students of BBA. In the later session Mr. Robin Mann shared his views on how the students can use SAS for exploring and analysing data for preparing reports. He also stresses on that learning SAS can help students in getting attractive salary packages as most of the organisations use SAS and its credibility is worldwide.

More than 180 Students of BBA benefitted from the seminar and learnt the uses of SAS, its significance and scope in the field of research.

BAKERY WORKSHOP

Date: 25th March, 2017

Venue: Room No C-305

The bakery workshop was organized as a part of Home Management Guild activity by department of Home Science on 25th march , 2017. This activity was opened for all the students of Department of Home Science and around twenty five students eagerly participated in it. The activity started with the welcome speech which included a brief introduction of our own M.SC Sem II student , Ms. Samriddhi Mundra , who is also used to run her own bakery in Kolkata. She is an expert in making pure desserts, soufflés, mousses, muffins, brownies, sponge cakes and puddings etc. She began the activity with an elaborate explanation of the two cake recipes namely black forest and eggless vanilla sponge cakes. She also made an attempt in preparing the recipe of Ganache and in teaching the various methods of preparing chocolate decorative items namely fans, cigars, bangles, curls etc. for garnishing the cakes. She taught the cake decoration which involved the procedure of icing and garnishing of the two cakes. Besides, this she also gave small tips which one should keep in mind while making cakes. Lastly, the decorated cakes looked very appealing and were also very delicious in taste. Finally the bakery workshop was very interesting, knowledgeable and fruitful for the students as well as the faculty members.

Workshop on “Digital Marketing”

Date: 24th March 2017

Venue: AV Hall

No. of Participants: 125

Objective of the workshop: To acquaint the students about basics of digital marketing as a tool for product promotion and job prospects in the field.

Department of CS & IT and Department of Management Studies organized a Workshop on Digital Marketing on 24 March 2017 at the Vinayak Hall, The IIS University. The workshop was well handled by Mr. Mridul Kabra, CEO and Co-Founder at Quadriga, Digital Marketing hub, Jaipur. Dr. Anubha Jain, Dept of CS & IT and Dr. Chhavi Jain, Department of Management Studies coordinated the workshop. Mr. Kabra highlighted the job prospects as a digital marketer to the students. He told students how they can become social media marketers and digital content strategists. He also advised students to help companies in developing; integrating and analyzing the digital brand with use of software and tools that would exclusively and efficiently market the company product/services. Through practical examples and case studies he taught students how they can help in the promotion of business by using Search Engine Marketing (through Google Ad words, Bing, Facebook and LinkedIn) - Lead generation, Data analysis and revenue management –Website Audit, Usability and Conversion Optimization and monitoring. This workshop benefited 125 students of BCA and BBA. This workshop will definitely be helpful for students in carving out a new area for the career prospects.

Outcome of the workshop: The students learned about the use of digital marketing as a tool to promote products and the job perspectives in the same.

Workshop on QuestionPro

Date: 8th March 2017

Venue: CIT lab A

No. of Participants: 35

Objective of the workshop: To teach students how to create their first online survey, along with formulating survey design and questions framing

The Department of HRM & IB organized a one hour workshop on Question Pro” on 8th March 2017 at CIT lab A. Mr. Chetan Manudhane from Question pro initiated the session. In this session he enlightened the students about Question pro. Question pro is the leader in online survey, polls and questionnaire.

Mr. Chetan provided taught students how to create their first online survey, formulating survey design, questions framing. Students were made aware about the features and benefits of Question pro such as Standard Question type, Survey templates and Question literary, Blog or QR codes, respondents tracking & statistics , social network integration, Polls, global password protection, personalised email invitation(mail merge) ,live chat with experts, downloadable reports, iPad Question pro app, multimedia support (image,audio,video,flash) and many more techniques. Question pro is beneficial for the MBA students for preparing their seminar reports.

The entire session was very informative and productive.

Outcome of the workshop: The workshop increased the basic understanding of students about how to collect primary data by using QuestionPro.

International Conference on “New Paradigms in Financial Sector: Challenges and Opportunities”

Date: 10th-11th Feb 2017

Venue: ISIM Auditorium

No. of Participants: 230

Financial Sector of a country plays a vital role in the development of an Economy. An efficient financial system not only facilitates optimum allocation of resources but also ensures reasonable availability of funds to achieve adequate economic progress. With the object to analyze the new paradigms in financial sector, the department of Accounting and Taxation of The IIS University organized a two day International Conference on 10 and 11 of February, 2017 at International School of Informatics and Management, Jaipur

The conference aimed to bring together managers, academicians, researchers and faculty members to share experiences about transformation in the field of finance. The conference received an overwhelming response from around 230 participants from all over the country. The conference commenced with an inaugural ceremony organized at ISIM Auditorium on 10th February, 2017 at 10.30 am. . The chief guest on the occasion was Shri Rajpal Singh Shekhawat, Honourable Industry Minister, Govt. Of Rajasthan. The inaugural session was followed by a few words by The Guest of Honour, Mr Mayank Goyal, Finance Officer, World Bank, Washiton D.C., United states, wherein Mr. Goyal discussed establishment of World Bank, its history, functioning and role of World Bank in the global economy. The Inagural session was followed by four technical sessions spread over two days and chaired by luminaries in the field of Finance.

One day Workshop on Virtual Demonstration of Animal Dissection using Software

Date: 10th February 2017

Venue: Department of Zoology,

No. of Participants: 50

Objective of the workshop: Objective of this workshop was to create awareness and sensitization for animal suffering and death and provide alternatives to dissection.

Recently the practice of dissection has come under increasingly critical scrutiny by UGC and educators are concerned about the sacrifice of animals for teaching purposes. Laboratory-based activities', including dissection, is to be replaced in a phased manner with the acquisition of appropriate technology. Keeping this as an objective this workshop was organized to create awareness and sensitization for animal suffering and death, it is important for teachers to be informed of alternatives to dissection and to employ them appropriately. Eminent speaker Prof. K.K. Sharma (Former VC, MDS University, Ajmer) delivered a guest lecture on alternatives available to minimize mass dissection of animals in the curriculum of higher education. Additionally, there was an onscreen demonstration of virtual softwares for the faculty members and students.

Outcome of the workshop: Students and faculty learnt about alternatives (virtual dissection) for Laboratory-based activities', including dissection.

Workshop on “PROQUEST” Database

Date: 1st February, 2017

No. of Participants: 35

Objective of the workshop: The objective of the workshop was to elaborate the usage and benefits of using Proquest database.

A workshop on Proquest database was organized by the Department of Management: HRM & IB on 1st February 2017. The workshop was conducted by Mr. Sanjay Rajan (Training and Consultant Partner Asia Pacific, ProQuest) who gave the presentation to elaborate the usage and benefits of using Proquest database. He explained that this online database is committed towards empowering researchers and librarians around the world. Its innovative information content and technologies increase the productivity of students, scholars, professionals and the libraries that serve them. For academic, corporate, government, school and public libraries, as well as professional researchers, it provides services that enable strategic acquisition, management and discovery of information collections.

In his presentation, Mr. Rajan showed the way to use this online database. Proquest is not only effective in completion of project reports but also is a platform that provides information regarding the latest jobs which makes it useful for the present as well as future context for its users. This database supports the facility of providing data through various books, magazines, journals and also provides an opportunity to the scholars to get their reports published and earn. The workshop contributed to an understanding for using the Proquest database.

National Seminar Women's Employment, Entrepreneurship and Empowerment: Sustainable Pathways to Egalitarian Society

Date: 30th-31st January, 2017

Venue: ISIM Auditorium

No. of Participants: 163

A National Seminar on 'Women's Employment, Entrepreneurship and Empowerment: Sustainable Pathways to Egalitarian Society', sponsored by ICSSR, New Delhi, was organized by The Centre for Research, Innovation and Training (CRIT), The IIS University, Jaipur, on 30-31 January. The seminar was organized with the following objectives:

- To discuss the government policies and societal efforts to promote women entrepreneurship and employment.
- To explore the new avenues of employment of women in service sector.
- To explore sustainable pathways for development of egalitarian society.
- To address the social and economic issues pertaining to women empowerment.

The two –day seminar comprised of the inaugural session, five technical sessions and the valedictory session. The first and fourth technical sessions were panel discussion and the other three technical sessions comprised of expert talks followed by paper presentations. The seminar was attended by one hundred and sixty three participants from different states of the country like Haryana, Punjab, Tamil Nadu, Andhra Pradesh, Kerela, Maharashtra, Uttar Pradesh. Madhya Pradesh, Delhi, West Bengal, Jharkhand and Rajasthan . In all eighty four papers were received from different parts of the country.

The inaugural session of the seminar began with lamp lighting and Saraswati Vandana followed by the welcome address of the Hon'ble Vice-Chancellor of the University, Dr. Ashok Gupta. Dr. Subhash Garg, Dean & Director, Centre for Research, Innovation and Training, The IIS University, Jaipur highlighted the aims and objectives of the seminar. Prof. Arvind Kumar, President, Indian Commerce Association from University of Lucknow was the Guest of Honour. The inaugural address was delivered by Prof. Sukhadeo Thorat, Chairperson, Indian Council of Social Science Research, New Delhi. The seminar proceedings of the ICSSR, New Delhi sponsored seminar on Women Empowerment and Inclusive Growth organized by The Centre for Research. Innovation and Training, The IIS University, Jaipur on 13-14 March, 2015 and the

souvenir of the seminar were released by Prof. Sukhadeo Thorat and Prof. Arvind Kumar. Dr. Arti Sharma, The IIS University, Jaipur delivered the vote of thanks.

Technical Session I

The first session was panel discussion on the subtheme, 'Policies of Women's Employment and Entrepreneurship'. The chairperson of the session was Prof. Arvind Kumar, University of Lucknow, Lucknow. The panel experts were Prof. B. P. Singh, Delhi School of Professional Studies and Research, New Delhi, Dr. Anita Hada Sangwan, Talk Show Host, Zee News, Rajasthan and Dr. Manjula Jagatramaka, Director, Vaitarna, Mumbai. The session was co-ordinated by Dr. Radhika Sharma, The IIS University, Jaipur.

Technical Session II

The second technical session was paper presentation session on 'Gender Disparities in Service Sector.' This chairperson of the session was Prof. Ramchandran Gowda, University of Bangalore, Bengaluru. The invited speakers were Prof. Nisha Yadav, The IIS University, Jaipur and Dr. Balwinder Singh, Gurunanak Dev University, Amritsar. The session was co-ordinated by Dr. Shweta Kastiya, The IIS University, Jaipur.

Technical Session III

This session was Paper presentation session on 'Linkage between Education, Employment and Entrepreneurship.' This session was chaired by Prof. Ravindra Vinayak, Dean, Academic Affairs, M.D University, Rohtak. Prof. Sanket Viz, BPS Mahila Viswa Vidyalaya, Sonapat and Prof. Kavaldeep Dixit, International School of Informatics and Management, Jaipur were the invited speakers in this session. The session was coordinated by Dr. R.K.Tailor, The IIS University, Jaipur. The papers presented in this session covered a wide range of topics like understanding entrepreneurship in BRIC countries with economic indicators, empowered women –scaling new heights through micro finance, facts and realities of women empowerment, educated women and labour force participation, a study of relationship between emotional intelligence and stress level among working women, need of guidance and counseling in women empowerment, opportunities for rural women in agribusiness etc. Overall it was a very educative and learning experience for the delegates and the participants shared their views on various aspects of women empowerment

Technical Session IV

The second day of the seminar began with the Technical Session IV. This session was Panel Discussion on 'Public and Private Sector Initiatives for Empowerment of Women: Sustainable Pathways to Egalitarian Society'. The chairperson of the session was Prof. M.K.Singh, Vinoba Bhave University, Hazaribagh. The panel experts were Ms. Nisha Jain Grover, Founder Director, Vatsalya Legacy, Jaipur, Prof. Manju Nair, International School of Informatics and Management, Jaipur and Ms. Chanda Asani, Co-ordinator, Centre for Women Studies, The IIS University, Jaipur. The session was coordinated by Dr. Chandrani Sen, The IIS University, Jaipur.

Technical Session V

This session was Paper Presentation session on the sub-theme 'Women Empowerment: Opportunities and Challenges'. The session was chaired by Prof. N.K. Garg, MDS University, Rohtak. Prof. Promila Batra, Department of Psychology & Dean, Faculty of Social Sciences, MDS University, Rohtak and Prof. Roopa Mathur, Department of Psychology & Dean, Academics, The IIS University, Jaipur were the invited speakers. The session was coordinated by Dr. Vandana Sachdeva, The IIS University, Jaipur. The papers presented in this session covered various dimensions of women empowerment like role of women empowerment in sustainable development, a study of education policies and initiatives related to girl child, women empowerment in Indian banking sector, the role of community radio in empowering women in India, empowerment and quality of life, empowering women through digitalization etc.

The seminar ended with the valedictory session. Dr. Chandrani Sen, The IIS University, Jaipur gave the welcome note and Dr. Radhika Sharma, The IIS University, Jaipur presented the seminar report. Prof. Balwinder Singh, Guru Nanak Dev University, Amritsar was the Guest of Honour. The valedictory address was delivered by Prof. B.P. Singh, Delhi School of Professional Studies and Research, New Delhi. The vote of thanks was given by Dr. Shweta Kastiya, The IIS University, Jaipur.

Outcome of the Seminar:

The seminar proved to be an enriching mix of experiences, perspectives and research. The discussions and presentations at the seminar provided a firm basis for identifying strategies related to empowerment of women. Overall the participants generally agreed that multiple roles of women with very little societal and institutional support prevent their upward mobility in employment and entrepreneurship and suggested the following strategies for future action:

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

- There is a need to build synergetic networks to be developed among researchers, academicians and voluntary organizations in order to ensure sharing of knowledge and capacity building.
- The government as well as nongovernmental organizations should take concrete steps to improve women's access to public schemes.
- The measures for empowerment of women should be accelerated with active participation of print and electronic media.
- Establishment of support systems for reproductive and domestic roles of women with work, which lead to temporary or permanent halt of employment.
- Entrepreneur friendly gender inclusive ecosystem is required.
- Enterpreneurship Development Cells should be established in higher education institutes to provide training in entrepreneurial activities and sustainability of business.
- Organizations should develop specific career paths for women which permit breaks for reproductive roles and child care.
- Adoption of positive educational reforms which contribute to achievement of equality between girls and boys.

Workshop on Cognitive Behavioural Therapy

Date: 23rd to 25th January 2017

Venue: Ojas Hall

No. of Participants: 28

The Department of psychology organized a 3 day basic workshop on Cognitive behaviour therapy (CBT) for P.G students from 23rd to 25th Jan 2017. The first day of the three day CBT Workshop began by first welcoming the resource person Mr. Rohan Pande, Psychotherapist and Trainer at Rationally Yours, Pune, Maharashtra and the organizers Dr. Deepika Shekhawat and Ms. Sejal Presswala. The session began with an activity where each student had to introduce themselves. The concept of neuropath ways and neuroplasciticity was discussed in order to reinforce the idea that as thinking forms habit one can change their habits by rewiring the brain in a different manner. The session also included theory of CBT (history, philosophy and principles), the basics of thoughts, feelings and behaviour. The members were explained the actual cause of NAT (negative automatic thoughts) with suitable examples, activities and role plays. Students were also taught various mental distortions and the techniques used to break each one of them. The students got a better understanding of negative automatic thoughts and also learned techniques to break them.

Workshop on Amateur Radio: Advance Digital Communication Network

Date: 20th January 2017

Venue: Seminar Room

No. of Participants: 30

Objective of the workshop: To make students aware about the working of Amateur radio and its importance.

Department of Journalism and Mass Communication organized a one day workshop on "Amateur radio: Advance Digital Communication Network". The resource persons for the workshop were Dr. Garima Srivastava, Associate Professor, and Dr. Ruchi Goswami, Associate Professor, department of Journalism and Mass Communication, The IIS University, Jaipur. They explained the working of the amateur radio also known as HAM radio. HAM radio is the perfect tool to use at the time of crisis like floods, war etc. It is a popular service now days which combines electronics and communication together. HAM radio can be set up at home or anywhere in the fields. Over the years, amateur radio operators have also provided emergency communications during forest fires, floods, hurricanes, and other disasters. They serve as an important link between stricken communities and the outside world until normal communications are reestablished. They further mentioned about how to become a radio ham, we must pass an examination. Amateur radio operation is fun, but ham radio can provide communication during states of emergency. In times of crisis and natural disasters, Amateur radio operators have played a vital role during disasters and national emergencies such as earthquakes, tsunamis, cyclones, floods, and bomb blasts, by providing voluntary emergency communications in the affected areas. Amateur radio operators are known as technical innovators, and have been responsible for important discoveries.. It was not long before ham radio operators discovered the truth, and were communicating on a worldwide scale using low-power transmitters. Thus the shortwave radio era began. The Amateur Radio Society of India (ARSI) is a non-profit public service organization, and is recognized national association for amateur radio operators in India and Represents Indian amateur radio interests in various international forums.

Outcome of the workshop: The workshop proved fruitful for the students as students learned the importance of amateur radio. As the department of JMC have its own HAM Radio setup it gives students to practically learn the functioning of the same.

5th Entrepreneurship Bazaar (E-Bazaar) on Campus

Date: 10th-11th January 2017

Venue: IISU Lawns

No. of Participants: 89

Objective of the activity: To provide a forum for entrepreneurship to the students from different departments and to build up an entrepreneurial ecosystem on campus.

Campus bazaars promote a sense of confidence among students. Keeping this notion in mind the 5th Bazaar on campus was organised by chrysalis, the e-cell of the IIS University on 10-11 January 2017. Shri K.G. Suresh, Director General, IIMC, New Delhi and Dr. Mukesh Kumar, Sr. Journalist, Anchor and Writer, New Delhi inaugurated the same. In all twenty business ideas were represented by various departments of the university. The idea behind organizing this event was to give a push to the upcoming business minds. Mr. Mudit Dudhuria CEO, Young Attitude Group, and Mr. Sagar, Co-Founder, Hippo cabs, judged the business ideas. The ideas were evaluated under the categories like Most Innovative Business Concept, Best Decorated Stall, Star Udhyami. Awards were bagged by Department of Physics, English, Accounting and Taxation, Fashion and Textile Technology, Department of HRM and IB. The award for Star Udhyami was taken by the Department of HRM and IB.

Outcome of the activity: Participants gained confidence while displaying their business models. The feedback and inputs given by judges were taken in a right spirit to improvise upon their business plans. Students got an opportunity to execute their Business Plan on campus as Campus Company, thereby giving them practical experience of challenges which a startup may face in the commercial market.

Workshop for Budding Entrepreneurs

Date: 4th-5th January 2017

Venue: A.V. Hall

No. of Participants: 50

Objective of the workshop: To train the student participants for the upcoming bazaar on campus. To refine their business plans which they will be displaying in bazaar on campus and to promote entrepreneurial ecosystem on campus

Chrysalis, the e-cell of the IIS University organized a two day Workshop for Budding Entrepreneurs during 4-5 Jan 2017. Around 50 students from different departments of the University attended the workshop. The resource person for the workshop was Mr. Mudit Dudhuria, CEO, Young Attitude Group. He acquainted students with benefits of becoming an entrepreneur. He also highlighted the risks associated with entrepreneurship. He motivated the students for becoming an entrepreneur, raising funds etc.

Outcome of the workshop: Students got to know about the importance of ideation. Students also got an insight into what a sustainable entrepreneurial venture is. The workshop helped students to prepare their business model for the upcoming bazaar on campus.

Seven day workshop on Advanced Techniques in Biological Sciences

Date: 6th-12th December 2016

No. of Participants: 26

The Centre for Research, Innovation and Training (CRIT) of the IIS University successfully organized a “Seven day workshop on Advanced Techniques in Biological Sciences” from 6 December to 12 December 2016 for post graduate students, research scholars and faculty members of Biosciences. 26 participants attended the workshop, including students and faculty member from Jaipur and outside.

Each day there was three sessions in the workshop. The inaugural lecture was delivered by Dr. Biswarup Basu Assistant Professor, Amity University Noida. His talk was on the elementary knowledge of animal cell culture, he enlightened the participants about the protocols necessary for cell culture technique. In the second session he imparted hands on training how to revive cells for cell culture, followed by the sub culturing technique in the next session.

Day 2 of the workshop started with the cell proliferation technique, its visualization and analysis. Next session the participants performed the MTT assay which was followed by result interpretation in the last session.

Day 3 of the workshop started with the lecture of Dr. Sobha Bhargava, Professor Department of Zoology, from SavitriBhai Phoolle Pune University. Her lecture was on various histological preparation and immuno-histochemistry. She shared her research experience and the do's and don'ts in histology. In the next session she imparted hands on training on the tissue processing of immune-histological sections.

Day 4 the participants continued the processing of immuno-histological sections, followed by histochemical section preparation and the result analysis. She also provided hands on training how to perfect the processing of histological tissue preparations.

Day 5 started with the lecture of Dr. Vivekananda of Malviya National Institute of Technology Jaipur. He talked on the generation of bioenergy and the production of biogas. It was followed by demonstration of measurement of biogas in the laboratory.

Day 6 of the workshop was started with the lecture of Dr. Nidhi Gupta, she delivered lecture on plasmid DNA isolation technique, PCR and Agarose gel electrophoresis. It was followed by

National Workshop on Research Methodology

Date: 24th-30th November 2016

No. of Participants: 51

The Centre for Research, Innovation and Training (CRIT) of the IIS University, Jaipur organized a “Seven-Day National Workshop on Research Methodology” from 24 November to 30 November 2016 for research scholars and young faculty members in the IISU Campus. The workshop was inaugurated by Dr. Ashok Gupta, Vice Chancellor, the IIS University. The workshop was organised keeping in mind the need of the hour to improve the quality of teaching and learning process. The workshop commenced with an introductory remark of the basic purpose of the Workshop by Dr. Subhash Garg, Dean & Director, CRIT. The core objective of the workshop was to equip the research scholars with set of skills and potentiality to undertake the research very effectively in the disciplines of Commerce, Management and Social Sciences.

The workshop was designed to achieve the following objectives:

- To make the participants familiar with the basic concepts of Research Methodology.
- To familiarize the participants with the basics of data handling and analysis.
- To give hands on experience in Primary research to the participants through the practical work assigned to them.
- To enable the participants to develop research plan proposal.
- To enable the participants to develop quantitative and qualitative research skills.

The workshop brought together over 51 participants from different universities. The workshop focused on both qualitative and quantitative aspects of research. The workshop provided an interactive atmosphere between the resource persons and the participants. The workshop focused on helping participants to understand basics of research methodology with special emphasis on writing a research proposal. The workshop was handled by a team of eminent resource persons from the respective field. Some of the notable speakers were Dr. Balwinder Singh, Guru Nanak Dev University, Amritsar, Prof. Balkishan, Himachal Pradesh University, Shimla, Dr. Ramesh C Gaur, Jawaharlal Nehru University (JNU), New Delhi, Dr. Neeraj Kaushik, NIT, Kurkshetra, Dr. Sanket Vij, B.P.S. Mahila Vishwavidyalaya, Sonapat and Dr. Satish Kumar, MNIT, Jaipur. Dr. Poonam Madan was the convener of the workshop and Dr. Bhawana Arya, Dr. Payal Mehtani, Dr. Mani Bhatia and Dr. R. K. Taylor were the co-convenors of the

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

workshop. Most of the participants who attended the workshop were Research Scholars and Faculty Members.

The detailed report of the workshop is as follows:

Day 1

The first session of the workshop was conducted by Prof. Rashmi Jain, Vice Principal, University Maharani College, Jaipur who introduced the participants to the basic aspects of qualitative research, with a purpose of building a strong foundation within aspiring researchers. In her session, she discussed Grounded theory as a qualitative research approach. She talked about Ethnography as an extremely broad area with a great variety of practitioners and methods. However, the most common ethnographic approach is participant observation as a part of field research. She explained about ethno-methodology and stressed that interpretative understanding of the society is essential in order to draw generalizations. She concluded her lecture by highlighting the importance of qualitative research. This was followed by an interactive session which proved to be enriching for all the participants.

The Resource person of the second session was Prof. Nisha Yadav, Controller of the Examination, The IIS University, Jaipur. She elaborated the philosophy of qualitative research and reflected on its various aspects. She also discussed the various methods of analysing and interpreting qualitative data. Major qualitative approaches were also introduced to the participants. She explained Critical Research as the notion which includes self-critique, a critical posture vis-a-vis qualitative inquiry itself.

The resource person for the technical session III&IV of Day I was Dr. Satish Kumar, MNIT, Jaipur. The discussion topic for his session was handling the Literature Review which is one of the most vital parts of the research endeavour. The steps to be followed for developing the Review of Literature in a structured fashion were discussed. He suggested that the researchers should read the book "Research Design" by Jennifer Walker to brush up their knowledge. He explained the uses of Mendeley as a free reference manager, data manager for citation for academic and social network. He threw light on online bibliographic programmes. He also addressed several issues related to writing quality research papers. He explained about end notes and foot notes. He gave information about the requirements of a good article emphasized on its originality. He stated that researchers should make efforts to publish their articles only in peer

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

reviewed and indexed journals. He explained about the steps of framing of paper and process of review of papers.

Day 2

Dr. Neeraj Kaushik, who is a renowned expert in the field of research methodology, was the resource person for the day. Dr. Neeraj Kaushik is currently working as Associate Professor in Department of Business Administration, National Institute of Technology, Kurukshetra. He explained about Exploratory, Descriptive and Experimental research. He discussed about internet sources for collection of data. In the subsequent sessions he dealt with basic statistics, importance of statistical enquiries and their limitations, mean & median and elaborated on SPSS. He explained about measures of central tendency, measures of dispersion, moment & kurtosis and skewness.

In his second session, he discussed about questionnaire building and formation of Research Questions. He dealt at length with questionnaire framing and types of questions. He focused on questionnaire designing. Types of questions to be included, avoidance of overlapping categories, reliability and validity of the questionnaire were discussed. Various issues related types of question sequence of questions were addressed during this session.

Day 3

Dr. Neeraj Kaushik took a session on identifying variables for research. He discussed the concept of Independent, Dependent, Extraneous, Mediating and Moderating Variables Controlling Extraneous Variables. He discussed the concepts in Hypothesis Testing, Null and Research Hypothesis, Statistical Significance and confidence Intervals, Inferential Errors

He took a session on Identification of Statistical Tools for Data Analysis and gave brief introduction to the participants on various topics like Scales of Measurement, Sampling Theory, Probability and Non Probability Sampling. He stressed that sampling which otherwise is often mistaken for an easy task actually demands utmost care and sincerity. He expounded on universe, population and sampling. He discussed about the types of probability sampling with the help of examples. Detailed discussion was carried out on simple random sampling, stratified sampling, convenience sampling and snowball sampling. He stated that generally the social science and management researchers work on 5% confidence level. He also explained about sample size criteria, level of precision and degree of variability.

DR. NEERAJ KAUSHIK
GURUKUL MARG, GPO, GANESHWAR,
JALPUR-302020 (Raj.) INDIA

In his post lunch session on Formulating Hypotheses, he discussed about role and sources of hypothesis, and explained about null and alternate Hypothesis. He emphasized the acceptance and rejections of hypothesis are research outcomes. Dr. Neeraj Kaushik also conducted practice sessions on Research Questions and Hypothesis Framing.

Day 4

The resource person for the day was Dr. Balwinder Saini, Guru Nanak Dev University, Amritsar. The session provided an overview of the data sources available to researchers and demonstrated how different types of data can be incorporated into research. Particular attention was paid to how primary data can produce high quality research output. The basics of SPSS and data entry were dealt in the session on Data preparation- Coding & Tabulation, Basic Data Cleanings in SPSS followed by Descriptive statistics & Cross-tabulation. He explained about Data Entry & Data Cleaning and outlier data. He stressed that data duplication should be avoided since it can be identified by SPSS. He explained the process of data selection in SPSS. He discussed about parametric and non-parametric tests. Chi Square test of independence, chi-square test of goodness, spearman's correlation, phi- test, split file and weighed cases. He explained the steps of these tests with the help of examples. He apprised the participants about the software, the Sigma Plot, which can help us to decide the application of the type of tests. He also gave information about E-Views for regression. He also gave information about ETD, ETHOS and Australian Digital Thesis Programme for downloading thesis on various topics. He emphasized that curiosity is the basic need for learning any software. Students were guided how to perform statistical analysis, data & text mining, predictive modelling and decision optimization. They were also informed about important software available as ready-reckoner for smoothness in their various research analyses. The participants were also given practice of the same.

Day 5

The expert of the session was Prof. Balkishan, Himachal Pradesh University, Shimla. In his session on Hypothesis Testing, Interpretation and Results, he deliberated that since every research has future concerns, so think wisely and make hypothesis near to reality. He drew special attention on regression. He gave clarification about how Regression Analysis is different from Correlation Analysis. Dr. Balkishan carried further the discussion of quantitative analysis by talking on Correlation Analysis with SPSS. He said that one has to take utmost care in making

REGISTRAR
HIS (DEVELOPMENT) UNIVERSITY
Gurukul Marg, GFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

correlation between two variables. It should be logical He mentioned that sampling should be carried out carefully otherwise the conclusion will be misleading. He explained concepts with hands on practice of writing Results from SPSS. He explained about the application of bivariate correlation, partial correlation, pearson's coefficient, spearman's rank correlation and Kendall Tau. He elaborated on one sample t-test, independent sample t-test, paired t- test and ANOVA.

Day 6

Dr. Bhawana Arya took a session on Research Design and designing an effective survey. She elaborated on various types of research designs. She explained about descriptive and exploratory designs with the help of examples. She threw light on various aspects of research methodology. He detailed the participants about various statistical tools used in the research process. He laid emphasis on effective research design for quality research. She gave insights on how to design effective survey for research.

The post lunch session was delivered by Prof. R.C. Gaur, Jawaharlal Nehru University (JNU), on issues surrounding plagiarism. He familiarized the participants with the use of anti-plagiarism tools in research. He enlightened the participants with the technical terms like H-index, citation and impact factor. He explained that an annotated bibliography is a list of citations to books, articles, and documents and follows the appropriate style format for the discipline, i.e., MLA, APA, Chicago Manual of Style, etc. He explained that creating an annotated bibliography calls for the application of a variety of intellectual skills: concise exposition, succinct analysis, and informed library research. He explained the uses of citation builder and discussed the meaning and seriousness of plagiarism. He discussed and demonstrated how to create bibliography using zotero from various sources and different formats of bibliography. At the same time he stressed on the importance of references and various styles prevalent for the Reference Management.

Day 7

The sessions on the last day were conducted by Dr. Sanket Vij, B.P.S. Mahila Vishwavidyalaya, Sonapat. In his session on Writing and Presenting Research Proposal, he introduced basic principles of writing proposals across a range of disciplines. He explained the various formats of research proposals and explained in depth for all the components of Research Proposal. Dr. Vij introduced the practical rhetorical and grammatical principles of writing effective proposals to the participants of the workshop. He informed the participants that proposal should include a working bibliography of key texts that inform about their study and methodology.

REGISTERED
NIS (DEEMED TO BE UNIVERSITY)
Gurukul Mang. CPE, Anandpur,
Jalpur-302020 (Raj.) INDIA

Researcher should include all sources cited in his or her proposal. Session presented practical strategies, and it included examples of successful proposals. The session helped the participants to understand the rhetorical situation of the thesis proposal and common elements of such proposals. H explained the intricacies of research progress. He stressed that knowledge of applied statistics and IT tools was must for good research work. He explained the use of SPSS software package. This was followed by interactive session which proved to be enriching for all the participants.

The workshop ended with the valedictory session wherein participants were provided with the certificates of participation.

Workshop: Cross-Cultural Exposure to German Language and Literature (Part I)

Date: 14th and 15th October, 2016

Venue: A.V. Hall

No. of Participants: 71

Objective of the workshop: To let the Students come to know as how to optimize their learning and make appropriate applications of their knowledge.

The German Department of IIS University hosted a two days interactive session with Professor Dr. V. Ganeshan on 14th and 15th October, 2016. The programme was well attended by the students, as they participated in different sessions very enthusiastically. At the start of the programme, the honourable Guest Speaker was welcomed by Ms. Prachi Goswami, the head of the department with floral greetings. The session on the first day began with the introduction of the chief guest and briefing of details of the two days session. The first session began with a lecture on “Intercultural Interaction between Indians and Germans” and thereafter question-answer session on the same.

The second session of the day a lecture was held on a very interesting topic “the Art of Public Speaking and How to face Job Interviews”. Once again after the lecture a question-answer session was also held where students could satiate themselves with very profound answers to various nagging questions about this relevant topic.

Second day’s first session consisted of a workshop on a very favourite topic and an important component of German Language Learning i.e. “Singend Deutsch Lernen” and “Deutsche Volkslieder” which again had lot of students as participants. In this melodious and amazing workshop the students could get to know in detail about Reading, Understanding and Singing of German Folk Songs. In the second session of the day the students came up with their reaction and comments of the two days’ intellectual fiesta with Prof. V. Ganeshan. Pari Goswami, Richa Pareek, Mansi Maheswari, Jyoti Sharma and Kavya Makhija were the part of this experience sharing. Mansi Maheswari and Jyoti Sharma read the thanksgiving note in the end.

Latex Workshop

Date: 13th October-15th October 2016

Venue: Lab A, ISIM Campus

No. of Participants: 41

Objective of the workshop: To train the students for using Latex for typing their Research articles and Dissertation.

The Department of Mathematics organized 3 Days workshop on Latex for PG students. For this workshop three resource persons were invited namely Dr. Ritu Agrawal, MNIT, Jaipur, Dr. Pravin Garg, University of Rajasthan, Jaipur and Dr. Harsh Vardhan Harsh, Amity University, Jaipur. LaTeX is a document preparation system for high-quality typesetting. It is most often used for medium-to-large technical or scientific documents but it can be used for almost any form of publishing. It is a free software package created in 1985 by the American computer scientist Leslie Lamport as an addition to the TeX typesetting system. LaTeX was created to make it easier to produce general-purpose books, articles and many more. Unlike a typical “what you see is what you get” word processor such as Microsoft Word, LaTeX uses a plain text markup language which is compiled into a PDF document using optimal typographical rules. This results in professional-looking documents that are of a different class to the output from a word processor. The numerous customisation options in LaTeX allow for the creation of a diversity of documents with precise control over layout and formatting.

Outcome of the workshop: Students learnt the tool very well and hope will use in writing their seminars, dissertation etc.

Panel Discussion on Goods & Service Tax

Date: 5th October, 2016

Venue: A.V hall

No. of Participants: 80

Objective of the activity: Introducing the concept of GST and its impact on Indian economy.

CA Yash Dhadda is a fellow member of The Institute of Chartered Accountants of India. He is associated with M/s Dhadda & Co as Senior Partner (Taxation). CA Jatin Harjai is a practising Chartered Accountant based out of Jaipur. He has expertise as a knowledgeable professional, advisor, & consultant in the field of financial consultancy and tax advisory. The discussion started with CA Jatin Harjai introducing the concept of GST. He discussed about Goods and services tax and its various types. He explained the various types of taxes in a very simple example of automobiles. He explained the various concepts like VAT, CST, Excise duty, Luxury Tax, Service Tax, Entertainment tax etc. He also told about the India's tax structure complications because of which investors leave investments in India. He thus emphasized on the importance and benefits of GST. He ended his discussion part with informing that GST is not tax to manufacture, sale, entry, admission, luxury or provision but tax on the supply of goods and services.

CA Yash Dadda conducted the second part of the discussion. He stressed at the point that, "Is GST really a single tax?" He basically informed about the disadvantages of GST. He told about why customs duty is called customs duty. He sarcastically said that it was in our tradition that people used to bring gifts for kings when they use to meet them so following that tradition we are also paying customs duty. He emphasized on one tax problem because of federalism in our country. He introduced the concept of uniform tax structure and polling of sovereignty of states at the center. He told about central GST, State GST, and integrated GST. He said that manufacturing states will have problem of GST as states purchasing will get GST not the states that are manufacturing. He also informed about the GST council, Union list, State list and Concurrent list. He ended his discussion part by talking about Intra-state supply and Inter-state supply and the respective taxes implied on these supplies.

The third speaker was CA Keshav Gupta who talked about impact of GST on various sectors. He told that to register for GST registration has to be done and he told about the threshold for registration. He also told the advantages and disadvantages of registration. He also talked about

HIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SPS, Mandstovar,
Jaipur-302020 (Raj.) INDIA

who is liable to pay GST - suppliers and recipient of goods and service and features of audit under GST - turnover based audit and special audit. Coming to the point of impact of GST he informed that there is no exemption on test i.e. the burden to pay taxes will increase for consumer durables and textile/garments. Presently no tax is imposed on education sector i.e. school and colleges are not taxed for the services provided but after GST taxes will be paid on inputs. In case of banking and financial sector after GST will be implied tax horizon will expand. Small enterprises will be more compliance to pay tax as threshold limit will be free. And for automobiles taxes will be reduced from 30-40% to 20-23%.

Outcome of the Activity: The takeaways of panel discussion were that tax evasion will not be there, inflation will be controlled, multiple taxation will be reduced, increase in employability, compliances to pay taxes will increase and last but not the least no cascading effect. The panel discussion ended with questions asked by students of both the department who enthusiastically cleared all their queries by the help of our chief guest. Thus, the discussion proved to be very informative and it was very helpful for all the students who attended the session.

Workshop on "Layout and Designing of Newspaper and Magazine

Date: 3rd-4th October 2016

No. of Participants: 80

Objective of the Workshop: The objective of workshop is to make students aware about Newspaper and magazine designing. The aim of the workshop is to make students acquaint with software like- photoshop, coral draw and quark express.

The Department of Journalism and Mass Communication organized a two-day workshop on "Layout and Designing of Newspaper and Magazine" on October 3-4, 2016 at Computer Lab, ISIM Campus. Designing Softwares Coral Draw, Photoshop and Quark Express was taught and practiced during the workshop. It was organized for the students of MA(JMC) sem I and BA(JMC) Sem III. The resource person for the workshop was Mr. Satyajeet Talukdar, Group Design Head, National Dunia. In the two-day workshop, students learned to design magazine on Coral Draw, picture editing on Adobe Photoshop and page designing on Quark Xpress. Last day, prints of the final pages designed by the students were taken and exhibited. It boosted the students' moral.

Outcome of the workshop: The workshop proved fruitful for the students as they learned about the various software like Photoshop, quark express and coral draw. The students also designed magazines and newspaper of their own.

Two Days Workshop on Free Hand Fabric Painting and Liquid Embroidery

Date: 16th-17th September 2016

No. of Participants: 27

A two days' workshop was organised on 16-09-2016 To 17-09- 2016 by the department of Home science in collaboration with Pidilite. Ms. Nidhi was the instructor for the workshop. Ms. Nidhi is a Freelance Designer and runs a design institute at Jaipur. The workshop was on Free hand fabric painting and liquid embroidery on fabric. On the first day students were taught free hand painting. The students made good efforts in learning the art. The students did execution and they prepared certain article like clutches, handkerchief, painting etc.

On the second day Liquid embroidery was demonstrated and worked by the students. Students of first and fifth semester were registered for the same. Embellishment on the stitched garments and foot wears including the hand bags were designed by the participants.

HR Conclave on “Startup India - Stand up India: Challenges and Opportunities”

Date: 15-16 September 2016

Venue: IIS Auditorium

No. of Participants: 400

Objective of the Conclave: To bridge the academia and industry gap.

The HR conclave on ‘Startup India-Standup India: Challenges and opportunities’ began in IIS Auditorium on Sept. 15, 2016 with the inaugural ceremony by Dr. Jyoti Kiran, Chairperson- State Finance Commission. The speakers of this session discussed topics like Urban Finance, Networking, Government policies and initiatives related to Startups. This inaugural was followed by the first invited lecture by Mr. Dilnawaz Khan who began his interactive session with the words “If nothing is wrong with you, then something is definitely wrong with you” and moved on to discuss relevant views like Skillset, Passion, Funding, Business model etc.

Mr. Paresh Gupta, CEO, Headstart Network, was the next invited speaker who made the students aware about few facts like India’s third position in start-up rating, subsidies provided by Government to Agriculture and Horticulture sector, Mulching Fund etc. Mr. Vishwas Shiringi, Co-founder of Voylla group, focussed on key areas such as Market Research, Investment, Workforce, Idea, Core Competency etc. Mr. Sagar Aggarwal, Founder of Hippo Cabs, started his session with his journey and struggles and enlightened the students with various areas of Entrepreneurship, Creativity, Innovation, Human Resource etc. Mr. Rahul Moondra, a young aspiring entrepreneur who is the Founder of Chaisa, Jaipur said that “Business is run by cash, entrepreneurs run it by passion”. He also said that convincing the customers is the biggest challenge but the students should take positively all the criticisms.

On the second day of the conclave, 16 September 2016, Ms. Priyanka Chugh, Founder- Ektaara clothing brand, began with her first lecture of the second day by sharing the struggles faced by her during her business. In her lecture, she focussed on key areas such as building social plans, importance of observing people, location of startup etc. Ms. Anisha Hajela, Co-Founder of Pathfinder Solutions engaged the audience in learning ‘Motivation behind the Startup’ wherein Start up is a “state of mind”.

IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Mr. Nitin Jain, Founder of Indibni, focussed on three I's i.e. India, Individuality, Innovation in his session and expressed his opinion about Entrepreneurship, Objectives of Startup, Team Support etc.

Mr. Shreyans kasliwal, Director of Kamal Auto Finance, had a brief discussion about various areas such as Micro Finance, Social angle of Business, Interpersonal Skills, FINTECH.

Mr. Satyam Mishra, Founder of Urban Dhobi, shared his views about opening his startup, Importance of team etc. The session ended with Question answer session where he was asked about his marketing strategies, funding etc.

The last but the most unique session of the day was headed by Mr. Vivek Kumar, Founder of Kshamtalya, was the most unique session of the conclave as it motivated the young entrepreneurs to initiate the change, to represent the modern era of personalized learning and to understand concepts like duplication of Idea, Gandhi Fellowship Journey etc.

After the two aspiring young entrepreneurs, Riya Khatri and Nidhi Singh, presented their highly applauded startup idea, the conclave came to a close after a formal Vote of Thanks by Ms Shivi Saxena, Placement Officer, The IIS University, Jaipur.

Seminar on Scientific Writing and Research Methodology”

Date: 10th September 2016

Venue: C-506

No. of Participants: 70

Objective of the seminar: The institutions of higher education in India are facing crucial challenge in creating, nurturing and maintaining the level of quality research. To operationalize this vision, there is need to train, reorient and reactivate the students on research methodology. The current workshop is an effort to enrich the students on research methodology.

The session started with the welcome of Dr. Neelima Gupta. She delivered lecture covering the various aspects of research methodology and scientific writing to incorporate the research acumen among the students. She stated that “if it is not published, it is not science.” Science is the collection of observations, their interpretation and applications, which is converted in different forms of communication. The important aspect of scientific writing is that we must remember about reader while writing i.e. if we are successful in delivering our point of work to the reader then it is a good writing. In a good article there should be a flow in scientific article. In scientific writing, the introduction must be interesting and this interest must be followed up to the conclusion. Every part of an article is important.

She categorized scientific publications in three types- Primary, Secondary, Tertiary publications and explained all the components. She also explained the procedure for the selection of an appropriate journal for submission of a manuscript, submission procedure and their editorial procedure. We can select a journal for paper submission on basis of their publishers, subject and impact factor. After submission the manuscript is reviewed by the reviewers associated with that journal. They check for the validity of approach, originality, significance of report finding, interest, timeliness to scientific community and clarity.

Further she explained the writing of a review article. The schematic layout for preparation of review article is-

1. Collection of data
2. Collection of related literature
3. Writing an outline
4. Writing first draft
5. Use of highly specific scientific language

MS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

6. Revision and re-writing

7. Proof reading word by word

At the end, she also emphasized the importance of copyright and plagiarism.

Outcome of the seminar: After the seminar the students were acquainted with the concept of Research and scientific articles. Research scholars were able to understand different steps to write a review article.

Workshop on Wash Technique

Date: 5th-10th September 2016

Venue: Department of Fine Arts

No. of Participants: 65 Students and 5 Faculty members

Objective of the workshop: To learn water colour technique developed in West Bengal during early 29th century in India which was brought by Abanindranath Tagore.

Wash painting is a special technique of painting. There are only few artists who are working in this diminishing art form. To make it live and to make students understand the technique a 6 day workshop was organised by Department of Visual Arts, The IIS University, Jaipur from 5th-10th September 2016.

There were 65 participants from Bachelors and Masters of Visual Arts (Painting & Applied) along with 5 faculty members. The resource person for the same was Mr. Rajendra Prasad, Associate professor, Dr. Shakuntala Misra National Rehabilitation University, Lucknow. He is well known for this technique and has attended many camps and workshops. Ms. Neelam Kumari from Lucknow assisted him for the same. Through this, students came to know about the whole process of the extinct art form. During these 6 days workshop students worked hard and created an individual piece of artwork in this technique. The workshop was a great success and eminent artists from Jaipur visited the same and appreciated the art works of students.

Outcome of the activity workshop: The student could learn this diminishing water colour technique with full enthusiasm. Later some students worked in this medium to complete their submissions.

Seminar on “Core Metrics in Software Engineering”

Date: 3rd September 2016

Venue: CIT Lab B

No. of Participants: 45

Objective of the Seminar: To acquaint the student about software metrics for quality assessment.

The Department of Computer Science and IT organized a Seminar on “Core Metrics in Software Engineering” led by Dr. K. P. Yadav, Director KCC Institute of Technology and Management, Greater Noida. In this interactive session the students were given a brief description of the following:

- Introduction to software metrics
- Significance of quality assessment in project life cycle
- Important metrics in project management
- Advantage of including core metrics in software development

At the conclusion of the session the query round was held in which the students got an opportunity to put forward questions to satisfy their curiosity. The overall session was enlightening and the students got exposure about metrics to ensure quality assessment. The session ended with thank you note by expressing gratitude to Prof. K.P. Yadav for taking out time from his busy schedule and making the students aware of quality metrics in software engineering.

Outcome of the seminar: The students learned about the significance of quality assessment in software engineering. They got to know about the various quality attributes and the respective metrics used to assess each of the attributes.

Workshop on Fashion Jewellery Making

Date: 1st-2nd September 2016

Venue: A-504 (Jewellery Lab)

No. of Participants: 53

Objective of the workshop/seminar/activity

1. To Impart the knowledge of associating scrap material with jewellery beading skills.
2. To increase the creativity among students.
3. To enable students awareness of importance of designing for sustainability

The department of Jewellery designing organized a fashion jewellery making workshop for jewellery designing students. During the workshop, students got the opportunity to learn all the phases of fashion jewellery making using shilpkar, beads, Hook, Findings, Gem Stones. The fashion jewellery making expert Mr. Satyajeet Bosschose to make the beautiful pieces like necklace, Rings, Pendants, Bangles and earrings etc according to their interest. In the beginning session, Dr. Neeru Jain, Head, Department of Jewellery designing introduced the students with the Fashion Jewellery Process, tools, Equipments and materials. In practical sessions, students were involved with the planning and practice of techniques, types, size and colour combination of the beads as well as beading designs. The students participated enthusiastically in the workshop and it was a informative and creative workshop which imbibe technical skills and knowledge amongst the students.

Outcome of the workshop: Students learned all the phases of fashion jewellery making using shilpkar, beads, Hook, Findings, Gem Stones. Students can commercialized this beading art and open new boundaries for job seekers. They can start their own business with small capital and can give employments to others.

Workshop: An Introduction to ChemDraw

Date: 30th August 2016

Venue: C-506

No. of Participants: 45

Objective of the workshop: The knowledge of ChemDraw, software to generate chemical structures is essential for the students to prepare chemical structures of organic and inorganic chemistry. They can present their work in an effective and proper manner with ChemDraw. With this aim we have planned to organize this workshop.

Dr. Neetu Khandelwal delivered a demo cum lecture on ChemDraw for B.Sc. (H), M.Sc. students and at the IIS University campus. She made the students familiar with the software ChemDraw. Dr. Neetu Khandelwal wonderfully simplified the use of ChemDraw software which helps the students to efficiently draw the simple 2-dimensional structures of organic molecules, chemical formulae and reaction schemes required for their seminar reports, publications and thesis. After the demonstration, the students drew some simple structures.

Outcome of the workshop: After the workshop the students were able to draw the structures of different organic molecules, do modifications in the structure as per requirement.

Workshop on Fashion Styling

Date: 29th August 2016

Venue: GPEM Lab

No. of Participants: 30

The department of Fashion & Textile Technology conducted a Workshop on 29th August 2016 by Ms. Shruti Mishra & Ms. Aparna, Fashion Stylist and Designer from Jaipur. The resource person introduced the students the importance of styling. She started the workshop with her personal experience of how she started her work and career as fashion stylist. During the workshop various activities were planned in which students were divided into groups, to create design sheets, accessories, and look book. The activities were:

Activity 1: Wear your style statement – interactive session occurred between Ms. Shruti and students where they discussed and understood the concept of styling and fashion.

Activity 2: Flat Styling – Sketches were prepared by the students on different themes like pop culture, bohemianism, street fashion, goth subculture, etc

Activity 3: Take Me shopping- students were asked to choose a client and style them in the budget of Rs. 5000/-

Activity 4: Group of students for fashion magazine created Photo shoot styling- look by blending traditional and contemporary styles to create unique style story.

Activity 5: Look Book- In this activity students were asked to create a look book for particular celebrity client of their choice which consist of Casual look and Party look.

Outcome of the workshop: The interactive session ended with students enquiring Ms. Shruti & Aparna about their future plans and discussed their design ideas.

Cake Decoration Activity

Date: 27th August, 2016

Venue: Room No C-305

No. of Participants: 70

The cake decoration activity was organized as a part of Home Management Guild activity by department of Home Science on 27th August, 2016. This activity was opened for all the university students and around seventy students eagerly participated in it. The activity started with the welcome speech which included a brief introduction of our expert, Ms. Pooja Gupta, who is our very own alumni and is also running her own outlet Temptation Premium Chocolates. She is an expert in making pure Belgium chocolates, desserts, soufflés, mousses, muffins, brownies, sponge cakes and puddings etc. She began the activity with an elaborate explanation of the two cake recipes namely black forest and eggless vanilla sponge cakes.

Workshop on Button Masala Techniques

Date: 8th August 2016

Venue: GPEM Lab

No. of Participants: 25

The Department of Fashion and Textile Technology conducted a Workshop on “Button Masala Technique” on 8th August 2016 . The resource person was Ms. Seema Chauhan, Lecturer in Ellen School of Art & Design, Jaipur. Ms. Seema Chauhan, an entrepreneur, running her own Boutique and Institute Fashion Paradise. This workshop was planned with aim to promote aesthetic sense towards draping and enhance the creative skills of the students. Ms. Seema Chauhan demonstrated a new technique of draping of ‘Button Masala’. She demonstrated the creation of a dress out of Buttons and Rubber Bands. She also demonstrated the design development by using mirrors. She explained the techniques to apply buttons on fabric. These technique can be use on ladies garments. It was a very interesting workshop, students got great learnings. Through this workshop young minds for creative thinking were stimulated. The interactive session ended with students enquiring Ms. Shruti & Aparna about their future plans and discussed their design ideas.

Workshop on WIEN2k software

Date: 25th July-28th July 2016

Venue: A.V. Hall

No. of Participants: 50

Objective of the workshop: To develop the skill of students to perform electronic structure calculations of solids by using WIEN2k software.

Dr. R.K. Sharma briefed the students about the development of WIEN code. He said that Wien is the first copyright version of the code based on a full potential LAPW code. He introduced WIEN2k which is a improve version in terms of speed, universality, user friendliness and new features. WIEN2k has features like iterative diagonalization, support for AFM and FSM calculations, wavefunction plotting etc. He demonstrated how WIEN2k can be used for different applications. The students found this demonstration very interesting and now they will be able to work on WIEN2k software.

Outcome of the workshop: Students will able to perform electronic structure calculations of solids by using WIEN2k software like LDA, GGA, meta-GGA (libxc interface), LDA+U and EECE, orbital polarization, Hybrid-DFT, centro- or non-centrosymmetric cells (mode), all 230 spacegroups built in spin-polarization (ferro- or antiferromagnetic structures), spin-orbit coupling, total energy, forces, equilibrium geometries, structure optimization, elastic constants, molecular dynamics, Phonons and fermi surfaces.

Two Week Workshop on Research Methodology

Date: 15th-28th June 2016

No. of Participants: 56

Research is a continuous process and requires progression to achieve meaningful results for the benefit of the society at large. Research Progression requires a logical and conceptual knowledge. To meet this challenge it is necessary to train and equip the faculty and research scholars so that they can comply with the quality standards of research in their respective disciplines. To address these issues a Two Week Workshop was organized by The Centre for Research, Innovation and Training, The IIS University, Jaipur. The workshop was designed to achieve the following objectives:

- To make the participants familiar with the basic concepts of research methodology.
- To impart skills in the integration of qualitative and quantitative research.
- To make the participants user friendly with the statistical softwares for data analysis.
- To develop the applied research skills of the participants

The workshop was attended by 56 participants. The workshop focused on both qualitative and quantitative aspects of research. The detailed report of the workshop is as follows:

Day 1

The resource person for the day was Dr. Satish Kumar, MNIT, Jaipur. The topic of First session was Research Methodology: Conceptual Frame work. He discussed about the basic idea of research. He stated that researchers should make efforts to publish their articles only in peer reviewed and indexed journals. He talked about various aspects of qualitative research and stressed that researchers should focus on validity, legitimacy and generalization. In the subsequent sessions he elaborated on review of literature. He suggested that the researchers should read the book “Research Design” by Jennifer Walker to brush up their knowledge.

Day 2

Dr Satish Kumar, MNIT, Jaipur was the resource person. He explained the uses of Mendeley as a free reference manager, data manager for citation for academic and social network. He threw light on online bibliographic programmes. He explained about end notes and foot notes. He also elaborated on various types of research designs. He explained about descriptive and exploratory designs with the help of examples.

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

He gave information about the requirements of a good article. It should be original and should contribute to the existing body of literature. He explained about the steps of framing of paper and process of review of papers

Day 3

The sessions were taken by Prof. Sanket Vij, Bhagat Phool Singh Mahila Viswavidyalaya, Khanpur Kalan, Sonapat . The topic for the first session was Plagiarism. He explained the uses of citation builder and discussed the meaning and seriousness of plagiarism. The basics of SPSS and data entry were dealt with in the subsequent sessions. The last session was practice session.

Day 4

The sessions for the day were taken by Prof. Sanket Vij. He discussed about questionnaire building. He dealt at length with questionnaire framing and types of questions. He explained about data entry, data cleaning and outlier data. He stressed that data duplication should be avoided since it can be identified by SPSS. He explained the process of data selection in SPSS. The participants were also given practice of the same.

Day 5

The expert for the sessions was Prof. Sanket Vij. He discussed about formulation of hypothesis and explained about null and alternate hypothesis. He emphasized that acceptance and rejection of hypothesis are research outcomes. He explained about the parametric tests of hypothesis testing. He elaborated on one sample t-test, independent sample t-test, paired t-test and ANOVA. In the last session of the day he focused on questionnaire designing. Various issues related to types of question, sequence of questions were addressed during this session.

Day 6

Dr. Ashwini Kumar, J.K. Lakshmi Pat University, Jaipur was the resource person for the day. He explained about various methods of data collection like observation and case study method. He discussed about writing a case and points to be kept in mind while case study like asking probing questions, noting down the details, avoiding any kind of argument, not evaluating the information simultaneously. The last session was devoted to questionnaire designing. Types of questions to be included, avoidance of overlapping categories, reliability and validity of the questionnaire were discussed.

REGISTRAR
MS (OFFICE TO THE UNIVERSITY)
Gurukul Marg, SPS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Day 7

The resource person for the day was Dr. Balwinder Saini, Guru Nanak Dev University, Amritsar. He discussed about parametric and non-parametric tests. Chi Square test of independence, chi-square test of goodness, spearman's correlation, phi- test, split file and weighed cases. He explained the steps of these tests with the help of examples. He apprised the participants about the software, the Sigma Plot, which can help us to decide the application of the type of tests. He also gave information about E-Views for regression. He also gave information about ETD, ETHOS and Australian Digital Thesis Programme for downloading thesis on various topics. He emphasized that curiosity is the basic need for learning any software.

Day 8

Dr. Neeraj Kaushik, NIT, Kurukshetra was the resource person for the day. He explained about Exploratory, Descriptive and Experimental research. He discussed about internet sources for collection of data. In the subsequent sessions he dealt with basic statistics, importance of statistical enquiries and their limitations, mean & median and elaborated on SPSS. He explained about measures of central tendency, measures of dispersion, moment & kurtosis and skewness.

Day 9

The resource person was Dr. Neeraj Kaushik. He expounded on universe, population and sampling. He discussed about the types of probability sampling with the help of examples. Detailed discussion was carried out on simple random sampling, stratified sampling, convenience sampling and snowball sampling. He stated that generally the social science and management researchers work on 5% confidence level. He also explained about sample size criteria, level of precision and degree of variability.

Day 10

Dr. Girish Taneja, DAV University, Jalandhar was the resource person. The session was on measures of association. He also explained the concept of variance and covariance. He explained about application of bivariate correlation, partial correlation, pearson's coefficient, spearman's rank correlation and Kendall Tau. He explained bivariate regression with the help of a concept map. He also discussed assumptions of multiple regression. He discussed the concept of Heteroscedacity and multi co linearity. The participants were also given practice in multiple regression on SPSS.

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Day 11

The resource person for the sessions was Dr. Ajay Chauhan, IMT, Ghaziabad. Multi variate analysis was discussed in the first session. He explained about Exploratory factor analysis and Confirmatory Factor Analysis and Analytic Hierarchy Process. He also introduced the participants to AMOS commands for analyzing constructs. The AMOS Commands for EFA and CFA were also explained. The participants were given practice in model construction using AMOS.

Day 12

The sessions were taken by Dr. Ajay Chauhan. The sessions were on Structural Equation Modelling and Path Analysis. He stated that SEM is a widely used multivariate statistical method in the area of social science. It is used for analyzing cause and effect relationships among a set of constructs represented by multiple measurable variables in a single model. SEM uses the concepts of both regression analysis and exploratory factor analysis. The applications of SEM were explained with the help of examples. The AMOS commands of SEM were explained and the participants were given an exercise on SEM. The basics of conjoint analysis were also explained.

Day 13

The resource person for the session was Prof. Nisha Yadav, Department of Sociology, The IIS University, Jaipur. She delivered lecture on Philosophy of Social Research. She elaborated on ontology, epistemology, axiology and rhetoric. She explained about research paradigm. She stated that paradigm serves as a framework for guiding research. She also explained about Symbolic Interactionism and Critical Research. Positivist Paradigm and Interpretive Paradigm.

The resource person for the next session was Prof. Uma Joshi, Amity University, Jaipur. She gave her lecture on Qualitative Analysis: Content Analysis of Verbatim Expression (CAVE Technique). She discussed about behavior, event and interview. She also discussed about tests to measure competency. The next session was quiz session. The participants were given fifty questions based on the topics covered in the sessions.

Day 14

Prof. Vinay Srivastava, University of Delhi, New Delhi was the resource person for the day. He reflected on various aspects of qualitative research. He elaborated on the domains of research. He explained about Ethno-methodology and stressed that interpretative understanding of the

society is essential in order to draw generalizations. He also addressed several issues related to writing quality research papers. He concluded his lecture by highlighting the importance of qualitative research. This was followed by interactive session which proved to be enriching for all the participants.

We hope that the workshop was an intellectually stimulating experience for all and enhanced the knowledge of the participants.

7-Day Workshop on Research Methodology for Faculty of Arts & Social Science, Commerce & Management

Date: 4th April-10th April 2016

No. of Participants: 35

Logical and conceptual knowledge is a prerequisite of sound research. The aim of the 7-Day workshop on research methodology was to promote research acumen among young researchers in the faculties of Arts and Social Sciences and Commerce and Management. The Centre for Research, Innovation and Training, The IIS University, Jaipur with the following objectives organized from the workshop 4-10 April, 2016:

- To enable the participants to conduct effective qualitative and quantitative research.
- To familiarize the participants with the basics of data handling and analysis.
- To give hands on experience in research to the participants through the practical work assigned to them.
- To enable the participants to develop research plan proposal.
- To develop the applied research skills of the participants.

There were three sessions of one and a half hour each. The workshop was attended by 35 participants from various universities.

DAY I

The sessions on day one were devoted to Problem Identification & Review of Literature. The resource person for the sessions was Prof. N. K. Garg, Dept. of Commerce, MDS University Rohtak. Prof Garg enlightened the students on the basics of formulating a research problem and proper referencing. The students were exposed to several techniques of looking for research problems and giving citations to sources. The last session of the day was planned to give practice to the participants on the learning of the day.

DAY II

The second day of the workshop was planned to update the participants about research designs, experimental designs and measurement of scales. The first session of the day was taken by Prof.

REGISTRAR
MS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Ameeta Sharma, Dept. of Statistics, University of Rajasthan. Prof. Sharma taught the basics of research designs to the participants. Her lecture covered the important types of research designs such as experimental, correlational, case study, survey and longitudinal. During the second session of the day Dr. Bhawana Arya, Dept. of Psychology, The IIS University, Jaipur talked in detail about the designs in experimental research. The participants were made familiar with the different designs followed in experimental research and the strengths and limitations of each type of design. Since an effective designs ensures an effective research, the session delved into the importance of research designs. The third session of the day was taken by Prof. Nisha Yadav, Dept. of Sociology, The IIS University, Jaipur. Prof. Yadav apprised the students with the different types of scales and the procedure of their construction. The students learned the basics of scale construction.

DAY III

The third day of the workshop was dedicated to teaching the research scholars effective methods of conducting review of literature identify research gaps and arrive at a research problem. The resource person for all the three sessions was Dr. Satish Kumar, Dept. of Management, MNIT, Jaipur. Dr. Kumar demonstrated effective ways to extract data from online databases and identify valid research gaps which can be subsequently taken up as research questions. He also did a lot of exercises with the participants to ensure maximum learning. The last session of the day was a practice session for participants, supervised by Dr. Kumar. The students tried to identify gaps and write research questions.

DAY IV

Day five was scheduled for variable selection and hypothesis formulation. Dr. Ashwini Kumar, Dept. of Management, JKLJU, Jaipur was the resource person for the day. The first session was dedicated to selection of variable and their measurement. Dr. Ashwini shared with the students the classification of variables into dependent and independent variable. Variables can vary between people (IQ, Height), places (weather, unemployment) or time (profit, sales, motivation, absenteeism, productivity). In the second session, Dr. Ashwini talked about the various types of hypothesis. The important things while framing a hypothesis include level of significance, confidence level, one-tailed Vs two-tailed tests and power of test. The third session of the day was designed as the practice session to enable to the participants to apply the knowledge gained

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

during the first two sessions. They completed worksheets to practice variable selection and hypothesis formulation.

DAY V

The first session of day five focused on the tools of data collection. Data for research can be collected through interview, schedule and many other secondary sources. The resource person for this session was Prof. N.D. Mathur, Dept. of EAFM, University of Rajasthan. Prof. Mathur delved into the details of data collection through primary and secondary sources. He also talked about the common mistakes made by research scholars while collecting data. According to him secondary sources have their own importance and all data sources should be handled with care. The second session was also taken by Prof. Mathur in which he talked about ethical report writing and writing a research proposal. Plagiarism is a major problem of research writing. He shared many tips with the participants to avoid plagiarism. The final session was designed to give practical exposure to the participants. The session was facilitated by Dr. Bhawana Arya. In this session, the students were asked to start working on a research proposal which was to be presented on the final day of the workshop.

DAY VI

Day six of the workshop was dedicated to develop the skills of questionnaire formation in the participants. The sessions were conducted by Prof. Sanket Viz, Dept. of Management, BPS Mahila Vishwa Vidyalaya, Sonapat. The students understood the steps in the formation of a questionnaire. Prof. Viz. talked about the different types of questions with their strengths and limitations. An adequately designed questionnaire leads to collection of relevant data for the purpose of research. The last session was designed as a practice session for the participants. Prof. Viz guided the participants through the process of developing a questionnaire.

DAY VII

The final day of the workshop was dedicated to the presentations of research proposals by the participants. The resource person for the day was Prof. Vinay Srivastava, Dept. of Social Anthropology, University of Delhi. In the first session Prof. Srivastava talked in detail about the field research. Ethnography and its importance in social science research was discussed at length. The remaining sessions saw the presentation of the research proposal prepared by the

HIS (DEPUTY TO BE UNIVERSITY)
Gurukul Math, 1/2, Kailashnagar,
Jaipur-302020 (Raj.) INDIA

participants. Prof. Srivastava listened to each proposal and provided his valuable suggestions to the participants. The sessions were followed by valediction. Prof. Srivastava gave away the certificates to all the participants.

Demonstration on Drawing in charcoal

Date: 28th March 2016

Venue: Department of Fine Arts

No. of Participants: 39

A Demonstration on drawing in charcoal was given by Mr. Steve Johnson, Associate Professor, of art at he College of Charleston, Charleston. Through this demonstration students discovered a unique set of tools and techniques designed to refine the portrait into its purest, gestural manner. The exercise was designed for two hours to establish easy-to-follow anatomical formulas and increase recognition of important torso landmarks. The demonstration consisted of a single long pose in both cool and warm light. The development of torso structure through practice and interpretation of plane shifts projecting and receding was stressed during the lecture. Aspects of anatomy, proportion and movement were discussed along with the instructions of using the dry pastel technique. The students asked many questions regarding the use of various types of material. After the demonstration the artist comforted the students with the answers. Students were given sheets to draw the model while understanding the mode of light and shade, the posture in which the model was seated, the anatomy and the muscular built. Mr. Steve drew various postures of the same model in speed drawing. He asked the students to observe the subject in just one glance and to remove eyes from there and whatever captured should be drawn in one single stroke. This exercise develops observation, understanding of various curves and shapes and memory drawing. Later in the class of Life Study, students tried this learning and could come to know that this kind of exercise develops confidence, creativity, strengthens memory and opens mind. In all this exercise made students confident and creative.

Seminar on First Step towards Retail

Date: 28th March 2016

Venue: A.V. Hall

No. of Participants: 146

Objective of the Seminar: The objective of the seminar was to make the students aware about the career opportunities in Retail sector and the advantages and the limitations of the field.

The Department of Management Studies conducted a seminar on "First Step towards Retail" on 28th March 2016 in Vinayak Hall from 12:00 to 01:00 PM. The seminar was organized for the students of BBA & MBA (Retail). The speaker of the day was Mr. Shyam Singh Shekhawat, Store Manager, Reliance Trends, Jaipur. The activity was coordinated by Dr. Chhavi Jain and Ms. Shivi Saxena. The programme started with the welcoming of the guest. After that, Mr. Shekhawat discussed the various domains of job profiles in Retail Industry and how closely they are related with our everyday life. In order to put a full stop on the stereotyped belief that Retail Industry is not suitable for women, he discussed how women are working in the field without hampering their family life. The session was very interactive and motivating. The speaker showed many videos and played several Management games with the students to motivate them to join retail industry. Finally, a vote of thanks was extended to the speaker for sparing some time from his busy schedule and sharing his rich experience with the students. The students were very happy and motivated after the lecture.

7-day workshop on research methodology for Faculty of Science

Date: 26th March-1st April 2016

No. of Participants: 30

The Centre for Research, Innovation and Training (CRIT), The IIS University successfully organized a 7-day workshop on research methodology from 26th March to 1st April 2016. The workshop communicated about various research methods, research processes, use of research tools and techniques, writing skills to the young researchers. The workshop endeavored to prepare participants to approach research in rational way, streamline the research question and pointed in context to empirical data collection strategies.

Prof. R.K. Bansal, Emeritus Professor, Department of Chemistry delivered the first talk on formulation research problem and keenly discussed the importance of scientific research in one personal and professional growth. The knowledge shared by him guided the participants to channelize their thoughts in conducting basic and applied research. Next two sessions were on structured literature review where Dr. Satish Kumar, Assistant Professor, MNIT explained the significance of organizing research papers in library form. He conveyed that the precise management of references saves time initiating quality research.

The second day of the workshop was on research methods, good practices in research and related problems faced by a researcher Dr. C.S. Gahan from Central University Rajasthan discussed all these queries of a researcher vividly, giving real life examples. The interactive sessions were valuable to solve many questions students may have in their mind.

Dr. Anil Bharadwaj, from University of Rajasthan focused on sampling techniques, measurement and scaling, data collection, optimization and simulation, initiated proceedings sessions. The following sessions were on biostatistics, Hypothesis testing, correlation and regression corresponded by Dr. A.N. Dwivedi, AIIMS, New Delhi which acquainted us with the relevance of optimized and structured data that appends to research quality with applicable results.

The next day Dr. S.C. Joshi from University of Rajasthan described the methods and benefits of data compilation and interpretation along with the details to prepare research proposal and manuscript for publication.

The sixth day of workshop with Dr. Surendra Nimesh, Central University of Rajasthan had and interactive session about reference management and various tools like Mandeley, Ref. Works,

IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

Zotero, Bibloscope and many more. Participants were highly informed and motivated to maintain their reference carefully with ease.

The last session was on Biosafety, good laboratory practices and ethics by Dr. Nidhi Gupta, Ys, SERB, DST where she talked about the prevention of large-scale loss of biological integrity, various prevention mechanisms including conduction of rules, laboratory settings, along with strict guidelines to be followed.

By the end of the programme, the participants were confident in using the right methods and tools to analyze data. They were be able to better design their primary research studies as well as to quickly enter and analyze this information.

Workshop on “Jquery, PHP and Wordpress”

Date: 21st March 2016

Venue: CIT Lab

No. of Participants: 50

Objective of the workshop: To give a hands on experience of working on JQuery and Web Development for effective web designing

A workshop was held on 21 March, 2016 on JQuery and Web Development. It was organized by DUCAT Academy, Jaipur. The presentations were Mr. Rohit Jain and Mr. Rakesh. The topics included were Elementary Concepts of JQuery, brief introduction about PHP and Wordpress. The presentation was very interactive as it had theory as well as hands on sessions. The first session included JQuery concepts which included syntax, selectors, events, methods, HTML and CSS manipulation. The second session started with the introduction of PHP, XAMPP, CMS, Apache, MySql and continued with the detailed website as well as application development through Wordpress. Different terminologies which included pages, posts, themes, plugins and widgets were discussed. The final session was the practical session wherein we created a web page through JQuery. In the end, queries and future aspects of technologies covered in the workshop were discussed. This was a very enlightening and informative session which cleared the air about the upcoming scope in Web Development.

Outcome of the workshop: The students got a hands on experience of working on JQuery PHP and Wordpress, which are used for effective web design and development.

Seminar on Protection of Plant Varieties and Farmer's Rights

Date: 10th March 2016

Venue: AV Hall

No. of Participants: 200

Objective of the seminar: Awareness on protection of plant varieties, the rights of farmers and plant breeders, and to encourage the development and cultivation of new varieties of plants

Protection of Plant Varieties and Farmer's Rights Authority (PPVFRA), Ministry of Agriculture & Farmer's Welfare, Government of India, New Delhi sponsors the program. The Protection of Plant Variety and Farmers Right Act, 2001 (PPVFR Act) is an Act of the Parliament of India enacted to provide for the establishment of an effective system for protection of plant varieties, the rights of farmers and plant breeders, and to encourage the development and cultivation of new varieties of plants. This Act received the assent of the President of India on the October 30, 2001. A Seminar on Protection of Plant Varieties and Farmer's Rights was organized on March 10, 2016 by Intellectual Property Management Cell (IPMC), The IIS University, Jaipur. The venue of the seminar was Vinayak Hall, The IIS University, SFS, Gurukul Marg, Mansarovar, Jaipur. Dr. Payal Mehtani was the seminar Convenor and Dr. Shilpi Rijhwani and Mr. Pankaj Kumar were the Organizing Secretaries of the seminar.

The program started with the Inaugural welcome address delivered by Prof. Pradeep Bhatnagar, Dean, Faculty of Science, The IIS University, Jaipur followed by the address of the Chief Guest of the event Dr. G. V. Reddy, Chief Wildlife Warden, Govt. of Rajasthan.

Mr. Sundaram Verma, farmer and plant breeder from village Danta, delivered the first lecture, district Sikar, Rajasthan on topic 'Farmers' Innovation and Crop Diversity'. He is a National Award Winner in the subject. He is founder of Society for Working on Agro Biodiversity Horticulture Initiatives Management and Nature (SWABHIMAN - an NGO) that includes 15 grass root innovator awardees in various areas and aims to provide support and promotion to their innovations. Mr. Verma showed various varieties of vegetables that he has bred along with his fellow workers. He was accompanied by two lady farmers who shared their experience in the subject and exhibits the quality agro-produce of owned farm.

The second lecture was on the topic 'An Overview of Indian agriculture with Specific Reference to Rajasthan and the Seed Legislation Including the PVP Act 2001' was delivered by Shri N.S. Rathore, Former Director, Seed Certification, Rajasthan.

REGISTRAR

Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

This was followed by lecture of Mr. Rajveer Choudhary, Director, Rajasthan Adult Education Association, Jaipur on topic 'Indian Agriculture in Global Perspective'. Next was the lecture delivered by Dr. E.V. Divakara Sastry, Professor, RARI, Jaipur 'Farmers Right Protection Act' 2001'. He added a note on the problems faced by Indian farmers.

The seminar concluded with the remarks of Mr. Pankaj Kumar, Asst. Prof. and IP Attorney, The IIS University, Jaipur.

Outcome of the seminar: Rights of farmers and plant breeders are one of the IPR under PPVFRA Act while there is hardly any awareness on protection of plant varieties, the rights of farmers and plant breeders. These programs are need of the time as encourage the development and cultivation of new varieties of plants. Participants from both internal students and teaching staffs and person interested from outside the university including Farmers were beneficiary of awareness on the legal rights on protection of plant varieties.

German Film Seminar

Date: 23rd February, 2016

Venue: A.V. Hall

No. of Participants: 47

Objective of the seminar: To learn how to analyze, interpret and comment upon various aspects of an audio-visual content pertaining to German.

The Department of German of the IIS University organized a German Film Seminar on 23rd February, 2016. The seminar was held on a German Film “das doppelte Lottchen” based on the novel written by Erich Kästner. Students from different universities e.g. University of Rajasthan, Manipal University, Jaipur, MNIT and some other institutes of Jaipur where German is being taught, participated in the Film Seminar.

The programme started with light lighting ceremony. The Chief Guest Dr. Ganeshan, Dr. Sharad Rathore, Chief Protocol Officer of the IIS University and teachers of German Deptt. lit the traditional lamp. After this Ms. Prachi Goswami, the head of Department of German welcomed the guests and the participants and also read out the rule for presentation. Participants made their presentations in German, discussing its content and analyzing, interpreting and commenting upon various aspects of the film and also relating it to the present scenario and the Indian society. They tried in their own way to reveal the message that the film wants to convey. It was a matter of great honour that Prof. Dr. V. Ganeshan, who has been earlier Head of German Department, CIEFL, Hyderabad and later on became its Vice Chancellor and is presently teaching German at the Georgia University, Atlanta, USA presided over the Presentation as the judge.

After the presentation Prof. Ganeshan gave a lucid autobiographical presentation, which left the audience completely mesmerized. After this he also spoke on the topic “Learning German : A New Window to the World, interacting lively with all the students’ audience present there through his talk.

An award distribution ceremony took place thereafter in which all the winners of the Film Seminar got their awards from the hands of the Chief Guest Dr. Ganeshan. The best presentation award went to Nistha Narang doing her Diploma in German from the IIS University. The second Prize was also won by Manasi Maheswari of Certificate Course in

IIS (DEEMED TO BE UNIVERSITY)

German at the IIS University; The third Prize was won by Kunal of Manipal University, Jaipur. The other two consolation prizes went to MNIT, Jaipur and other institutes. On this occasion Dr. Raakhi Gupta, the Registrar of the IIS University also presented a memento to the Honourable Guest Prof. V. Ganeshan. The Seminar ended with the Vote of Thanks presented by Mr. Jivendu Prasad Karna, Senior Assistant Professor and former Head of the German Department, The IIS University.

Workshop on Research Methodology

Date: 4th February 2016

Venue: AV Hall

No. of Participants: 20

Objective of the workshop: To acquaint participants with the process and steps to be followed for research project.

The session commenced with Prof. Marriya's, focused on selection of research topic, importance of research design, sample selection and data collection methods. She further explained the need of research design and how the society will be beneficiary by it. Once the students were equipped with the required inputs for research methodology, Dr. Kavita Marria started the practical workshop activity. She divided the total number of students in eight groups with six students each. By understanding the concept of research students were asked to note the topics of their interest for research projects. Every student from each group suggested their topic out of those six topics, one best topic was selected by different groups with pros and cons of topic selection. All the students were asked to vote the best topic except the one they had selected for their group. With the chosen research topics, the group had to present their perspective and scope of their research topic. Group B, group A and group D were adjudged I, II, III winners respectively with the following topics.

1. Comparative Study towards Branded & Non Branded Apparel
2. Development of Jute bags (with appliqué technique & gond art)
3. Role of advertising in Marketing

Outcome of the workshop: The workshop was an amazing experience that helped the students to improve their thinking process from the perspective of research through excellent team spirit. They made efforts to put their ideas to generate the best outcome of their Research topics. Students look forward to many such activities.

Workshop on 'Open Data Development Initiatives'

Date: 1st February 2016

Venue: CIT Lab D

No. of Participants: 58

Objective of the workshop: This workshop was planned to raise awareness and ensure that Students/researchers and beneficiary communities learn to use the policy and open tools to access timely and relevant information and data on Bank-financed projects and make the Open Agenda to be better known among academics, researchers, CSOs, and policymakers in country.

The Department of Economics organized a one day workshop on 'Open Data Development Initiatives' of the World Bank in collaboration with World Bank Group, New Delhi. The WB Group has organized around 50 such trainings in many lead institutes like IIMs, IITs, JNU, NCAER, CPR, BHU, etc. since 2012. The primary principle of the Open Development initiative was Open Data and Knowledge, Open Operations and Tools and open solutions. Broad access to these data allows citizens, CSOs, policy makers, advocacy groups and other stakeholders to make better-informed decisions and to measure improvements more accurately.

The World Bank represents a fundamental shift in its approach to making information publicly available. It recognizes the centrality of transparency and accountability to the development process and includes principled commitments to strengthen public ownership and oversight of Bank-financed operations. The Bank's Open Data, Open Finances, Geomapping, Open Knowledge Repository (OKR), publication and reports, and other platforms, open tools, Mobile apps represent its efforts to foster transparency and openness.

Outcome of the workshop: The participants got knowledge about Bank's Open Data, Open Finances, Geo-mapping, Open Knowledge Repository (OKR), publication and reports, and other platforms, open tools, Mobile apps represent its efforts to foster transparency and openness.

National Seminar on Higher Education in 2025: Growth, Opportunities and Challenges

Date: 20th -21st November 2015

No. of Participants: 157

Higher Education in India has in recent years, undergone a considerable change. With over 600 million people under 25 years of age, the system is under tremendous pressure to expand. Many trends are emerging in the key areas of higher education, research and innovation. The access to technology, social mobility of community, patterns of funding for the organizations in this sector, increasing significance of research and diversification of the education system, have acted as accelerators of transformation. Educational institutions and universities should in an appropriate manner respond to this paradigm shift, and adapt to the growing need of young India towards higher education. Across the globe the higher education sector is an important player in introducing innovative approaches along with sustaining pressures of running a large institution controlled by external factors such as rankings, increasing competition among students, attracting intellectual faculty and confronting in-house pressures from the boards. To address these issues and to explore trends, innovation and research in higher education a two-day National Seminar on “Higher Education in 2025: Growth, Challenges and Opportunities” was organized on 20- 21 November, 2015 by the Centre for Research, Innovation and Training, The IIS University, Jaipur and sponsored by ICSSR with the following objectives:

- To promote effective institutional practices aimed at improving the quality of higher education.
- To device and develop strategies to retain high quality faculty.
- To bring renewed awareness of the various aspects of governance and reforms in leadership structures.
- To analyze the sustainability of corporate-academia partnerships in higher education.
- To explore the infrastructural changes required in higher education.
- To advance the innovative practices in research.
- To discuss the role of funding agencies in expanding higher education.
- To explore the future prospects in research and higher education.

REGISTERED
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SP-3, Mansarovar,
Jaipur-302020 (Raj.) INDIA

The seminar was divided into the inaugural session, four technical sessions and the valedictory session. First technical session was devoted to panel discussion and the other three technical sessions comprised expert talks followed by paper presentations. In all, sixty five papers were received from different parts of the country.

The inaugural session of the seminar began with lamp lighting and Saraswati Vandana. Dr. Ashok Gupta, the Hon'ble Vice-Chancellor of the University, gave the welcome address and thanked the Indian Council of Social Science Research for extending support in organizing this seminar. He stated that a paradigm shift is taking place in higher education and the institutions should respond to the changing needs of the society. He was confident that the deliberations at the seminar will help us examine the issues related to higher education in a critical manner and lay out strategies for addressing this phase of transition.

The Aims and Objectives of the seminar were highlighted by Dr. Subhash Garg, Dean & Director, Centre for Research, Innovation and Training, The IIS University, Jaipur. He stated that this seminar is an attempt to review the existing educational policies as well as to identify those models of teaching and learning which will raise standards of higher education in India and make it globally competitive.

The inaugural address was delivered by Prof. Arun K. Pujari, Vice Chancellor, Central University of Rajasthan, Kishangarh. He said that it is important to analyze the past, present and future of education. He threw light on reasons for changing attitude of the people imparting and receiving education. Academic community, institutions and society are creating situations which is finally resulting in change in expectations. He focused on equity, excellence and employability as the important factors in higher education. He elaborated on the above factors with examples. He stressed that the challenge for 2025 is to motivate the private agencies for funding research in order to achieve excellence in education. He also emphasized that higher education should be co-related with society.

On this occasion a souvenir of the seminar was also released by Prof. Arun K. Pujari. Prof. Raakhi Gupta, Rector & Registrar of the University delivered the vote of thanks. She emphasized that entrepreneurial skills should be developed among the students. She thanked the resource persons, participants, guests and the organizing committee for their contribution and collective efforts.

MS (DEEMED TO BE UNIVERSITY)
Gurukul Mangal, Mansarovar,
Jaipur-302020 (Raj.) INDIA

TECHNICAL SESSION I

The topic for panel discussion in this session was 'Higher education in 2025'. The chairperson of the session was Prof. B.P. Singh, Chairman, Society for Human Transformation and Research, New Delhi. The panel experts were Prof. Devi Singh, Vice Chancellor, FLAME University, Pune, Prof. V. K. Tewari, Retd. Principal, DAV College Jalandhar, Prof. N.D. Mathur, University of Rajasthan, Jaipur, Prof. Nisha Yadav, Department of Sociology, The IIS University, Jaipur and Prof. Manju Nair, Principal, ISIM, Jaipur. The session was co-ordinated by Dr. Shweta Kastiya and Dr. Payal Mehtani, The IIS University, Jaipur.

Prof. Devi Singh presented his views on 'Future Road Map of Higher Education'. He stated that Indian Higher Education system is at the cusp of a big transformation and we need to create additional capacity to train 140 million people in the age group of 18-23 by 2025. He opined that education is supposed to transform the individual, society, nation and the world. He stressed that to achieve positive transformation we require innovative and structural changes in curriculum and pedagogy, faculty development, research and outreach, use of technology and governance.

Prof. V. K. Tewari discussed about 'GATS and Higher Education'. He threw light on various aspects of GATS and reflected on its implications on higher education. He expressed his concern about education being moved from non-profit sector to profit sector and reduction of government subsidies. He stressed that higher education should be built according to the constitution which categorically specifies that education is a non profit sector and we should not violate the basic fundamentals of our constitution by privatizing education sector.

Prof. N.D. Mathur reflected on 'Higher Education in 2025: Shifting Dynamics'. He highlighted the major trends in education and discussed how education is changing with technology, behaviour and cultural expectations. He stated that future education will be technology driven and it will shift from physical form to virtual form. He was hopeful that by 2025 India will be known for intellectual sharpness, quality of skills, educational institutions and edu-nationalism i.e a nation build by higher education.

Prof. Nisha Yadav elaborated on education for whom and knowledge for what. She stressed that higher education should have the goal of social development and well being. It should be reflective and critical. She said that there is a large gap between theory and practice. This disconnect needs to be addressed by 2025. She suggested that a new model is required for

REGISTRAR
KS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

collaboration between research and society so that effective knowledge transfer takes place. She concluded her lecture by highlighting the importance of knowledge transfer.

Prof. Manju Nair expounded on the challenges of higher education through AEQ Model where A stands for access, E stands for equity and Q stands for quality. She discussed about curriculum, pedagogy, research and infrastructure. She stressed that project based study and blended learning models should be promoted in higher education. She also recommended that life long learning should be made an integral part of higher education and there should be flexibility for the learner at entry and exit points.

The panel discussion was followed by question -answer session with the participants. The participants raised several questions related to challenges in higher education, privatization of higher education and modes of funding. The panel discussion and the interactive session proved to an enriching and intellectually stimulating experience for the participants.

TECHNICAL SESSION II

The second technical session was devoted to the issue of 'Quality Education'. This chairperson of the session was Prof. Devi Singh, Vice Chancellor, FLAME University, Pune. The resource persons were Dr. Nidhi S. Sabharwal, Centre for Policy Research in Higher Education, National University of Educational, Planning and Administration, New Delhi and Prof. V.K.Tewari, Retd. Principal, DAV College, Jalandhar. The session coordinators were Dr. Mani Bhatia and Ms. Risha Kalra, The IIS University, Jaipur

Dr. Nidhi S. Sabharwal delivered her lecture on the topic 'Equity as Quality: Student Diversity as a Resource for Quality Higher Education'. She opined that equity is a major concern in the expansion of higher education in India and stressed that student diversity is a resource for developing empowered learners. She discussed student diversity in the context of higher education and shared data from national sample survey organization. She illuminated on various aspects like gender, socio economic strata as a measure of diversity. She emphasized that it is essential that higher education does not limit itself only to prepare a workforce with technical skills but also democratic skills that prepares them to respect differences in the society. Prof. V. K. Tewari talked about the role of teachers and teacher organizations in higher education. He stressed that fair conduct of examination and evaluation is the backbone of education. Teachers have a pivotal role to play in a nation's development. There is need for continuous improvement and development of teaching learning skills. He said that it is the

REGISTRAR
MS (DEEMED TO BE UNIVERSITY)
Gurukul Mang. SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

teachers who can bring the economically backward student to the forefront and educate them. He cast his guarded doubt on the policy of uniform syllabi in all the central universities and expressed concern about privatization and commoditization of education.

The expert talks were followed by paper presentations on various aspects of quality education, like Global Higher Education Hubs: A New Era of Quality Education, Gap between Expectations of Employers and Higher Education, Women's Studies in Higher Education etc. This session brought forth many innovative suggestions for improvement in higher education.

TECHNICAL SESSION III

The second day of the seminar began with Technical Session III on the theme 'Governance: Leadership and Partnership'. This session was chaired by Prof. A.N. Rai, Former Vice-Chancellor of Mizoram University & North-Eastern Hill University, Shillong and Former Director of NAAC. Prof. B.P.Singh, Chairman, Society for Human Transformation and Research, New Delhi and Prof. K.S. Sharma, Advisor, The IIS University, Jaipur were the invited speakers in the session. The session was coordinated by Dr. Meenakshi Sharma and Ms. Geetika Vyas, The IIS University, Jaipur.

Prof. B. P Singh, started by remembering and highlighting the glorious history of India in terms of higher education since the era of Nalanda and Takshila. He then focused on the current scenario of higher education in India. He showed the quantitative dimensions of growth of universities and colleges in India from 1970 to 2015. He discussed the challenges like low gross enrolment ratio, lack of qualified faculty, accreditation system, financial constraints and poor focus on research and employability. He stated that investment in human capital formation is very critical for transforming the quality of life of Indians. He forcefully expressed that the higher education system is examination oriented, whereas it should be value oriented, skill oriented and human formation oriented.

Prof. K. S. Sharma stated that accreditation is an important aspect when we refer to the quality of educational institutions. He discussed at length the parameters used in international ranking system. He showed the rankings of Indian institutions declared by various ranking agencies and elaborated on the reasons for low ranking of Indian institutions. He suggested that the government and the teachers should make rigorous efforts to improve the current situation of higher education in India.

REGISTRAR

Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

The expert talks were followed by paper presentations. The papers were on topics like Open Educational Resources, Concerns about Autonomy and Academic Freedom, Role of Policy and Regulatory Framework in Development of Higher Education in India etc.

TECHNICAL SESSION IV

The theme of the session was 'Infrastructure and Research Funding in Higher Education'. This session was chaired by Prof. Jayanta K. Parida, Utkal University, Bhubneshwar, and President, Indian Commerce Association. The invited speakers of the session were Prof. P.K. Chaubey, Indian Institute of Public Administration, New Delhi and Prof. V.K. Shrotriya, School of Economics, University of Delhi, New Delhi. The session coordinators were Dr. Sarabjeet Kaur and Dr. R.K. Tailor.

Prof. J.K. Parida delivered his expert talk on the topic 'University-Industry Interface for Sustainable Economic Development'. He highlighted that due to the forces of globalization and liberalization there is a need to tune the higher education system in accordance with the changing market requirements. He stressed that the mind of the students should be directed towards development through university-industry interface. For this purpose the experience and knowledge of the professors and students should be exchanged with the skills, requirements and practicability of the industry. He explained the benefits of this interface and suggested various measures to overcome the barriers.

Prof. P. K. Chaubey delivered his lecture on the topic 'Public- Private Partnership in Higher Education: Examining the Case for India'. He discussed about various public private-partnership models and the current policies of government on education. He focused on the shifting government stand on higher education. He stated that private participation should be promoted for various activities like outsourcing, training, governance and sponsoring long term projects. He concluded that minimum standards have to be ensured through regulation and mandatory compliance. He recommended that education sector be kept non-commercial, so that the prospects of keeping it inclusive remained bright.

Prof. V.K. Shrotriya discussed about various aspects of Governance and Research funding. He opined that higher education institutes should find new ways of increase research funding apart from government grants.

In this session papers were presented by the research scholars and academicians on a wide range of topics ranging from Industry Engagement in Applied Academic Research, Academia Industry Collaboration, Need for Restructuring Higher Education in India, Research Funding in Higher Education to Bridging the Gap between Industry and Academics etc.

The seminar ended with the valedictory session. Dr. Shewta Kastiya, The IIS University, Jaipur gave the welcome note and the seminar report was presented by Dr. Arti Sharma, The IIS University, Jaipur. The valedictory address was given by Prof. A.N. Rai, Former Director, NAAC. In his valedictory address Prof. Rai talked about the need for a national quality assurance framework for higher education in light of RUSA and mandatory accreditation regime. He advocated that the accreditation bodies in India should take a cue from global practices to develop a credible mechanism. Vote of thanks was given by Ms. Risha Kalra, The IIS University, Jaipur.

This National Seminar on 'Higher Education in 2025: Growth, Challenges and Opportunities' brought together research scholars and academicians from all over the country to share, exchange and enhance understanding of various issues related to the process of transformation to the system of higher education.

Drug Designing and Computational Chemistry

Date: 20th October 2015

Venue: Genpact Room

No. of Participants: 30

Objective of the seminar: The design of new drugs involves several steps. Variety of concepts of Chemistry is used in drug designing. The seminar is planned to acquaint the students with the drug development process and role of computational chemistry in it.

Drug designing is referred to as an inventive process of finding new medications based on the knowledge of a biological target. Nowadays, rational drug design is often done with the help of software. Computer aided drug design i.e. CADD helps scientists in minimizing the synthetic and biological testing efforts by focusing only on the most promising compounds. Besides explaining the molecular basis of therapeutic activity, it also predicts possible derivatives that would improve activity.

Outcome of the seminar: After the seminar, the students were able to understand the process of drug development and use of computational chemistry in molecular modeling.

Workshop on Surface Ornamentation

Date: 30th September 2015

Venue: A-502

No. of Participants: 25

Objective of the workshop: To increase the various innovative and creative techniques of surface ornamentation among the students.

The Department of Fashion & Textile Technology conducted a two days workshop on “Surface Ornamentation” on 30.09.2015. The resource person for workshop was Ms. Swati Malik Entrepreneur and Freelance Designer, Jaipur. The resource person gave descriptive Threads. Color & Style, wash care instruction, shelf life-durability and adhesive/ glue according to weight & selection of embellishment and use of stabilizer under the sample for giving the support to the fabric. The purpose of this workshop was to make the students learn various innovative and creative techniques of surface ornamentation i.e shirring, ruffles, gathers, pleats and tucks and their application. A total of 25 students participated in this workshop. After the initial knowledge about the techniques the students were divided into group to conceptualize on theme and make a product out of the different techniques. They then discussed own idea with the resource person who gave valuable suggestion regarding aspects of design, They also learn how to recycle the waste material by using the straw pipe, beads, cord, newspaper and so on. It was a great learning experience.

Outcome of the workshop: The workshop was an amazing experience that helped the students to improve their thinking process and recycle the products into creative accessories.

4th Entrepreneurship Bazaar (E-Bazaar) on Campus

Date: 17th-18th September 2015

Venue: IISU Lawns

No. of Participants: 133

Objective of the activity: To provide a forum for entrepreneurship to the students from different departments and to build up an entrepreneurial ecosystem on campus.

To instill Entrepreneurial skills amongst the students, CHRYSALIS E-cell of the IIS University organized, the 4th Bazaar on Campus on 17-18th September 2015. This E-bazaar aimed at manifesting the latent entrepreneurial spirit of the students as well as teaching them skills and strategies of business. The bazaar was inaugurated by Shri. RAHAT KAZMI, Producer, Writer & Director of internationally-acclaimed films. There were 20 business plans proposed by the budding student entrepreneurs and these were evaluated on various business parameters. The judges for the event were Dr. Swati Batra, Associate Professor, Banasthali Vidyapeeth and Mr. Vinod Singhani, founder WASSUP. The judges motivated young business minds and gave awards under the following categories: Most innovative business concept, Most sustainable business venture, Star Udhyami, Campus Company, Best Decorated Stall, Best theme.

Outcome of the activity: Participants gained confidence while displaying their business models. The feedback and inputs given by judges were taken in a right spirit to improvise upon their business plans. Students got an opportunity to execute their Business Plan on campus as Campus Company, thereby giving them practical experience of challenges which a startup may face in the commercial market. Students also learned an important concept of fund raising and its importance in execution of business.

Seminar Series on 'How your research or other expression of ideas can be legally protected?'

Date: 10-14 August, 2015

Venue: A-202

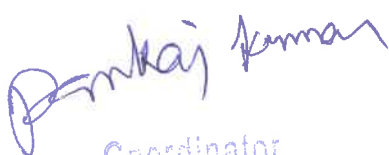

No. of Participants: 59

Objective of the seminar: To discuss legal protection of research outputs and other Intellectual properties with faculty members

To promote awareness about patents, IPMC of the university organized a seminar series for Faculty of Science department wise by Mr. Pankaj Kumar, IP Attorney, on 'How your research or other expression of ideas can be legally protected?' The session focused on Introduction to IPR, Patentable subject matter, prior art search & search databases, Patent specification, Procedure for Patenting, Government initiatives including funding agencies and IP awards. The faculty members were also acquainted with the initiatives and working of IPMC. The queries of the faculty members regarding protection of their research work were also answered.

The faculty members of Faculty of Science attended the sessions according to the scheduled dates.

Outcome of the seminar: The faculty participants learnt about IPR, Patentable subject matter, Prior-art search & search databases, Patent specification, Procedure for Patenting, Government initiatives including funding agencies and IP awards.

4-Day Workshop on Teaching Methodology

Date: 5th-8th August 2015

No. of Participants: 155

The current and impending social changes require radical educational responses. It has become imperative that traditional teaching methods are evaluated and new innovative methods are used to enhance learning and to make the classroom non monotonous. Teaching approach is shifting from teacher centered to learner centered approach. Education is a vision of future and the purpose of education is considered to be that of cultivating the spirit of innovation and fostering creativity among students. The role of a teacher has to be changed from that of an instructor to an agent of learning by enhancing their teaching competencies. To address these issues a four-day workshop on “Teaching Methodology” was organized from 5th - 8th August, 2015 by Centre for Research, Innovation and Training and Internal Quality Assurance Cell, The IIS University, Jaipur with the following objectives:

- To make the faculty participants familiar and friendly with the innovative tools of teaching and learning.
- To incorporate instructional designs to promote student engagement.
- Strategies to be used to inside and outside the classroom for encouraging the culture of learning.

The workshop began with the welcome note by Prof. Subhash Garg, Dean & Director, Centre for Research, Innovation and Training, The IIS University, Jaipur. He highlighted the aims and objectives of the workshop and expressed confidence that the training sessions at the workshop will help the teachers to examine the teaching strategies in a critical manner and build a foundation for creative and interesting teaching –learning strategies.

One hundred and fifty five faculty members of The IIS University, Jaipur participated in the workshop. Joint sessions were organized for Faculty of Arts & Social Sciences, Faculty of Science and Faculty of Commerce and Management during the first two days of the workshop. On the third and fourth day two parallel sessions were organized for Faculty of Science and for Faculty of Arts& Social Sciences and Faculty of Commerce& Management.

Training Session I

The Resource Person for the session was Prof. N.D. Mathur, University of Rajasthan, Jaipur. The topic of the session was “Dynamics of Teaching”. Prof. Mathur highlighted various aspects of inclusive teaching and the role of teacher as counsellor, communicator, collaborator and as role model. He dealt at length with the pyramid of teaching which highlighted Must, Should and Could of teaching and discussed the qualities of a creative teacher. He also analyzed the problems of teaching and the hierarchical patterns in all areas of education.

Training Session II

The topic of the session was “Teaching Aids for Effective Teaching”. The Resource Person for the session was Prof. N.D. Mathur. Various aspects of effective teaching methods like case study, brain storming, group exercises, simulations, role play and use of visual aids were discussed. Group activity was also undertaken during this session which highlighted the importance of team work.

Training Session III

The third training session was on ‘Teaching, Learning Process: Challenges and Instructional Strategies’. The resource person for the session was Prof. M.C. Sharma, Director, School of Education, Indira Gandhi National Open University, New Delhi. He stressed that learner’s experience and learner’s appraisal are important aspects of teaching learning process. He explained the challenges of education in context of explosion of knowledge, increased enrolment of learners, learning society, information and communication technology and value based education. He explained various learner centric instructional strategies which included computer assisted learning, culture specific pedagogy, blended learning using ICT and programmed learning strategy.

Training Session IV

The fourth training session was on “Class-Room Management and Recent trends in Educational Evaluation”. The resource person was Prof. M.C. Sharma. The focus of this session was on management of human and non-human resources in the classroom. Prof. Sharma dealt with the principles and processes of classroom management which included clarity and competence, participation, democratic behaviour, self control and flexibility. He also discussed the purpose of internal assessment, marking and grading system and developing a question bank. He drew attention to the features of good evaluation as validity, reliability and objectivity. The session

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

was then opened for discussion with the participants. The discussion revolved around problems of management of large number of students and assessment.

Parallel Training Sessions V (A) & VI (B)

This session was for the Faculty of Commerce & Management and Faculty of Arts & Social Sciences. The topic of the session was “Case Study Method of Teaching”. The resource person for the session was Dr. Ashwini Kumar, J.K. Lakshmipat Singhania University, Jaipur. He introduced case study method as a form of instructor guided, discussion based learning. He also described various stages of case analysis.

Group activity was undertaken during which the participants were divided into ten groups. Each group was given a case for SWOT analysis which was continued in the next session. The group representatives were asked to present their SWOT analysis. The analysis was then refined by the resource person and linked to theoretical aspects. Overall it was a good learning and educative experience for the participants.

Parallel Training Sessions V (B) & VI (B)

This session was organized for the Faculty of Science keeping in mind their specific needs of teaching learning strategies. The resource person for both the sessions was Prof. Ravi Prakash, M.D. University, Rohtak. The topic for the sessions was “True education and Milestones for Success”. He discussed about learning experiences from nature and about various parameters of success.

Parallel Training Session VII (A) & VIII(A)

This was a joint session for Faculty of Commerce and management and Arts & Social Sciences. The resource person for the session was Prof. Sanket Viz, BPS Women’s University, Sonapat. The topic of the session was ‘Applied Research as an Effective tool to enhance Class-Room Teaching- learning Process’. He discussed the use of applied research in teaching-learning strategies. This session was based on group activity. The participants were divided into 12 interdisciplinary groups. The groups were asked to choose a topic of their choice from the list supplied by the resource person. The groups were then asked to prepare a questionnaire based on their topic. This activity was continued in the next session. The questionnaires framed by different groups were then distributed among the participants. The filled questionnaires were discussed by the resource person. He enlightened the participants on various techniques of

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

framing a good questionnaire and analysis of data. The participants enthusiastically participated in the group activity.

Parallel Training Sessions VII (B) & VIII(B)

The resource for the sessions was Prof. Ravi Prakash. The topic of the session was 'Biological Organization'. He discussed about system biology, interaction at ecosystem level which include predation and competition. Further, Hardy Weinberg's law and its application for human health was illustrated. Prof. Prakash also stressed the importance of reading books for enhancement of knowledge.

The workshop on teaching methodology was an enriching experience and enhanced the understanding of various teaching learning strategies and also innovative methods of teaching. The workshop succeeded in bringing to light the latest trends in the teaching learning process which will prove to be enriching for the faculty in the times to come.

Calligraphy Workshop

Date: 5th-7th August 2015

No. of Participants: 76

In the art field it is important to have knowledge of writing- styles, fonts as it is applicable in each design. Here comes the art of Calligraphy. It is the design and execution of lettering with a broad-tipped instrument, brush, or other writing instrument. To make our students well equipped in this field, a three day “Calligraphy Workshop” was organized by the department. Shri Harishankar Balothia, an eminent Calligraphy artist and a professional graphic designer from Jaipur was the key person. 76 students took part with enthusiasm and registered for this workshop. He made the students aware of how and where the skill can be used in the market in the form of wedding invitations and event invitations, font design and typography, original hand-lettered logo design, religious art, announcements, graphic design and commissioned calligraphic art, cut stone inscriptions, and memorial documents, for testimonials, birth and death certificates, maps, and other written works.

Balothia Ji patiently explained and demonstrated the art and various techniques of calligraphy. As shown by him, ways of doing calligraphy included: pen loading, writing speed, nib pressure, the angle of both nib and pen shaft, fine entry and exit strokes, flicks and pen manipulations that follow-through and other body movements; and rhythm. Sir broached the concepts of traditional and contemporary calligraphy.

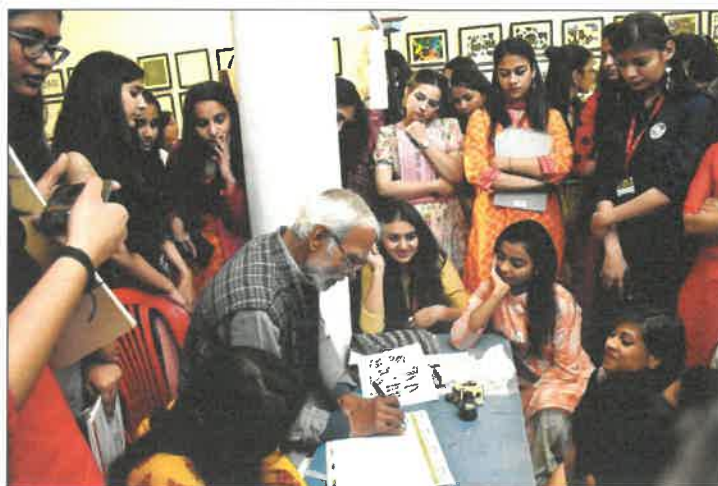

On the first day he made the students aware of the history of writing and the word ‘Calligraphy’. Later he explained the types of it and how they differ from each other. He took out his tools and demonstrated them according to the styles developed during the past centuries. He showed students how the pen, brush or any tool is gripped and moved to create interesting fonts and stylised writing. He showcased his own work of calligraphy to make the students interested. He distributed some of his own created stick calligraphy pens. The students were personally guided in trying out different styles of fonts. Second day was for creation of artwork in the own unique styles developed by the students. During the workshop the students were given assignments to write in the manner taught. He taught to write with brush, pen, kalam, and with the back of the brush even.

On the second day the students were more interested to learn this art form. They were discussing the work done by them which was given as assignments the day before. He made corrections

REGISTRAR
IIS (DEEMED TO BE UNIVERSITY)
Gurukul Marg, SFS, Mansarovar,
Jaipur-302020 (Raj.) INDIA

and asked the students to write better in different manners. All students were happy to learn such art and writing styles. On the last day it continued with the same enthusiasm and a display was done of the output of the workshop. It was a very productive interaction with the students. The workshop was an all round success.

Outcome of the workshop: Students learnt various types of calligraphy styles which were to be used in posters, hoardings etc.

Workshop: An Introduction to ChemDraw

Date: 5th August 2015

Venue: A-304

No. of Participants: 45

Objective of the workshop: ChemDraw is software used for the generation of chemical structure. The knowledge of ChemDraw is essential for the UG, PG and Research students so that they can present cleaner, authentic and high resolution structure in their work. With this aim we have planned to organize this workshop.

Department of Chemistry organized a workshop on ChemDraw for PG students and Research scholars. Demonstration was given by Ms. Nidhi Sogni, Research Scholar, Department of Chemistry, IIS (deemed to be University), Jaipur. She made the students familiar with ChemDraw. She wonderfully explained the use of ChemDraw to draw the chemical structures efficiently. She explained all the ins & outs involved in the drawing of structures such as drawing of bonds, rings of different sizes, orbitals, symbols, arrows, arcs, atomic labels and many more. Other aspects related to formatting (copy, move, resize, rotate or delete objects) were also explained. Application of ChemDraw to get the information about ¹H & ¹³C NMR of a molecule was also explained.

Outcome of the workshop: After the workshop the students were able to draw the chemical structures as for their reports and publications.

Seminar series on Awareness on IPR

Date: 22-30 July, 2015

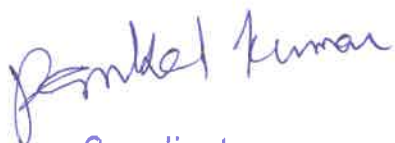

Venue: A-202

No. of Participants: 140

Objective of the seminar: To discuss legal protection of research outputs and other Intellectual properties with faculty members

To promote awareness about IPR, IPMC organized a seminar series for Faculty of Arts and Faculty of Commerce and Management department wise by Mr. Pankaj Kumar, IP Attorney. The session focused on various topics including Introduction to IPR, Trademark protection, Industrial design protection, Copyright protection and Government initiatives including funding agencies and IP awards. The faculty members were also acquainted with the initiatives and working of IPMC. The queries of the faculty members regarding protection of their research work were also answered. The faculty members of the said faculties attended the sessions according to the scheduled dates.

Outcome of the Seminar: The faculty participants learnt about IPR, Patentable subject matter, Prior-art search & search databases, Patent specification, Procedure for registration of various IPR including copyright, design, patents etc, Government initiatives including funding agencies and IP awards.
