Richness of life at The IIS University extends far beyond the classroom walls. Today, the University is recognized as a centre of excellence that nurtures intellectual and academic strivings, vibrant extra curricular activities, outreach initiatives and civic engagement. The students are encouraged to participate in a plethora of extra curricular activities which not only provide a large variety of avenues for self expression but also support them in developing a well rounded personality.

Research remains an integral aspect of growth which addresses real-world problems, informs our ethos and is an essential part of the University's pedagogical culture. This entire system is underpinned by a proactive faculty whose sustained and progressive contributions provide the much needed impetus towards excellence and innovation in all fields.

This booklet is an initiative by the University to acknowledge the achievements of our faculty and students. Due to paucity of space, the contributions catalogued here highlight only some of their accomplishments for the academic session 2015-16. These are a mere tip of the iceberg and do not reflect the full range of their talent and the accolades and kudos won by them.
