Specific Strategies for the advanced learners

The strategies adopted for advanced learners are:

- Advanced learners are encouraged to participation & Presentation in Seminars/Conferences
- They are advised and encouraged to participate in group discussion, technical quizzes, debates, intercollege competitions and exhibitions
- Advanced learners are encouraged to take student research project
- Earn While You Learn Programme
- Provision of additional reference books for meritorious students
- MOOC Courses
- Advanced learners are encouraged to pursue COSD courses for all three years along with their degree course
- Provision of scholarship to meritorious students for Preparatory classes for Competitive Exams
- University organizes workshops and demonstration on advance concepts and encourages the advance learners to participate
- The placement cell and faculties take initiatives to make the students aware of the various competitive exams and help them to prepare for their career advancement
- To encourage and promote advanced learners University awards fellowships, certificates and cash prizes

- Participation & Presentation in Seminars/Conferences: These learners are motivated and encouraged for participation and presentation in seminars/conferences organized by the University and other institutions so that they are abreast with the latest information in the field. The faculty members provide them necessary support in writing/presenting academic papers and orient them on systematic review of literature and research methodology. Details of students participated and presented their paper in few conferences and seminars are given below.

Various Departments of the IIS (deemed to be University) organise conferences and seminars on regular basis and encourage the advanced learners to present and participate. Details of participation of students in conferences/seminars of **few such Departments are given below as a sample.**

- **‘Earn While You Learn Programme’**: The University encourages its students to take up part time job at the university under this programme. This programme aimed at developing the potential of the students as a valuable human resource and making them to understand the dignity of labour. Selected advanced learners are given the opportunity to benefit from the ‘Earn While You Learn Programme’ Scheme and earn token money in return for the jobs taken up by them. **The details of last two academic years are given below:**

Specific Strategies for Slow Learners

Strategies adopted for slow learners are:

- Peer-to Peer Learning
- Remedial classes
- Slow learners are provided with individual counselling and life skill coaching by the experienced counsellor at the Counselling and Career Development Centre (CDCC) of the University
- Provision of additional study materials
- Allocation of Mentor to every student to take care of their personal and academic affairs
- Integration of extra-curricular activities such as NSS/Sports/Cultural in the curricula right at the entry point
- To bridge the gap in learning the University organises workshops and demonstration on basic concepts and encourage the slow learners to participate

List of Slow Learners 2019-20

To provide instructional support as per their capacity and need to build and enhance the intellectual independence of its students, the University constantly strives to identify slow learners on the basis of their regular one-to-one classroom interactions, assignments and performance in continuous and comprehensive evaluation; and their participation in the classroom and curricular activities. Although, every Department identifies their slow learners and implement the strategies but, in this document the list of identified slow learners of few Departments namely Department of Chemical Science and English are given below as sample.

The strategies followed by the University to provide specific support to slow learners are as given here:

- **Peer-to Peer Learning:** To facilitate 'Peer Learning' slow learners are grouped with the advanced learners for classroom activities, assignments and projects. The answer copies of top five students are kept for reference in the library. The list of peer group of few Departments is given below as sample.
