Justification for Inclusion of research papers in the Journals notified on UGC website during the last five years.

1. The University proposes the retention of same number of journals as all of them are listed in UGC-CARE list of journals. As per the guidelines of UGC, **the UGC-CARE List has two groups of journals: Group I and Group II.**
2. Group I includes journal found qualified through UGC-CARE protocols whereas, Group II includes journals which are indexed in globally accepted databases, such as Scopus (Source list) or Web of Science (Arts and Humanities Citation Index Source Publication, Science Citation Index Expanded Source Publication, Social Science Citation Index Source Publication). **(Refer Screenshot A)**

line for the submission of new journals will be 10th December 2020. Journals submitted after that would be considered only for the April 2021 update.
If any misleading and/or false metrics are displayed anywhere on the journal's website or its pages the journal will not be eligible for inclusion in the UGC-CARE List.

Message from
Prof. D.P. Singh, Chairman, UGC

Foreword by
Prof. Bhushan Patwardhan, Vice Chairman, UGC
& Chairman, UGC-CARE Empowered Committee

Important Notices

- The UGC-CARE List has only TWO groups, instead of the original FOUR groups to simplify the search process. These are NOT hierarchic or ranked groups.
[UGC-CARE List Group I](#)
Journals found qualified through UGC-CARE protocols |
[UGC-CARE List Group II](#)
Journals indexed in globally recognised databases
- Recommending any journal, through the proper proforma and process is free and the UGC does not collect any fees for the same. However, it has come to our attention that universities are charging for such recommendations by their iqac and other bodies. Researchers, editors and publishers are requested to note that no such charges have been imposed by the UGC.

3. **As per the DVV received from NAAC regarding publication details provided by INFLIBNET, the university has 121 papers published in journals indexed in Scopus and 109 papers published in journals indexed in web of science (Refer Screenshot B & C). Therefore the number of research papers in the Journals notified on UGC website during the last five years cannot be zero under any circumstances.**

4. The University also proposes to include the research papers published in **OLD UGC list of journals**, since at the time of publication; these journals were included in the UGC list. Few available screenshots have also been attached for reference.
(Refer Screenshot D)
5. The screenshot of each individual journal indicating the inclusion of the same in the UGC Care List (Group I and Group II) along with year wise details is also being given for reference. Screenshots of the papers attached for justification for Group I have been taken from UGC care list link <https://ugccare.unipune.ac.in/Apps1/User/WebA/CAREList> whereas for Group II, the same has been taken from <https://www.scopus.com/sources.uri?zone=TopNavBar&origin=searchbasic> (for Scopus indexed journals) and <https://mjl.clarivate.com/search-results> (for web of science indexed journals)

Year Wise Screenshots of the Journals listed in UGC-CARE list (Group I and Group II)

Registrar

IIS (deemed to be University),
Mansarovar, Jaipur-302020

Screenshots of the Journals listed in UGC-CARE list (Group I and Group II) for the year 2019-20 are attached below:

Screenshot No.: S1 (2019-20)

The screenshot shows a web browser window with the URL scopus.com/sources.uri. At the top, there is a notification banner titled "Improved Citescore" with the text: "We have updated the CiteScore methodology to ensure a more robust, stable and comprehensive metric which provides an indication of research impact, earlier. The updated methodology will be applied to the calculation of CiteScore, as well as retroactively for all previous CiteScore years (ie. 2018, 2017, 2016...). The previous CiteScore values have been removed and are no longer available. [View CiteScore methodology.](#)"

Below the notification, the page displays "Filter refine list" and "Display options". The "Display options" section includes checkboxes for "Display only Open Access journals", "Show only titles in top 10", and radio buttons for "Counts for 4-year timeframe" (with "No minimum selected" chosen). There are also input fields for "Minimum citations" and "Minimum documents".

The main content area shows "1 result" for the year 2019. A table lists the journal details:

Source title	CiteScore	Highest percentile	Citations 2016-19	Documents 2016-19	% Cited
1 Structural Chemistry	3.0	55% 178/403 Condensed Matter Physics	2,217	733	82

At the bottom of the browser window, the taskbar shows the Windows logo, File Explorer, Microsoft Word, and Google Chrome. The system tray on the right indicates the time as 12:51 PM on 12/9/2020.

The screenshot shows a web browser window with the Scopus website. The address bar shows 'scopus.com/sources.uri'. The page title is 'Sources'. A search bar contains the ISSN '1735-1472' and a 'Find sources' button. A notification box titled 'Improved Citescore' is displayed, stating that the CiteScore methodology has been updated for a more robust metric, effective from 2018 onwards. Below the notification, there are filter and display options on the left, and a table of search results on the right. The table shows one result for the 'International Journal of Environmental Science and Technology' with a CiteScore of 2.9, 4,481 citations, and 1,524 documents in 2019.

ISSN

Improved Citescore
We have updated the CiteScore methodology to ensure a more robust, stable and comprehensive metric which provides an indication of research impact, earlier. The updated methodology will be applied to the calculation of CiteScore, as well as retroactively for all previous CiteScore years (ie. 2018, 2017, 2016...). The previous CiteScore values have been removed and are no longer available.

i **Improved CiteScore**
 We have updated the CiteScore methodology to ensure a more robust, stable and comprehensive metric which provides an indication of research impact, earlier. The updated methodology will be applied to the calculation of CiteScore, as well as retroactively for all previous CiteScore years (i.e. 2018, 2017, 2016...). The previous CiteScore values have been removed and are no longer available.

The screenshot shows the Scopus Sources page. At the top, there are browser tabs for an inbox and UGC website, and a browser address bar showing 'scopus.com/sources.uri'. The Scopus logo and 'Preview' text are on the left. Navigation links for 'Author search', 'Sources', 'Create account', and 'Sign in' are on the right. The main heading is 'Sources'. Below it, a search bar contains 'ISSN: 2218-273X' and a 'Find sources' button. A 'Filter refine list' section on the left includes 'Apply', 'Clear filters', and 'Display options' with various checkboxes. The search results section shows '1 result' and a table with columns for Source title, CiteScore, Highest percentile, Citations, Documents, and % Cited. The result is for 'Biomolecules' with a CiteScore of 2.3 and 44 documents in 2019. A taskbar at the bottom shows various application icons and the system clock at 9:57 PM on 12/11/2020.

Total number of Publications listed in UGC-CARE list for the year 2016-17: 23

List of research papers in the Journals notified on UGC website (UGC CARE) presently is as follows:

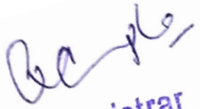

S. No.	Title of Paper	Name of the author/s	Department of the teacher	Name of the journal	Year of publication	ISSN number	Link of the recognition in UGC enlistment of the Journal	Reference Screenshot No.
1.	A Comparative Analysis of Proactive, Reactive and Hybrid Routing Protocols Over Open Source Network Simulator in Mobile Ad Hoc Network	Bhatia D., Sharma D.P.	Department of Computer Science And Information Technology	International Journal of Applied Engineering Research	2016	0973-4562	https://www.ugc.ac.in/journalist/ugc_admin_journal_report.aspx?eid=NjQ1Mjk=	S1 (2016-17)
2.	Analogy of Phosphaalkenes and Azaphospholes With Their Respective Non-Phosphorus Analogues	Bansal R.K., Gupta R., Maheshwari P., Kour M.	Department of Chemical Sciences	Current Organic Chemistry	2016	1385-2728	https://www.ugc.ac.in/journalist/ugc_admin_journal_report.aspx?eid=MTQzMzc=	S2 (2016-17)
3.	Antibacterial and Photocatalytic Degradation Efficacy of	Kumari R.M., Thapa N., Gupta N., Kumar A.,	Department of Environmental & Life Sciences	Advances in Natural Sciences: Nanoscience and Nanotechnology	2016	2043-6262	https://www.ugc.ac.in/journalist/ugc_admin_journal_report.aspx?eid=MTE4OTI=	S3 (2016-17)

Screenshots of the Journals listed in UGC-CARE list (Group I and Group II) for the year 2016-17 are attached below:

Screenshot No.: S1 (2016-17)

The screenshot shows the Scopus Preview website interface. At the top, there are browser tabs and a search bar. The main heading is "Sources". Below it, there is a search input field with the ISSN "0973-4562" entered. A "Find sources" button is visible. On the left, there are filter options under "Filter refine list" and "Display options". The search results section shows "1 result" and a table with the following data:

Source title ↓	CiteScore ↓	Highest percentile ↓	Citations 2016-19 ↓	Documents 2016-19 ↓	% Cited ↓
1 International Journal of Applied Engineering Research	N/A	N/A	N/A	N/A	N/A

At the bottom of the screenshot, there is a Windows taskbar with various application icons and a system tray showing the time as 7:21 AM on 12/12/2020.

i Improved Citescore

We have updated the CiteScore methodology to ensure a more robust, stable and comprehensive metric which provides an indication of research impact, earlier. The updated methodology will be applied to the calculation of CiteScore, as well as retroactively for all previous CiteScore years (ie. 2018, 2017, 2016...). The previous CiteScore values have been removed and are no longer available. [View CiteScore methodology.](#)

AN EMPIRICAL STUDY OF CRM (CUSTOMER RELATIONSHIP MANAGEMENT) STRATEGIES ADOPTED BY SELECTED RETAIL OUTLETS OF UNITED STATES OF AMERICA: (A STUDY IN SPECIFIC REFERENCE TO WAL-MART SUPERCENTER AND TARGET SUPERCENTER)

Dr. Ankita Jain¹, Ritu Sharma²

¹Associate Professor, Department of Management, The IIS University, Jaipur
²Research Scholar, The IIS University, Jaipur

ABSTRACT

This paper deals with the concept of Customer Relationship Management and how retail outlets adopts this practise very effectively to enhance its relationship with customer and in return to gain customer loyalty. Numerous articles have been reviewed in order to gain the clarity regarding the concept of Customer Relationship Management. The main aim of this study is to analyze the preference of customers towards the selected retail outlets on the basis of CRM strategies followed by them respectively. With the help of structured questionnaire, customer's responses have been undertaken to conclude the results of the study in significance of Customer Relationship Management. The sample of 140 respondents was taken from Plano, Texas. Data was analyzed by using different statistical techniques such as descriptive statistics, Independent sample test and ANOVA analysis.

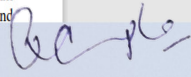

Keywords: CRM, Customer Loyalty, Wal-Mart Supercenter, Target Supercenter

Introduction

Customer Relationship Management is a cross-functional process for achieving a continuing dialogue with customers, across all of their contacts and access points, with personalized treatment of the most valuable customers, to increase customer retention and
